Computer Gaming Certificate (ESSICERT)

Campus: TEMPE

Description: The computer gaming certificate is designed to provide a game development skill set that the student can apply to domain specific applications in the student's major. The skill set includes:

- Architecture of game engines.
- Art design and computer graphics for gaming.
- Game software development.

In this certificate program, students will learn to apply gaming technology to the rapidly growing video game industry and to business, medicine, geography, biotechnology and education. Examples of projects include:

- Building a game that teaches linear algebra by incorporating trigonometric rules into the game design.
- Creating a game that teaches correct sentence construction to early English learners.
- Creating an interactive virtual world for corporate training.
- Designing a game platform incorporating geographic information systems.
- Inventing a surgical simulation to educate medical students.

- Creating a game to help patients with physical therapy.

Program Requirements: Students will complete nine credit hours of core courses, including a final capstone project and nine credit hours of track courses.

Core Courses

CPI 111 Game Development I
CPI 211 Game Development II
CPI 441 Gaming Capstone

Track Courses (choose three courses)

CIS 394 Project Management
CPI 311 Game Engine Development
CPI 321 Fundamentals of Game Art
CPI 411 Graphics for Games
CPI 412 Cognitive Systems and Intelligent Agents
CPI 421 Modeling and Texturing
CPI 422 3D Animation and Rigging
DCI 451 Design Research and Educational Gaming
EDT 329 Games, Simulations and Virtual Environments
RDG 440 Computer Gaming Learning and Literacy

Programming courses focus on how game engines work and writing software. Art courses teach the visual aspects of game design. In education courses, students will apply game design skills to achieve educational goals.

Enrollment Requirements: The computer gaming certificate is open to any student admitted to an undergraduate degree program at ASU and in good academic standing. This certificate can also be used by B.I.S. students as part of their degree program.

All students are eligible to take CPI 111. Students who want to continue in the certificate classes must be approved to enroll in the computer gaming certificate by completing the Undergraduate Certificate form from the registrar's website and submitting it to the School of Computing, Informatics, and Decision Systems Engineering (CIDSE) Academic Advising Center located in the Brickyard Building, room 208. B.I.S. students can contact their B.I.S. advisor to add the computer gaming concentration to their degree program.

Convention Sales and Meeting Planning Certificate (PPTDMCERT)

Campus: DTPHX

Description: The U.S. meetings, conventions and exhibitions industry generates more than \$120 billion a year, supporting nearly two million jobs. Students can explore this exciting growth industry with the convention sales and meeting planning certificate. The demand for professionals is strong and we provide an excellent foundation for enhancing career opportunities nationally and regionally. Phoenix is a major convention and meeting destination.

The \$600 million investment in the Phoenix Convention Center expansion, new hotel and other visitor-related product development, as well as corporate headquarters that continue to relocate to the greater Phoenix area have created the need for qualified professionals to service conventions and meetings. The certificate, which has been endorsed by the Greater Phoenix Convention and Visitors Bureau and the Arizona Sunbelt Chapter of Meeting Professionals International, will enhance a graduate's career opportunities as a tourism professional.

Program Requirements: The certificate requires 15 credit hours, four required core courses (12) and one elective course (3). Courses taken as part of a university major may count toward that degree and the certificate. Requirements can be met online. All core classes and some elective classes are taught online at least once a year. To earn the certificate, students must complete all course work in the certificate with a minimum grade of "C" or better. An application to the program is required.

Required core courses (12)

TDM 205 Introduction to Travel and Tourism, G (3)
TDM 345 Meeting and Convention Planning (3), prerequisite: TDM 205, grade of "C" (2.00) or better
TDM 350 Tourism Marketing (3), (prerequisites: must have completed REC 305 or TDM 205 with a grade of "C" (2.00 on a 4.00 scale) or higher or be currently enrolled; must have completed 45 hours)

TDM 386 Convention Management and Sales (3)

Choose one elective course (3)

PRM 486 Special Events Management (3)

TDM 325 Tourism Accommodations

TDM 458 International Tourism

Standards

- Fifteen hours of graded classroom coursework (no internship, no independent study).
- A minimum "C" (2.00) grade required for all classes in the certificate.
- A minimum GPA of 2.00 for those pursuing the certificate.
- Must be a junior to take 400-level courses.

Enrollment Requirements: Students wishing to pursue the convention sales and meeting planning certificate should consult an academic advisor in the School of Community Resources and Development. For additional information, please visit the college website.

Creative City Certificate (PPURBCERC)

Campus: DTPHX

Description: The creative city certificate prepares students to engage effectively in revitalizing cities and communities by tapping their inherent potential for cultural innovation, place-making and social/economic entrepreneurship. Exploring best practices globally, students develop asset-based proposals for specific locales including implementation plans. The creative city certificate adds value to other majors as well as work/life experience for students aspiring to assume leadership roles in improving quality of life, specifically by enhancing quality of place.

Cities are centers of human creativity and cultural innovation. They both attract and breed these. Such creativity and innovation are apparent in the vitality of the arts, as well as that of businesses (large and small), research (basic and applied) and the everyday life unique to any given locale. These are the ingredients that make our places sustainable, economically, socially and environmentally, by endowing a "sense of place" along with a "sense of community."

This certificate also serves professionals in the community working in the areas of:

- Community development.
- Land-use law.
- Parks and recreation.
- Philanthropy.
- Planning.
- Public art.
- Urban governance and others.

Flexible class times and locations make the certificate a viable option for those unable to attend classes during the day.

Program Requirements: The five-course sequence comprising the certificate will enable students to build upon their own strengths in order to help cities and communities creatively build upon their capacities. The creative city certificate consists of a maximum of 15 credit hours of course work. All courses must be taken at ASU. Required courses and electives are shown below.

Required core courses

URB 405 Citizen Engagement and Community Building (3). Develops a conceptual, critical, and practical understanding of urban dwellers involvement in community affairs as citizens and as builders of vital neighborhoods and vibrant cities.

URB 406 Public Administration and Community Development (3). Examines critically the concepts "community" and "development" and considers how important forces such as diversity, civic life, changes in social space and globalization affect our understandings about these concepts and influence our actions.

Elective courses

- GRA 401 Creating Environments (3)
- NLM 160 Voluntary Action and Community Leadership (3)

- NLM 220 Introduction to Nonprofit Organizations (3)
- NLM 300 Fund Raising and Resource Development (3)
- NLM 402/TDM 402 Assessment and Evaluation of Community Services (3)
- PAF 420 Public Leadership (3)
- PAF 494/APA 450 Contemporary Issues--Civic Enterprise (3)
- PRD 302/NLM 302/TDM 302 Inclusive Community Development (3) [CRD majors only]
- PRM 120 Leisure and the Quality of Life (3)
- RM 301/NLM 301/TDM 301 Sustainable Communities (3)
- REC 210 Community Resources and Services (3)
- TDM 448 Heritage and Cultural Tourism (3)
- URB 220 Introduction to Urban America (3)

Enrollment Requirements: The creative city certificate is available to all admitted undergraduate students (regular or nondegree) at ASU. Nondegree students are required to apply to ASU (as a nondegree student) and once admitted, contact the School of Public Affairs to be admitted into the certificate program. Students may begin taking courses before they formally apply for the certificate; however, they should apply for admission as soon as possible.

Digital Culture Certificate (HIDGCCERT)

Campus: TEMPE

Description: The digital culture certificate program in the Herberger Institute for Design and the Arts focuses on the creative exploration of how new media is influencing our culture, or rather, the way we live, learn, create and communicate. The digital culture certificate will allow students to enhance their program of study with integrated, interdisciplinary training in creative processes and technical skills in new media with cultural applications.

The digital culture curriculum is outcomes-based rather than course sequence-based. The curriculum uses an innovative proficiency-based network to connect courses across academic disciplines, instead of traditional methods such as course prerequisites. Proficiencies in the curriculum identify common generalized learning outcomes across disciplines participating in the initiative.

Program Requirements: The digital culture certificate requires 18 credit hours (12 upper division) in four areas:

- Digital Culture Studies (9)
- Media Arts and Design (3)
- Media Engineering (3)
- Capstone Culminating Project (3)

For a list of Digital Culture courses, please visit: <http://digitalculture.asu.edu/education/courses> (<http://digitalculture.asu.edu/education/courses>)

A minimum grade of a "C" (2.00) and an overall GPA of 3.00 is required in all classes in the certificate. Courses in the certificate may not be used as part of a major. All upper-division certificate course work must be taken at ASU.

Generous substitution rules allow for course flexibility. Students receiving the digital culture certificate can petition to substitute up to six credit hours. Three credit hours can come from any course related to digital culture and may be achieved through courses offered by any unit of ASU including the Polytechnic, Downtown, West (IAP), and the FMS program on the Tempe campus. Courses may include any on the list of related subjects/substitutions (below) or courses with comparable content.

The other three substitution hours can be achieved through one of the following two paths:

- The three-hour media arts and design course requirement may be substituted with a three-hour course in the digital culture related category.
- The three-hour media engineering requirement may be substituted with a three-hour course in the digital culture related category, or by a related upper-level engineering course offered by one of the collaborating units.

Enrollment Requirements: For current ASU students, there is no special application process for the digital culture certificate. Students add the certificate by meeting with the academic advisor for their major and the digital culture education coordinator to develop the digital culture pathway that best meets the proficiencies for the work they are interested in pursuing. This pathway will be contingent upon the student's academic performance in 100-level course work.

For students not currently enrolled at ASU, students must apply and be admitted to ASU in a degree or nondegree program. Students must meet with the digital culture education coordinator before enrolling in the certificate program. The coordinator and student will develop a pathway that best meets the proficiencies for the work he or she is interested in pursuing. The coordinator will review the student's previous academic work to determine which proficiencies the student has completed.

Digital culture certificate students will work with the digital culture education coordinator and successfully complete the required sequence of courses and proficiencies for a digital culture certificate. The digital culture education coordinator and the digital culture faculty committee in the Herberger Institute for Design and the Arts will help to craft the best path for the student.

East Asian Studies Certificate (LAEASCERT)

Campus: TEMPE

Description: The certificate in East Asian studies can supplement a bachelor's, demonstrating knowledge of an Asian language as well as knowledge of Asian history, art, culture or society. This certificate helps prepares students for admission to graduate programs in Asian area studies or in an academic discipline with an Asian focus, or for professional programs in international law or business. Recent Asian studies graduates have gone on to enter medical school, law school, M.B.A. programs or Ph.D. programs. An earned certificate will appear on student transcripts as an East Asian studies emphasis.

Program Requirements: The certificate curriculum includes 24 credit hours of course work:

- Fifteen credit hours of upper-division area studies course work in at least three disciplines outside of languages and literature courses (such as anthropology, art, geography, history, political science and religious studies).
- Nine credit hours may be some combination of lower- and/or upper-division courses (six hours may be satisfied with language and literature courses limited to 321 and above).
- In addition, certificate students must demonstrate proficiency in an Asian language at the intermediate level. The language requirement can be satisfied by one of the following:
 - Completing the 201 and 202 sequence
 - One year of study abroad at the intermediate level
 - Satisfactory placement on a proficiency exam.

Asian languages include:

- Chinese.
- Hindu/Urdu.
- Indonesian.
- Japanese.
- Korean.
- Thai.
- Vietnamese.

Students pursuing an East Asian studies certificate must fulfill the language requirement in either Chinese, Japanese or Korean, and the 15 hours of upper-division course work must be courses with significant focus on East Asia chosen in consultation with the Center for Asian Research advisor.

A minimum grade of "C" (2.00) is required for each course that is used to fulfill the certificate requirements.

Enrollment Requirements: There are no specific admission requirements other than a student's desire to learn about East Asia. Please contact the department for more information and see http://www.asu.edu/clas/asian/certificate_undergrad.html (http://www.asu.edu/clas/asian/certificate_undergrad.html). All advising for this certificate is done through the School for International Letters and Cultures. Please contact silcadvising@asu.edu (<mailto:silcadvising@asu.edu>) to schedule an appointment with an advisor.

Economic Justice Certificate (LAECNJCERT)

Campus: TEMPE

Description: This certificate focuses on the application of justice principles to different fields of economics, including microeconomics, macroeconomics, labor economics, public finance, development and international trade and investment, among others.

Students will gain transdisciplinary knowledge of economic justice that will promote the growth of sustainable communities, locally, nationally and globally. Areas of focus include different approaches to economic justice, wealth and poverty, labor movements and unionization, social innovation, legal constructions of labor justice and forms of work discrimination, employment and welfare advocacy and activism.

The course work in this certificate will prepare students to:

- Analyze and develop policies to build local skills.
- Develop the capacity to design, control, manage and evaluate initiatives aimed at economically revitalizing communities.
- Increase research abilities.
- Lay the groundwork for new approaches to economic justice.

Program Requirements:

- 18 total credit hours required for the certificate.
- "C" (2.00) grade or greater required for each course.

1. Theories and Foundation in Economic Justice (3 credit hours)

To provide student with a background in theories and philosophies of economic justice, student will select one of the following courses:

ASB 416 Economic Anthropology
COM 450 Theory and Research in Organizational Communication
ECN 360 Economic Development
JUS 321 Wealth Distribution and Poverty
JUS 323 Justice and Development of the Welfare State
JUS 325 Globalization and Economic Justice

2. Economic Justice Praxis (3 credit hours)

To better understand community, NGOs, government policies and other collective efforts aimed at improving economic conditions through various strategies, including asset building to low income communities, community based micro-finance, economic development, advocacy and training efforts. Students will select one of the following courses:

AIS 394 Indigenous Nation Building/Com/Econ Development
ASB 328 Rules, Games and Society
ECN 331 Economics of the European Economic Union
JUS 320 Community and Social Justice
JUS 405 Economic Justice
PUP 434 Urban Land Economics
SGS 394 Principles for Economic Development and Globalization
SGS 394 Policies for Economic Development (soon to be SGS 352)
SWU 432 Social Policy and Services
SWU 498 Border Families Community Asset Building

3. Interdisciplinary Component (9)

To provide students an opportunity to focus on a particular racial group, nation or region or specific historical event while also providing a broad interdisciplinary framework, students will select three electives. Courses must be taken from both of the substantive areas listed below, and from two or more academic units. Any course listed below may count toward this requirement, as well as other courses as approved by the certificate program director.

Race, Gender, Class, Citizenship and Economic Justice:

AIS 380 Contemporary Issues of American Indian Nations
AIS 494 Readings in Decolonization
APA 394 Asian Pacific Americans and Immigration
APA 394 Inequality and Diversity in Education (soon to be APA 350)
ASB/POS/SGS 447 Citizenship, Nationalism, and Identity
CRJ 305 Women, Crime and Justice
CRJ 306 Race, Ethnicity and Justice

ETH 300 Principles of Ethnic Studies
FAS/AFS 370 Family, Ethnic and Cultural Diversity
HST 325 Immigration & Ethnicity in the United States
HST 333 African American History to 1865
IAS 305 Work and Identity
JUS 420 Women, Work and Justice
JUS 415 Gender and International Development
JUS 425 Race, Gender and Justice
JUS 438 Human Differences Dilemmas of Justice
JUS 479 Law and Disputing
SOC/FAS 324 Work and the Workplace
SOC 423 Social Class and Stratification
SWU 374 Diversity and Oppression in a Social Work Context
TCL 314 Transborder Regional Immigration and Economy
WST 394 Women, Work and Poverty
National and Global
AFS 304 Islands of Globalization Caribbean Politics and Political Economy
ASB/SOC/SBS 342 Mexico-United States Borderlands
JUS 408 Comparative Development of the Welfare State
JUS 469 Political Deviance and the Law
PHI 309 Social and Political Philosophy
POS 480 Global Justice
POS 486 International Political Economy
SGS 394 Global Markets
SGS 394 Principles of Economic Development and Globalization

SOS 430 Sustainable Economic Development and Social Transformation
TCL 444 The Ethnography of Mexico and the Borderlands

4. Experiential Learning Component (3 hours)

A central element of this certificate program will be the linkage of learning and doing; connection theoretical and substantive learning about economic justice with practical knowledge about the workings of organizations and institutions seeking to address poverty and the wealth gap. To better connect classroom learning with practical experience, students will be required to participate in either a for-credit internship or a Research Experience with Undergraduates (REU) under faculty supervision (honors thesis may substitute). A written component to the internship or REU is required.

Enrollment Requirements: In order to declare this certificate, students must have a minimum of 56 earned credit hours and must first meet with an academic advisor.

Entertainment and Technology Certificate (LAFMSUERE)

Campus: TEMPE

Description: The entertainment and technology certificate is for students who have completed a course of study that includes 18 credit hours of entertainment and technology history, theory and convergence. It certifies the student has had the training to analyze industry changes through time, to identify current industry trends and to develop likely entertainment and technology models and scenarios for the future.

Program Requirements: ASU students admitted to a degree program in any field of study are eligible for the entertainment and technology certificate. In addition to the course work and examinations required in the major field of interest, students are responsible for fulfilling the requirement of 18 credit hours to earn the certificate. The upper-division courses are a three-course sequence and are taken upon completion of three lower-division film and media studies courses. A minimum grade of "C" (2.00) or better is required in each course. Required certificate core courses (18 credit hours) are:

FMS 100 Introduction to Film (3), HU
FMS 110 Introduction to New Media (3), L or HU
FMS 200 Film History (3), (L of HU) and H
FMS 302 US Media Now (3)
FMS 481 Entertainment Technologies (3)
FMS 483 Techno-Entertainment Convergences (3)

Enrollment Requirements: Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Office of Admissions online application. Please contact the department for more information and see <http://english.clas.asu.edu/film-entertech> (<http://english.clas.asu.edu/film-entertech>).

Environmental Humanities Certificate (LAENHCERT)

Campus: TEMPE

Description: The environmental humanities certificate offers students who are interested in humanities-based approaches to the current global environmental crisis an option to focus in this vital area of study. Students take three ENG/ENH courses and four electives from selected programs that are focused wholly or in large-part on the human relationship to the environment and the relationship between nature and culture. To gain practical experience, certificate students also complete a required English internship in environmental activism, policy development, education or other pertinent areas.

Program Requirements: The environmental humanities certificate consists of 24 hours, of which at least 6 must be upper-division from the Tempe campus.

Core Required Courses (9)

Complete three English courses from the list below:

ENG 334 The American Southwest in Literature and Film (L/HU) (3)

ENG 359 Indigenous American Literature (L/HU, C) (3)

ENG/TCL 363 Transborder Mexican and Chicano/a Literature of Southwest North America (L/HU, C) (3)

ENG 367 Environmental Issues in Literature and Film (L/HU) (3)

ENG 370/BIO 315 Science, Values, and the Public (3)

ENG 371 Rhetoric of the Environmental Movement (3)

ENG 378 Environmental Creative Nonfiction (L/HU) (3)

ENG 468 Environmental Literary Criticism (L/HU) (3)

ENG 469 Science and Literature (L/HU) (3)

Internship (3)

ENG 484 Undergraduate Internship: Environmental Humanities Certificate (3)

Electives (12)

Complete four additional courses (see advisor for approved list). Other courses may be approved by English advisor depending on special- or variable-topics courses available in given semesters.

Enrollment Requirements: For more information about the environmental humanities certificate, contact an advisor in the Department of English.

Contact Information:

Liberal Arts & Sciences, College of
Department of English

Environmental Humanities Certificate (LSEHCERT)

Campus: DTPHX

Description: The environmental humanities certificate offers students who are interested in humanities-based approaches to the current global environmental crisis an option to focus on this vital area of study. Students take courses and electives from selected programs that are focused on the human relationship to the environment and the relationship between nature and culture. To gain practical experience, certificate students also complete a required internship in environmental activism, policy development, education, or other pertinent areas.

Program Requirements: This certificate is comprised of 24 credit hours.

Core (9 credit hours): Pick three ENG courses from the list below. Note: Other ENG courses may be approved by SLS advisor depending on special- or variable-topics courses available in given semesters.

ENG 334 The American Southwest in Literature and Film (L/HU)
ENG 359 American Indian Literatures (L/HU, C)
ENG 363/TCL 363 Transborder Mexican and Chicano/a Literature of Southwest North America (L/HU, C)
ENG 367 Environmental Issues in Literature and Film (L/HU)
ENG 371 Rhetoric of the Environmental Movement
ENG 378 Environmental Creative Nonfiction (L/HU)
ENG/BIO 394 Science, Ethics, and the Public
ENG 468 Environmental Literary Criticism (L/HU)
ENG 469 Science and Literature (variable-topics course) (L/HU)
Internship (3 credit hours): Work with SLS internship coordinator to develop an appropriate internship.

ENG 484 Undergraduate Internship: Environmental Humanities Certificate (3 hrs.)

Electives (12 credit hours): Complete four additional courses (see advisor for approved list). Some courses are limited to students majoring in the discipline, have prerequisites, or cannot be taken in combination with another course on the list. Additional courses may be approved by the English advisor depending on special- or variable-topics courses available in given semesters.

Requirements:

- A minimum of 12 upper-division hours is required, with at least six of these taken at ASU.
- A grade of "C" or higher is required in all courses taken for the certificate.

Ethics Certificate (LAETHCERT)

Campus: TEMPE

Description: The ethics certificate is designed to give students a richer understanding of systematic philosophical thinking about ethics. Students with majors in business, nursing, journalism and public administration, and students planning to pursue legal careers, among others, may well find that training in ethics is beneficial to their career goals. The certificate program permits some flexibility regarding course selection, thereby facilitating particular student interests. Students must consult with an academic advisor in the School of Historical, Philosophical & Religious Studies to declare the certificate.

Program Requirements: The certificate in ethics consists of 18 credit hours approved by the undergraduate advisor in the School of Historical, Philosophical and Religious Studies. The student must take PHI 305 or PHI 335. At least 15 credit hours must be chosen from PHI 105, 304, 305, 306, 307, 309, 310, 320, 335, 360 and (when its topic is within ethics) PHI 420. One course outside this list, and perhaps outside the school, may be used with written approval from the director of undergraduate studies. All courses must be passed with a minimum grade of "C" (2.00).

Enrollment Requirements: Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Office of Admissions online application. Please contact the School of Historical, Philosophical and Religious Studies for more information.

Ethnic Studies Certificate (ASETHCERT)

Campus: WEST

Description: The certificate in ethnic studies is designed for students who plan to work and live in ethnically diverse communities and seek to acquire the skills for understanding the complexities of race, class and gender at local or national levels. It is expected students in the certificate program will be able to think analytically and creatively about ethnicity in the U.S. The certificate is strongly recommended for students who plan to enter a wide variety of jobs in business, health professions, the criminal justice system, social services, education, public relations, community development, public policy or government. It is also valuable for students preparing for further graduate study.

Program Requirements: A certificate in ethnic studies is awarded for successful completion of 21 credit hours, including ETH 300, and 18 credit hours of elective courses from the approved course list. The certificate program is recommended for graduate students, non-degree students and students majoring in professional programs.

Enrollment Requirements: Students wishing to pursue the ethnic studies certificate should consult an academic advisor in the unit offering that certificate to ensure that the appropriate set of courses is taken and required paperwork submitted.

European Union Studies Certificate (LAEUSCERT)

Campus: TEMPE

Description: The European Union, or EU, is the biggest economic bloc in the world and also one of the most important economic and political partners of the United States. This certificate enables the student to develop expertise in the cultures, governments, and economies of the EU. It thus gives expertise valuable to potential employers doing business in the EU. It may serve as a beneficial complement to a bachelor's degree, or as a non-degree program for training business persons and others who wish to enhance their knowledge of European cultures, politics, economics and societies.

Program Requirements: Required core course (3 credit hours): Either ECN 331 - Economics of the European Economic Union (S. Gallais) or POS 356 European Union (C. Warner).

Five elective courses from the following list (15 credit hours). Additional courses may be approved by the coordinator of the certificate program. Of these fifteen credits, at least three must be in history (HST) or geography (GCU); at least three must be from a SILC civilization course, and at least three must be taken in a non-English EU language.

ENG 429 Studies in European Literature and Culture
FRE 322 French Literature
FRE 325 Introduction to French Film
FRE 416 French Civilization II
FRE 494 French Women in Society, Politics and the Arts
GCU 325 Geography of Europe
GER 416 German Civilization
GER 422 German Literature II
GER 453 German Masterpieces in Film
HST 304 Studies in European History
HST 351 Renaissance Europe
HST 356 Europe since 1945
HST 364 Sex and Society in Modern Europe
HST 365 Women in Europe
HST 367 Modern Britain
HST 368 Culture and Imagination in European History
HST 370 Eastern Europe in Transition
HST 427 French Revolut/Napoleonic Era
HST 428 Modern France
HST 429 Modern Germany
HST 432 Eastern Europe and the Balkans in the 20th Century
HST 438 Modern Spain
HST 465 Women in Europe 1750 to Present
ITA 315 Italian Civilization
ITA 322 Introduction to Italian Literature II
ITA 420 Italian Cinema
SLC 494; ENG 494; POS 494; GCU 494 Stalinism in Literature and Films in Modern Europe
SLC 494 Society and Culture in Modern Europe
SLV 394 Societies in New Eastern Europe
SPA 426 Spanish Literature
SPA 473 Spanish Civilization

Enrollment Requirements: Degree students: ASU students with at least a 2.00 GPA and sophomore standing or above in

any degree program will be eligible for the European Union certificate program. Non-degree students: Must have completed two years or more of college.

Family Communication Certificate (ASFAMCCERT)

Campus: WEST

Description: The family communication certificate offers students an opportunity to specialize their studies on issues regarding communication in the family. The certificate complements the current communication program by bringing together a broad array of courses that have family implications, such as courses in new media and health. In addition, students are encouraged to take courses in other disciplines that complement family-related communication courses.

Program Requirements: The certificate consists of 19 credit hours: 12 credits must be upper division, six must be non-communication credits, and a one credit exit portfolio course is to be taken after a minimum of 12 credits have been completed. Twelve of the 19 credits must be ASU credit. Six credits may be double counted with one's ASU major. Each class must be passed with a "C" (2.00) or better.

Required Core Courses (6):

COM 411 Communication in the Family, SB

Select one:

COM 312 Communication, Conflict, and Negotiation

COM 410 Interpersonal Communication Theory and Research, SB

COM 417 Communication and Aging

Four courses must be selected from at least two content areas listed below (12):

Social and Cultural Elements of the Family

AFS 370 Family, Ethnic and Cultural Diversity, SB, C

ASB 346 Marriage and Family Diversity, SB, C

COM 316 Gender and Communication, SB, C

COM 410 Interpersonal Communication Theory and Research, SB

FAS 301 Introduction to Parenting

FAS 331 Marriage and Family Relationships, SB

FAS 370 Family, Ethnic & Cultural Diversity, SB, C

FAS 435 Advanced Marriage and Family Relationships, L or SB

SBS 440 Family Studies

SOC 415 The Family (SB)

Technology, Media and the Family

COM 424 Television Studies and Criticism

COM 457 New Media

ENG 244 Introduction to Researching Family History

MCO 473 Sex, Love, and Romance in the Mass Media, SB

Health and Family Development

ALD 403 Aging, Lifespan Development, and the Family

ALD 420 Health Issues and Older Adults, SB

ALD 431 Caregiving for Older Adults

CDE 430 Infant/Toddler Development in the Family, SB

CDE 437 Infant Family Assessment and Observation, L or SB

COM 417 Communication and Aging

CRJ 204 Juvenile Justice

FAS 332 Human Sexuality, SB

FAS 431 Parent-Adolescent Relationships, SB

FAS 436 Sexuality in Mid-Life and Beyond

PGS 341 Developmental Psychology, SB

PGS 443 Abnormal Child Psychology (L or SB)

PGS 444 Adolescent Psychology and Psychopathology
SOC 312 Sociology of Adolescence (SB)

Community Application

COM 484 Internship (in consultation with FCC advisor)
COM 498 Inner City Families: Cycle of Poverty
COM 498 Inner City Families: Special Topics

Portfolio

COM 498 Seminar Family Communication Portfolio (1)*

This course is a synthesis of students' family communication academic experience. The portfolio itself integrates each student's family communication experience with theory and concepts from family communication courses. The portfolio may take a variety of forms, to be negotiated by each student with the instructor. This course is to be taken after a minimum of 12 credits toward the certificate have been completed.

*Substitutions allowed with faculty advisor approval.

Enrollment Requirements: Please contact the department.

Film and Video Studies Certificate (ASVIDCERT)

Campus: WEST

Description: The certificate in film and video studies explores theory and practice in the general field of the moving image. This interdisciplinary program provides students an opportunity to develop interests, skills and knowledge of the forms, channels, technologies and histories of the media arts. Students may pursue focused interests in film studies or adopt a more generalized approach to visual media through television, film and video. The program is useful to students who may pursue careers in broadcasting, writing and public relations and degrees in production, film studies, media studies, performance studies and communication studies. Courses in the film and video studies certificate are designed to:

- Develop astute and discriminating critics and analysts of film and media arts.
- Develop knowledge of the history of film, television and the video arts as dynamic forces of social, cultural and political expression.
- Develop practical skills that enable students to be competitive in film, video, television and media-related production industries.
- Strengthen critical thinking through an awareness of the philosophical, aesthetic, political and technological debates in film, media and video studies.

Program Requirements: A certificate in film and video studies is awarded for the successful completion of 21 credit hours, 15 of which must be upper division (300 and 400 level). Students choose a focus in media and video studies or film studies.

Enrollment Requirements: The certificate in film and video studies is open to all undergraduate majors.

Students wishing to pursue the certificate should consult an academic advisor in the unit offering that certificate to ensure the appropriate set of courses is taken and required paperwork submitted.

Geographic Information Science Certificate (LAGISCERT)

Campus: TEMPE

Description: The geographic information science (GIS) certificate program is a structured interdisciplinary program. It is built on GIS course work

currently being taught at ASU. Students who earn the certificate exit the program with standardized skill sets based on learning outcomes associated with each required course.

Program Requirements: The certificate is awarded to students completing the following 19 credit hours with a grade of "C" (2.00) or higher.

Required courses

CSE 100 Principles of Programming with C++, CS (3) or CSE 110 Principles of Programming with Java, CS (3)

GCU 495 Quantitative Methods in Geography, CS (3)

GPH 370 Geographic Information Technologies, CS (3)

GPH 373 Geographic Information Science I, CS (4)

GPH 473 Geographic Information Science II, CS (3)

Electives (3)

ABS 485 GIS in Natural Resources (3)

ABS 586 Remote Sensing in Environmental Resources (4)

GCU 361 Urban Geography, SB (3)

GCU 441 Economic Geography, SB (3)

GCU 442 Geographical Analysis of Transportation, SB (3)

GPH 371 Introduction to Cartography and Georepresentation, CS (3)

GPH 372 Air Photo Interpretation (3)

GPH 471 Geographics: Interactive and Animated Cartography and Geovisualization, CS (3)

GPH 481 Environmental Geography (3)

GPH 483 Geographic Information Analysis (3)

GPH 484 Internship: GIS-Based (3)

PLB 434 Landscape Ecological Analysis and Modeling (3)

Enrollment Requirements: Any student admitted to study at ASU may complete this certificate. To apply to the university, please complete the Office of Admissions online application. Please contact the school for more information.

Hazardous Materials and Waste Management Certificate (TSETMCERT)

Campus: POLY

Description: The certificate program in hazardous materials and waste management is designed to provide current and prospective employees of industry and government with a comprehensive and practical curriculum of study in hazardous materials management. The certificate program features instruction by faculty, attorneys and professionals who work in the specific area in which they teach.

The certificate program is available for nondegree students who take the courses for audit credit, as well as for degree-seeking students who complete the required classes.

Program Requirements: Students must complete seven selected courses (five required and two electives) and earn a grade of "C" (2.00) or higher to receive the certificate.

Enrollment Requirements: Please contact the department for more information.

History and Philosophy of Science Certificate (LAHPSCERT)

Campus: TEMPE

Description: The School of Life Sciences offers an undergraduate certificate in the history and philosophy of science. This program is designed to give students an understanding of both traditional philosophical issues surrounding science and the historical development of concrete scientific theories and ideas.

The philosophic questions about how we understand nature through science and how scientific claims gain authority are enriched when they are considered in an historical context. Such philosophic and historical study will also often include the examination of contemporary sciences and their place within the larger society, including the study of bioethics, policy and law.

This certificate is a valuable addition for students in the sciences or the humanities. It crosses disciplines to help students engage in unfamiliar and familiar paths of inquiry in new and interesting ways.

Program Requirements:

- The certificate requires 18 credit hours bearing a PHI or HPS prefix, of which 12 credit hours must be upper-division.
- Within the 18 credit hours, at least nine must bear the HPS prefix.
- PHI 314 Philosophy of Science is required.
- All courses counting toward the certificate must be approved by an undergraduate advisor in the School of Life Sciences and passed with a grade of "C" (2.00) or higher.

Enrollment Requirements: Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Office of Admissions online application. Please contact the School of Life Sciences for more information and see <http://sols.asu.edu/cbs/programs.php> (<http://sols.asu.edu/cbs/programs.php>).

Honors Business Consulting Certificate (BAECNUERT)

Campus: TEMPE

Description: This certificate is designed to enhance your knowledge in a major while also adding to your understanding of business strategy in a global market. The required curriculum strengthens skills in:

- Business judgment.
- Conceptualization of strategic solutions.
- Critical thinking and problem solving.

Program Requirements: The program consists of 15 hours of course work. Only courses in which a student earns a grade of "C" (2.00) or higher may be used to meet the certificate requirements. Students must meet all prerequisites and course requirements as listed in the catalog. All 15 credit hours must be ASU credit.

Honors Business Core, with grade of "B" or higher in each course (6)

ECN 303 Honors Managerial Economics

FIN 303 Honors Finance

MGT 303 Honors Organizational Strategies, Leadership and Behavior

MKT 303 Honors Marketing Theory and Practice

SCM 303 Honors Global Supply Operations

Business Modeling and Analysis, with grade point average of 3.00 or higher (9)

WPC 494a Consulting in Business

WPC 494b Modeling Tools in Consulting

WPC 494c Consulting Projects (capstone) - OR - WPC 493 Honors Thesis/Creative Project

Enrollment Requirements: The certificate is limited to honors students in the W. P. Carey School of Business. Students must submit an application for admission during the spring semester of their sophomore year. Please contact the department for more information.

Human Rights Certificate (LAHRTSCERT)

Campus: TEMPE

Description: The undergraduate certificate in human rights offers a model for educating and training students through socially embedded, transdisciplinary dialogue, research and practice. Course work in the social sciences, law and the humanities will prepare students to critically examine societal problems and to design culturally congruent and contextually specific solutions to human rights dilemmas in such areas as:

- Child welfare.
- Economic development.
- Education.
- Environment.
- Health.
- Indigenous rights.
- Labor rights.
- Violence against women.
- Water and energy resources.

The certificate provides students with historical, legal and philosophical perspectives from which to think broadly and critically about human rights issues. It introduces them to social science and policy research on rights, conflict and governance; to human rights conventions, laws and treaties; and to the institutions that seek to uphold these agreements (i.e., international tribunals, nongovernment organizations). Students gain background and skills needed to work within those professions most closely aligned with human rights, including some aspects of law, nongovernment organizations and other nonprofits and policy development.

Program Requirements: Students must complete 18 hours of qualifying course work, at least 12 hours of which must be from ASU. A minimum grade of "C" (2.00) is required for a course to count towards the certificate.

Required Certificate Core Courses:

- Global Politics of Human Rights (3)

Students must select one of the following courses:

POL 494 International Human Rights

JUS 352 The Global Politics of Human Rights

- Human Rights Institutions and Organizations (3)

Students must select one from the following options:

POS 465 International Organization and Law

SGS 394 International Institutions and Global Governance

- Interdisciplinary Component (9)

Students must select three electives on current issues in human rights. Courses must be taken from at least two of the substantive areas listed below and from two or more academic units. Any course listed below may count towards this requirement, as well as other courses as approved by the certificate program director.

States and Conflict

HST 370 Eastern Europe in Transition

HST 436 The Soviet Experiment

JUS 374 Holocaust, Genocide and Human Rights

JUS 469 Political Deviance and the Law

JUS 479 Law and Disputing

JUS 467 Terrorism, War and Justice

JUS 494 Justice in Times of Transition

JUS 452 Justice Issues in Israel/Palestine

POS 369 War, Politics and Society

POS 465 International Organizations and Law

POS 368 Ethics and Human Rights in Global Politics

REL 388 Religion, Ethics, and International Affairs

REL 486 Holocaust in Film

Social Stratification and Human Rights

AFH 305 The Global History of the Trans-Atlantic Slave Trade

AFH 327 Human Rights in Africa

AFS 470 Women's International Human Rights

APA 350 Inequality and Diversity in Education

APA 394 Asian Pacific American Immigration and Social Justice

JUS 321 Wealth Distribution and Poverty

JUS 325 Globalization and Socio-Economic Justice

JUS 405 Economic Justice
JUS 415 Gender and International Development
JUS 477 Youth and Justice
PHI 309 Social and Political Philosophy
WST 365 Women and International Health

Marginalization and Human Rights
AFS 301 Race and Racism in the African Diaspora
AFS 304 Islands of Globalization
AFR 420 Race, Ethnicity and Politics in the African Diaspora
APA 330 Asian Pacific American Genders and Sexualities
APA 360 The Asian Pacific American Experience
ASB/SBS/SOC/POL 339 Introduction to Social Movements
JUS 430 Social Protest, Conflict and Change
JUS 469 Political Deviance and the Law
JUS/REL 483 Religion, Violence and Conflict Resolution
POS 480 Global Justice
SGS 343 Religion, Nationalism and Ethnic Conflict
SOC 445 Globalization, Development and Resistance
WGS 410 Poverty, Social Justice and Global Health
WGS 498 Gender, Religion and Global Violence

• Experiential Learning Component (3): Students will choose from a JUS 484: Internship or JUS 498: Research Experience for Undergraduates in consultation with the advisor.

Enrollment Requirements: Students who have attained junior standing (56 credit hours) in any undergraduate degree program in any field at ASU are eligible for admission to the certificate in human rights. There are no formal admissions procedures to begin certificate course work, but students should contact the certificate in human rights program director or an advisor as soon as they decide to begin pursuing the certificate.

Informatics Certificate (ESCPICERT)

Campus: TEMPE

Description: The certificate in informatics trains students to use computer technology to gather, synthesize, store, visualize and interpret information. These skills are critical to a broad range of disciplines. This certificate provides students with an understanding of the capabilities and technologies of informatics as it applies to domain specific problems in their field of study.

Students completing this certificate are able to use methods for and understand the basic computational principles behind the operation of:

- Communication, networking and interaction.
- Decision-making and problem solving.
- Modeling, inference and visualization.
- Representing, creating and running routine activities.
- Storing, indexing and retrieving information.

Graduates should be in high demand within the software industry, but also in government, education, science, medicine, and other fields that make use of computer technology. Students with the applied and user-oriented focus of the certificate will be attractive to such employers.

Program Requirements: This program requires 21 credit hours of course work. Students will take 15 credit hours of required courses and will choose six credit hours of elective course work.

Core Courses

CPI 101 Introduction to Informatics (3) (CS)
CPI 200 Mathematical Foundations of Informatics (3) (MA)
CPI 310 Information and Data Management (3)
CPI 360 Decision Making & Problem Solving (3)
STP 226 Elements of Statistics (3) *

*Please consult an advisor about alternate statistics courses.

Electives (select two)*

ART 345 3D Visualization and Rapid Prototyping (3)

BIO 355 Introduction to Computational Molecular Biology (3)

CPI 400 Scientific Computing and Visualization (3)

CPI 430 Social Simulation (3)

ENG 374 Technical Editing (3)

GPH 370 Geographic Information Technologies (3)

STS 306 Social Effects of Science and Technology (3)

*Certain departments may offer additional courses which could satisfy this elective requirement. Please consult with an advisor for approvals.

Enrollment Requirements: The undergraduate certificate in informatics is available to students in non-computing majors who are in good standing at ASU, and may be used by B.I.S. students as part of their degree program. Students need to submit an Undergraduate Certificate form to the School of Computing, Informatics and Decision Systems Engineering Advising Center. This form is available on the registrar's website. B.I.S. students need to contact their B.I.S. advisor to add the informatics concentration to their degree program.

International Business Certificate (BAIBSCERT)

Campus: TEMPE

Description: Students can expand their horizons and opportunities by learning about the global economy. The certificate is designed to:

- Develop competence in a foreign language.
- Develop sensitivity to foreign cultures.
- Provide an awareness of global social processes.
- Provide an understanding of international business environments, principles and operations.

The W. P. Carey School of Business has partnerships with universities in Europe, Asia and Latin America, so students can experience new cultures, visit new places and build intercultural and language skills. International internships also are offered in conjunction with the ASU Study Abroad Office.

Program Requirements: This certificate program requires a minimum of 18 credit hours, which are outlined below. All business course work must be completed through the W. P. Carey School of Business or through an approved ASU international study program. Only courses in which a student receives a grade of "C" (2.00) or higher may be used to meet the certificate requirements, and an overall certificate GPA of at least 2.50 must be earned. Students must meet all course prerequisites and requirements as listed in the ASU catalog. Certificate requirements must be completed within one year of graduation date.

The four required areas of completion for the certificate are:

- International business course work (9).
- Non-business global awareness course work (9).
- Language proficiency.
- International study experience.

A. International Business Course Work (9)

Three international business courses are to be taken. Students must choose one foundation course and two electives.

Foundation course (3): MGT 302 Principles of International Business or ECN 306 Survey of International Economics or AGB 302 International Management and Agribusiness

Elective courses (6).

B. Non-Business Global Awareness Course Work (9)

These hours may be satisfied by any combination of the following:

- Recommended: It is recommended to choose courses related to the area of study abroad experience. Additional courses may be approved by the international program coordinator.
- Any university designated non-business global awareness ("G") courses.

- Non-business global awareness hours may also be satisfied by:

- An ASU or W.P. Carey School of Business education abroad program for one semester fulfills all nine hours of non-business global requirements.

- An ASU or W.P. Carey School of Business program earning six credit hours fulfills six of the hours of non-business global requirements.
- An ASU or W.P. Carey School of Business program earning three credit hours fulfills three of the hours of non-business global requirements.

C. Foreign Language Proficiency

The certificate program requires the equivalent of one year of college-level study of a foreign language. Foreign language proficiency is met in one of the following ways:

- Completion of one year (two semesters) of the same foreign language at the college level.
- Completion of one semester of the equivalent of 101 & 102 level course work.
- Completion of two years of the same foreign language in high school with a minimum grade of "C" (2.00).
- Documentation of a proficiency test confirming preparedness to start at least the second year of a foreign language (201 level or above).
- A student whose first language is not English may have this requirement waived.

D. International Study Experience

Participation in an ASU-approved international study program is required.

Enrollment Requirements: Students need to complete an application, which is available online or in BA 109. Please contact the department for more information and see <http://wpcarey.asu.edu/international> (<http://wpcarey.asu.edu/international>).

For U.S. Department of Education Gainful Employment Program Disclosure information, see

International Studies Certificate (LAINSCERT)

Campus: TEMPE

Description: The international studies certificate is designed to prepare students for careers in government agencies, international governmental and nongovernmental organizations, multinational firms and banks and for graduate studies in international relations or political science. The certificate is not a substitute for degree requirements in any subject, including political science; rather, the required courses add an international and comparative dimension to the student's chosen major.

Program Requirements: Requirements for the certificate are intended to provide an understanding of international relations and comparative government, an awareness of global, social and political-economic processes and sensitivity to foreign political systems and cultures. These objectives are met by a sequence of political science courses in the areas of international relations, comparative politics, and area studies. Students majoring in any subject at the university may be awarded the international studies certificate upon completion of the following 15 credit hours of political science courses.

Choose one from the courses below:

- POS 150 Comparative Government, SB, G (3)
- POS 160 Global Politics, SB, G (3)

Choose one from the courses below:

- POS 361 American Foreign Policy, SB, G (3)
- POS 364 National Security, Intelligence and Terrorism, SB (3)

Choose two from the courses below:

- POS 300 Contemporary Controversies in Global Politics, SB, G (3)
- POS 368 Ethics and Human Rights (3)
- POS 465 International Organization and Law, SB, G (3)
- POS 467 International Security, SB, G (3)
- POS 486 International Political Economy, SB, G (3)

Choose one from the courses below:

POS 350 Comparative Politics, SB, G (3)
POS 355 Russia and Successor States, SB, G (3)
POS 356 European Union, SB, G (3)
POS 357 South Asia Politics, SB, G (3)
POS 358 Southeast Asia, SB, G (3)
POS 359 African Politics and Society, SB, G (3)
POS 360 World Politics, SB, G (3)
POS 451 China, Japan and the Koreas, SB, G (3)
POS 452 China, SB, G (3)
POS 453 South America, SB, G (3)
POS 454 Mexico, SB, G (3)
POS 455 Central America and the Caribbean, SB, G (3)
POS 459 South and Southern Africa, SB, G (3)
POS 463 Inter-American Relations, SB, G (3)
POS 468 Comparative Asian Foreign Policies, SB, G (3)

Certificate students must have a minimum GPA of "C" (2.00); only courses in which students have a grade of "C" (2.00) or higher count toward the certificate. A minimum of six upper division credit hours must be taken in residence at the Tempe campus.

Enrollment Requirements: Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Office of Admissions online application. Please contact the School of Politics and Global Studies for more information.

Islamic Studies Certificate (LAISLCERT)

Campus: TEMPE

Description: Any student admitted to study at ASU is eligible for the Islamic studies certificate program. Students who complete all the requirements of their undergraduate major, their college and the certificate program receive the certificate plus transcript recognition of their particular emphasis. The certificate program is designed to prepare students for graduate programs in religious studies, Islamic studies and area studies or for any academic discipline (such as professional programs in international law and business) that focuses on global Muslim society. Students wishing to add the Certificate in Islamic Studies to their plan of study must consult with an academic advisor in the School of Historical, Philosophical & Religious Studies.

Program Requirements: Students must complete a minimum total of 26 credit hours, chosen in consultation with the Islamic studies program coordinator. A minimum grade of "C" (2.00) is required in each course. A minimum of 12 upper division hours are required. To earn the certificate, students must complete these requirements:

- Eight credit hours of Arabic, Indonesian or another language approved by the program coordinator; students who are native speakers of these languages or who otherwise have equivalent knowledge substitute two additional courses approved by the program coordinator.
- Nine credit hours of required core courses from REL 260 Introduction to Islam, REL 365 Islamic Civilization, REL 366 Islam in the Modern World.
- Three upper division credit hours in a selected course that deals with Islam and/or Islamic studies, to be selected in consultation with the program coordinator or an academic advisor in the School of Historical, Philosophical & Religious Studies.
- Six elective credit hours in courses from a variety of disciplines that deal with Islam and/or Islamic studies (must be approved by the program coordinator).

Enrollment Requirements: Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Office of Admissions online application.

Jewish Studies Certificate (LAJUDCERT)

Campus: TEMPE

Description: The Jewish studies program is designed with the following goals in mind:

- To examine the history and culture of the Jews.
- To generate and facilitate research on Judaica.
- To provide the community with programs, courses and research, furthering the understanding of Judaica.
- To provide a model for interdisciplinary teaching and research.
- To stand as an example of the university's commitment to a program of meaningful ethnic studies on a firm academic base.

Program Requirements: To complete the certificate in Jewish studies, a student must successfully complete seven approved courses (a minimum of 12 upper-division credit hours) in Jewish studies with a grade no lower than a "C" (2.00) in any course. Students should declare themselves as Jewish studies certificate candidates as early as possible in their program of study, and accomplish the following prior to graduation:

- Formal declaration of intent through the submission of the Certificate in Jewish Studies Application to the School of Historical, Philosophical & Religious Studies Advising Center.
- Completion of at least two semesters of Hebrew language or equivalent approved courses.
- One Jewish studies course in three of the following five areas:
 - History.
 - Humanities.
 - Literature.
 - Religious studies.
 - Social studies.
- Two courses of the student's choice in any Jewish studies related subject.

Students petition for receipt of the certificate by notifying the School of Historical, Philosophical & Religious Studies Advising Center upon completion of courses.

Enrollment Requirements: Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Office of Admissions online application. Please contact the School of Historical, Philosophical and Religious Studies for more information.

Knowledge Entrepreneurship and Innovation Certificate (BAKEICERT)

Campus: TEMPE

Description: The certificate program is comprised of three university-wide core courses followed by two courses within a student's disciplinary college. Individual colleges will be encouraged to offer a capstone course as part of the program. Beyond topics related specifically to entrepreneurial business practices, courses include such topics as social entrepreneurship, arts entrepreneurship, idea generation and storytelling as additional perspectives for the student entrepreneur.

Students completing the certificate in knowledge entrepreneurship and innovation have their achievements recognized on their transcripts. Career services markets the certificate to potential employers, highlighting the innovative skills that students with this designation can offer.

Program Requirements: Required Core (9)

- CORE 1: MGT 294 My Life Venture OR TMC 294 My Technology Venture (3)
- CORE 2: MGT 394 Creativity and Innovation OR TMC 394 Innovation and Creativity (3)
- CORE 3: MGT 360 Entrepreneurship and Value Creation OR TMC 394 Technology Entrepreneurship (3)

Capstone Experience (at least 6 credit hours)

- It is the student's responsibility to check the prerequisites required by courses in their discipline.
- Capstone courses will be designated and approved by individual disciplinary colleges.
- Capstone courses will consist of existing courses or new courses created by departments.

Prerequisite Information

- MGT 360 Entrepreneurship and Value Creation has a prerequisite requirement of MGT 294 My Life Venture with a grade of "B" (3.00) or above and prerequisite or co-requisite requirement of MGT 394 Creativity and Innovation with a grade of "B" (3.00) or better OR ACC 240 or ACC 241 with a grade of "C" (2.00) or better.
- MGT 394 Creativity and Innovation has a prerequisite or co-requisite requirement of MGT 294 My Life Venture with a "B" (3.00) or above OR current W.P. Carey School of Business bachelor's student status.

Enrollment Requirements: Students need to complete an application. Please contact the department for more information and see <https://my.wpcarey.asu.edu/undergrad/academics/my-life-venture.cfm> (<https://my.wpcarey.asu.edu/undergrad/academics/my-life-venture.cfm>).

Korean Studies Certificate (LAKORCERT)

Campus: TEMPE

Description: The certificate in Korean studies aims to train and produce students who are linguistically able and culturally informed. The program consists of two major components. The first is to build students' language proficiency in Korean in the areas of speaking, listening, reading and writing. The second is to offer students a broad range of knowledge of the culture, literature, history, art and religions of Korea. The certificate allows students to focus on Korean studies, which cannot be attained through the existing degree or nondegree programs in East Asian studies at ASU.

The program will enrich students' perspectives on different cultures and societies at the intellectual level and also equip students with practical knowledge of Korea that will benefit careers in various professions, including academe, government work, international trade, NGOs and translations.

Program Requirements: Language Requirement

Students must demonstrate proficiency in the Korean language at the intermediate level. The language requirement can be satisfied by completing the 201-202 sequence, one year of study abroad at the intermediate level, or achieving a satisfactory score on a proficiency exam. Language proficiency evaluations will be conducted by Dr. Chan Young Park (cypark@asu.edu).

Core Courses (12 credit hours)

Students must complete at least 12 credit hours at or above the 300 level of core courses from the following:

KOR 313 Third-Year Korean I
KOR 314 Third-Year Korean II
KOR 347 Korean Film and Literature
KOR 350 Women of Korea
REL 354 Religious Tradition of Korea

Elective Courses (6 credit hours)

In addition to the above core courses, students are required to complete six credit hours from an approved list of electives. These courses must be from two different departments. The following is a model of a list of electives:

REL 394 Korean Buddhism
HST 303 Studies in Asian History
HST 388 Japan
REL 345 Asian Religious Traditions
HST 451-452 Chinese Cultural history
CHI 494 Print Culture and Book in East Asia

Additional courses may be approved by the coordinator of the certificate program.

These credit hours will be chosen in consultation with the certificate coordinator. The completion of the requirements will be reviewed both by the students' designated advisors and the coordinator of the program. A minimum grade of "C" or better is required in each course. In the end, the coordinator will sign off on the certificates.

Enrollment Requirements: ASU students admitted to a degree program in any field of study would be eligible for the Korean studies certificate program. Other than the course work and examinations required in the major field of interest, students would be responsible for fulfilling the minimum requirements of 18 credit hours (at least 12 credit hours for core courses) in addition to the basic language requirement to earn the Korean studies certificate.

Latin American Studies Certificate (LALASCERT)

Campus: TEMPE

Description: The Latin American studies certificate program is designed to give students an understanding of culture, economies, political structures and the history of Latin American nations. The departments of economics, geographical sciences, history and political science, the School of Human Evolution and Social Change, the School of International Letters and Cultures (Spanish and Portuguese) and the School of Transborder Studies offer courses that combine in the interdisciplinary certificate.

Program Requirements:

- Students must complete 30 credit hours of upper-division courses with a "C" (2.00) or better from the above departments/colleges with a concentration in Latin America, 15 credit hours in the major subject and 15 credit hours in other disciplines.
- The certificate requires Spanish or Portuguese proficiency through the 313 level of conversation and composition.
- Only language courses above 313 in literature and civilization count toward a major or interdisciplinary areas of preparation.
- Spanish and Portuguese courses above 313 in grammar and phonology do not count toward the requirements. Students should meet with the certificate advisor regarding course questions.

Enrollment Requirements: Any student admitted to study at ASU may complete a certificate. For more information, contact the School of International Letters and Cultures and see the school's website for more information.

Leadership and Ethics Certificate (PPLDECERT)

Campus: DTPHX

Description: The certificate in leadership and ethics is designed for undergraduate students who are interested in developing leadership skills or wish to enhance their degree in an existing major at ASU, working adults who may wish to further their education yet may not be looking for a degree program, or B.I.S. students who seek to combine certificates with their degree.

The certificate program provides a catalyst for students to become ethical leaders of organizational and community change. This certificate is designed to:

- Explore the relationship between leadership and the capacity for individuals to assume responsibility for their actions and to act with a sense of ethics and integrity.
- Focus on understanding the broad interdisciplinary field of leadership and its application to various elements of society and community.
- Prepare individuals for positions of leadership and responsibility in the university, student organizations, in their communities and throughout their careers in business, government and society.

Program Requirements: The certificate in leadership and ethics consists of 15 credit hours of course work. Students take 12 hours of core classes and three hours of elective courses. The three hours of elective course work may be selected from an approved list of elective classes or upon the

recommendation of the department.

All courses applied to the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better. The certificate in leadership and ethics requires four core courses, including a leadership capstone experience, and one elective discipline-based course in leadership or ethics.

Core classes

PAF 410 Building Leadership Skills (3)

PAF 311 or 411 Leadership and Change (3)

PHI 394 Ethics and Justice (3) or PAF 460 Public Service Ethics (3)

PAF 494 Leadership Capstone (3)

All core courses and the leadership capstone must be taken at Arizona State University. Any course substitutions for the certificate are at the discretion of the School of Public Affairs.

Enrollment Requirements: There are different application requirements, depending on the student's enrollment status with ASU. Students are also encouraged to schedule an appointment with the undergraduate academic adviser in the School of Public Affairs.

Undergraduate Students Currently Enrolled at ASU

Current students interested in earning the certificate must complete a request to add an undergraduate certificate and return it to the undergraduate academic advisor in the School of Public Affairs at the University Center on the Downtown Phoenix campus. Students may begin taking courses before they formally register for the certificate; however, they are encouraged to complete the paperwork as soon as possible.

Download the request to add an undergraduate certificate at <http://students.asu.edu/node/1993> (<http://students.asu.edu/node/1993>).

Individuals Not Currently Enrolled at ASU

Individuals who are not currently enrolled as students at Arizona State University must complete an application to enroll as a nondegree-seeking student before they may begin taking courses. For information on admission and to complete an application, visit the university's nondegree student admission page at <http://students.asu.edu/non-degree-student-admission> (<http://students.asu.edu/non-degree-student-admission>).

Once students have been admitted, they are eligible to enroll in courses to complete the certificate program.

Lesbian, Gay, Bisexual and Transgender Certificate (PPLGBTCERT)

Campus: DTPHX

Description: The undergraduate certificate in lesbian, gay, bisexual and transgender studies is offered by the Committee on Lesbian, Gay, Bisexual, and Transgender Studies, administered through the College of Public Programs. Advising is provided through University College. Lesbians, gay men, bisexuals and transgendered (LGBTQ) people play important roles as colleagues, clients, parents, children, siblings, neighbors, employees, employers, religious leaders and friends. Given the increasing visibility and changing political climate for LGBTQ people in the United States, all students, not only those who identify themselves as gay, lesbian, bisexual or transgender, are served well by learning about the histories, communities and contemporary social issues regarding people from LGBTQ backgrounds.

The educational experience is enhanced when students are introduced to complex intersections between and among sexual, racial, ethnic, religious, geographic and national identities. The philosophy of this certificate program is to promote intellectual and pedagogical diversity as one of the university's greatest assets, in part by instilling in students sensitivity to cultures different from their own, but also through careful analysis of the self in historical, artistic and sociocultural contexts. The goals of the certificate program are to give students:

- Knowledge about the history, evolution of and current issues facing the LBGTQ community.
- Practical experience in utilizing course work knowledge in the community through an internship or community service project.
- Theoretical perspectives on heterosexuality as a presumptive sexual identity.
- An understanding of lesbian, gay, bisexual and transgender studies as an academic area of inquiry.
- An understanding of community politics, dynamics and conflicts.
- Use-inspired education that culminates in a public presentation.

Program Requirements: The certificate requires 15 credit hours; a minimum of 12 must be upper division. The two required courses are 1) Introduction to Lesbian, Gay, Bisexual, and Transgender Studies, and 2) the capstone experience. The remaining nine hours are electives from an approved list.

Enrollment Requirements: Please contact University College or visit the college's website for more information.

Medieval and Renaissance Studies Certificate (LAMRSCERT)

Campus: TEMPE

Description: In order to reflect the interdisciplinary nature of the field, the Arizona Center for Medieval and Renaissance Studies (ACMRS) has established a certificate program for undergraduate students in medieval and Renaissance studies.

The program provides students the opportunity to take classes from several disciplines and to receive training in both Latin, the international language of the periods, and for graduate students, paleography, the study of the physical medium through which Latin and other languages were transmitted. Obtaining the certificate prepares undergraduate students for advanced study, and it augments the skills and knowledge necessary for graduates to succeed in academic positions in their field.

Program Requirements: In addition to the course work and examinations required in a student's major field of interest, the following minimum requirements must be fulfilled to earn the certificate:

- 1) Six credit hours of classical Latin
- 2) Six credit hours of Latin (classical and/or medieval) or of a vernacular language of the period (e.g., Old English, Old Norse, Old French, Renaissance Italian)
- 3) Six credit hours of course work in medieval and Renaissance studies outside the major discipline.
- 4) Students must also complete a thesis, writing within the major on a topic concerning the Middle Ages or Renaissance. Students may earn three credit hours of independent study for the thesis. The thesis may be used to fulfill the Honors College thesis requirement for students enrolled in Barrett, the Honors College.
- 5) A minimum of a "C" (2.0) average is required in all course work leading to the certificate.

Enrollment Requirements: Any student admitted to study at ASU may complete a certificate. Please contact ACMRS for more information: <http://acmrs.org/academic-programs/certificate> (<http://acmrs.org/academic-programs/certificate>).

Nonprofit Leadership and Management: American Humanics Certificate (PPNPYCERT)

Campus: DTPHX

Description: The certificate program in nonprofit leadership and management American humanics provides education and preparation for leadership and management positions in professional affiliation and certification as a certified nonprofit professional by American Humanics, Inc. The program features professional affiliation with and certification by American Humanics, Inc., the nation's leader in education for nonprofit careers. American Humanics collaborates with a number of nonprofit organizations, including:

- American Red Cross.
- America's Second Harvest.
- AmeriCorps.
- Big Brothers Big Sisters.
- Boys and Girls Clubs.
- Boy Scouts of America.
- Camp Adventure.
- Camp Fire U.S.A.
- Corporation for National and Community Service.
- Girls Inc.
- Girl Scouts of the U.S.A.
- GuideStar.
- Junior Achievement.
- March of Dimes.
- National 4-H Council.
- National Urban League.
- Opportunity Knocks.org.
- Points of Light Foundation.
- The ARC.

- The Humane Society of the United States.
- United Way of America.
- Volunteers of America.
- YMCA of the USA.

Program Requirements: The program includes active participation by nonprofit professionals who offer workshops, seminars, mentoring and field trips. American Humanics national certification can be earned in conjunction with any bachelor's.

Required courses (30)

NLM 220 Introduction to Nonprofit Organizations (3)
 NLM 300 Fund Raising and Resource Development (3)
 NLM 310 Volunteer Management (3)
 NLM 320 Professional Development Seminar (4) (one credit each, over four semesters)
 NLM 420 American Humanics Institute (2)
 NLM 430 Managing Nonprofit Organizations (3)
 NLM 463 Senior internship (12)

Enrollment Requirements: Applications for the American Humanics certificate are available through the School of Community Resources and Development academic advisors and the American Humanics program coordinator.

- Thirty hours of graded course work.
- A minimum "C" (2.00) grade required for all classes in the certificate.
- A minimum GPA of 2.00 for those pursuing the certificate.
- Must be a junior to take 400-level courses.

Oral History Certificate (ASOHCCERT)

Campus: WEST

Description: The oral history certificate in the New College of Interdisciplinary Arts and Sciences introduces students to the interdisciplinary theories and methods of oral history that enable scholars, students and practitioners to collect, document and preserve the stories and memories of people's lives. The certificate will train students to acquire critical knowledge and applied skills and to abide by the professional standards involved in oral history documentation, research and presentation. Students in the program may build on existing projects or develop new community relationships at local, national and international levels. Consistent with ASU's mission and New College goals, the certificate fosters an understanding and appreciation of diverse cultures, past and present, and engages students in socially embedded and ethical practices in oral history research and interviewing.

Program Requirements: Students must meet with the program academic advisor to review the requirements and sign the certificate check sheet. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department recognizes the certificate. All course work in the program must be completed with a grade of "C" (2.00) or higher. A total of 18 credit hours is required.

Residency Requirement

Of the 18 upper-division credit hours required for the certificate, 12 credit hours must be completed at ASU.

Core Requirements (6)

AMS 498 Pro-Seminar (3)

ETH 310 Critical Research Methods (3)

Additional Requirements (12)

The course bank includes upper-division courses offered across the university. Students may choose from the following prefixes, upon approval by appropriate faculty or advisor:

- American Studies (AMS)
- English (ENG)
- Ethnicity, Race and First Nations Studies (ETH)

- History (HST)
- Interdisciplinary Arts and Performance (IAP)
- Integrative Studies (IAS)
- Philosophy (PHI)
- Religion (REL)
- Sociology (SOC)
- Spanish (SPA)
- Women and Gender Studies (WST)

Recommended courses

COM 346 Oral History and Storytelling (3)
 ENG 317 Cross-Cultural Writing (3)
 ENG 376 Writing a Personal History (3)
 ENG 377 Editing Family History for Public Audiences (3)
 ENG 394 Scriptwriting
 ENG 412 Creative Nonfiction (3)
 ENG 476 Studies in Folklore (3)
 IAP 331 Performance, Acting, and the Individual (3)
 IAP 364 Documentaries
 SOC 389 Ethnographic Field Lab (3)
 WST 370 Chronicling Women's Lives (3)
 WST 473 Latina/Chicana Representation (3)

Enrollment Requirements: The certificate in oral history is open to any student admitted to study at Arizona State University. The certificate program is also available for graduate students, non-degree students and students majoring in professional programs. Contact advisors in the Division of Humanities, Arts and Cultural Studies for admission to the certificate program.

Philosophy, Politics and Law Certificate (HOPPLCERT)

Campus: TEMPE

Description: Students enrolled in Barrett, the Honors College may pursue the certificate in philosophy, politics and law. This interdisciplinary program affords an opportunity to engage in a focused program of study that brings analytical rigor to bear on the philosophical issues involved in law and politics.

Program Requirements: The concentration comprises six courses (18 credit hours), two of which are offered through Barrett. One of these courses, normally taken in the student's second year at ASU, is a seminar on law, justice and morality (HON 310). The second course is a junior-senior seminar on theories of justice, or a related topic in philosophy, politics and law, that entails an extended paper (HON 410). The remaining four courses must be approved by the philosophy, politics and law council and selected from courses regularly offered in philosophy, political science and other areas.

Enrollment Requirements: Students must be in good standing with Barrett, the Honors College or be admitted upon nomination by a member of the philosophy, politics and law faculty and approval by the philosophy, politics and law council. Please contact Barrett for more information.

Philosophy, Rhetoric and Literature Certificate (ASPRLCERT)

Campus: WEST

Description: The certificate in philosophy, rhetoric and literature, within the New College of Interdisciplinary Arts and Sciences, is an

interdisciplinary program that works across the humanities by examining philosophical approaches to literary studies, disputes between rhetoric and philosophy, and rhetorical elements of literature and theory. The certificate will enable students to explore where and how the boundaries among philosophy, rhetoric and literature are constructed, maintained and changed. This certificate is transdisciplinary and aimed at integrating Continental philosophy (including philosophy of religion), critical theory (both in its broader origins within literary cultural studies and its historically specific genealogy from the Frankfurt School), rhetoric, literary criticism, aesthetics and communication. This certificate will prepare students in the humanities, social and behavioral sciences and the arts for lifelong learning, advanced study in a variety of fields and successful careers in an increasingly diverse society.

Program Requirements: The program is open to any student admitted to study at Arizona State University. A certificate in philosophy, rhetoric and literature is awarded for successful completion of 18 upper-division credit hours of course work:

- One course in rhetoric (3)
- One course in Continental philosophy (see core requirements) (3)
- Twelve elective credit hours from the approved course list in philosophy, rhetoric and literature (6 credit hours from pool A and 6 credit hours from pool B)

All elective course offerings from the course bank will be regularly updated and overseen by the facilitators of the certificate program. Students must meet with the program academic advisor to review the requirements and sign the certificate check sheet. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major recognizes the certificate. All course work in the program must be completed with a grade of B (3.00) or higher.

Of the 18 upper division credit hours required for the certificate, 12 credit hours must be completed at ASU.

I. Core Requirements (6 credit hours)

Rhetorical Perspectives (3 credit hours from the approved course list in philosophy, rhetoric and literature):

COM 321 Rhetorical Theory and Research

ENG 472 Rhetorical Studies

ENG 494 Rhetoric, Literature and Poetics

ENG 394/494 Special Topics*

Philosophical Perspectives (3 credit hours from the approved course list in philosophy, rhetoric and literature):

PHI 394/REL 394 Studies in Contemporary Continental Philosophy

PHI 494/REL 494 Continental Philosophy and Religion

PHI 494/REL 494 Philosophy and Literature

PHI 494/REL 494 Studies in Critical Theory

II. Electives (12 credit hours, 6 credit hours each from pools A and B)

Electives come from the course bank of approved courses for philosophy, rhetoric and literature.

Pool A (6 credit hours):

ENG 400 History of Literary Criticism

ENG 401 Topics in Critical Theory

ENG 421 Studies in Shakespeare

ENG 431 Whitman and Dickinson

ENG 440 Studies in American Literature and Culture

ENG 450 The British Novel

ENG 454 Gender and Literature

ENG 461 Studies in Women and Literature

ENG 472 Rhetorical Studies

ENG 478 Modernist Literature

ENG 479 International Postmodern Literature

ENG 494 Rhetoric, Literature and Poetics

ENG 494 Special Topics: The Postcolonial Novel

ENG 394/494 Special Topics*

HON 394/494 Special Topics*

IAP 310/IAS 310 Women in Art

IAP 371 Verbal Art

IAP 372 The Critical Artist

IAP 472 Theories of Arts and Performance

IAP 471 Language, Culture, and Performance

IAP 473 Aesthetic Research

Pool B (6 credit hours):

COM 321 Rhetorical Theory and Research

COM 324 Rhetoric and Media Criticism

COM 421 Rhetoric of Social Issues

COM 429 Semiotics and Visual Communications

COM 394/494 Special Topics (taught by current faculty in PRL or from the approved course topics in philosophy, rhetoric and literature)

PHI 324/IAS 324 Existential Ethics
PHI 391 Historical Perspectives on Philosophy and Religion
PHI 394/REL 394 Love in Philosophy
REL 300 Thinking, Writing & Research in Religion and Applied Ethics
REL 301 Comparative Mysticism
PHI 304 Existentialism
PHI 308 Philosophy of Art
REL 314 Jewish Philosophy
REL 345 Asian Religious Traditions
REL/WST 390 Women and Religion
REL 405 Problems in Religious Studies

Enrollment Requirements: The certificate in philosophy, rhetoric and literature is open to all undergraduate majors. Students wishing to pursue the certificate should consult an academic advisor in the unit offering the certificate to ensure the appropriate set of courses is taken and required paperwork submitted.

Public Administration and Public Management Certificate (PPPAFCERT)

Campus: DTPHX

Description: The certificate in public administration and public management prepares students for citizenship, leadership and careers in governmental and nonprofit agencies. Students will learn the context and principles of public administration and how to apply these in a practitioner setting; the role of the public administrator in the design, implementation and evaluation of public policy; and how to lead change and address ethical issues in public service. It is designed for undergraduate students who are interested in developing leadership skills or wish to enhance their degree in an existing major at ASU, working adults who may wish to further their education yet may not be looking for a degree program, or B.I.S. students who seek to combine certificates with their degree.

The program is designed for students interested in public service who want to learn skills to:

- Analyze critical issues.
- Build and bridge communities.
- Deliver and manage public programs.
- Improve the quality of life.
- Lead change in public policy.
- Provide public safety.
- Preserve natural resources.
- Reform welfare.
- Strengthen democratic governance.

Program Requirements: The certificate in public administration and public management consists of 15 credit hours of course work. Students take 12 hours of core classes and three hours of elective courses. The three hours of elective course work may be selected from an approved list of elective classes, taken upon the recommendation of the department.

Core Courses

PAF 300 Public Management and Public Administration
PAF 340 Public Management and Policy
PAF 420 Public Leadership
PAF 460 Public Service Ethics

Enrollment Requirements: There are different application requirements, depending on the student's enrollment status with ASU. Students are also encouraged to schedule an appointment with the undergraduate academic advisor in the School of Public Affairs.

Undergraduate Students Currently Enrolled at ASU

Current students interested in earning the certificate must complete a request to add an undergraduate certificate and return it to the undergraduate academic advisor in the School of Public Affairs at the University Center on the Downtown Phoenix campus. Students may begin taking courses before they formally register for the certificate; however, they are encouraged to complete the paperwork as soon as possible. Download application from <http://students.asu.edu/node/1993> (<http://students.asu.edu/node/1993>).

Individuals Not Currently Enrolled at ASU

Individuals who are not currently enrolled as students at Arizona State University must complete an application to enroll as a nondegree-seeking student before they may begin taking courses. For information on admissions and to complete an application, visit the university's nondegree student admission page at <http://students.asu.edu/non-degree-student-admission> (<http://students.asu.edu/non-degree-student-admission>). Once students have been admitted, they are eligible to enroll in courses to complete the certificate program.

Religion and Conflict Certificate (LARELCERT)

Campus: TEMPE

Description: The certificate may be of particular interest for students pursuing careers in journalism, law, policy work, diplomacy, the military, public advocacy, publishing, education, ministry or other fields in which an enhanced understanding of religion and conflict is increasingly vital.

Program Requirements: Students must complete 18 credit hours of qualifying course work (at least 12 credit hours from ASU and a minimum of 12 upper-division credit hours), consisting of regional, political and cultural components. To ensure that students are exposed to a wide variety of approaches to the study of religion and conflict, an interdisciplinary component requires that at least six of the 18 credit hours be fulfilled with courses from the humanities and at least three credit hours from the social sciences. In many cases, the same course can be used to fulfill several component requirements simultaneously.

- **Regional component (six credit hours):** Courses in this category provide students specific regional knowledge of how religion has been implicated in human conflict. Required course work in at least two different regions fosters a comparative understanding of the dynamics of religion and conflict in historical and global contexts.
- **Political component (three hours):** Courses in this category explore how religion influences, or is influenced by, matters of state, law, government or other dimensions of political life.
- **Cultural component (three credit hours):** Courses in this category provide students with an understanding of how religion operates as a powerful force that impacts and intersects with expressions of human identity, thought and culture.
- **Electives (six credit hours):** Any approved/qualifying course (either from the above categories or other approved classes) may be used as an elective to fulfill remaining requirements toward the total number of credit hours and to meet the interdisciplinary requirement.
- **Of the total 18 credit hours taken to fulfill the certificate, at least three must be from the social sciences (SOC, POS, SGS or WST) and six from the humanities (ARB, HST, POR or REL).**

Religion and Conflict Course Offerings

A minimum grade of "C" (2.00) is required for a course to fulfill a certificate requirement. For a current list of approved courses, see the Center for the Study of Religion and Conflict website.

Enrollment Requirements: Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Office of Admissions online application. Students wishing to pursue the certificate must 1) complete enrollment documents located in the student portal on the Center for the Study of Religion and Conflict website, and 2) formally declare the certificate with the assistant director of academic services in the School of Historical, Philosophical & Religious Studies Advising Center. For questions about the program, contact the certificate director in the Center for the Study of Religion and Conflict.

Russian and East European Studies Certificate (LAREECERT)

Campus: TEMPE

Description: The certificate in Russian and East European studies encourages students to develop special competency in Russian or East European languages and area studies. Course work leading to the certificate is offered in agribusiness, architecture, biology, economics, Eurasian languages (Armenian, Tajik, Tatar, and Uzbek), geography, history, international business, music, political science, religious studies, Slavic and East European languages (Albanian, Bosnian/Croatian/Serbian, Macedonian, Polish, Romanian, and Russian) and sociology and women's studies, but the certificate program is open to all students, regardless of major.

Certificate holders enhance their prospects for study abroad fellowships, graduate admissions and also qualify for unique entry-level government employment opportunities. Past certificate awardees have moved into positions of leadership in government, academia and the private sector.

Program Requirements: The requirements for the Russian and East European studies certificate comprise 1) three years (22 credit hours) of Russian or another Eurasian or East European language, and 2) 30 credit hours (at least 24 upper-division credit hours) in Russian, East European and Eurasian area-related course work.

At least three disciplines must be represented in the area-related course work, and at least 12 credit hours must be outside the School of International Letters and Cultures (i.e., non-RUS, SLC, and SLV courses). Fulfillment of these requirements is certified by the Melikian Center for Russian, Eurasian and East European Studies and is recognized on the transcript as a certificate in Russian and East European studies. The purpose of this undergraduate certificate program is to encourage students majoring in a chosen discipline to develop special competency in Russian, Eurasian or East European languages and area studies. A student with a major in any school or department may pursue this certificate.

Enrollment Requirements: Any student admitted to study at ASU may pursue a certificate program. In order to apply to study at ASU, complete the Office of Admission online application. Please contact the Melikian Center for more information.

Small Business and Entrepreneurship Certificate (BASMBCERT)

Campus: TEMPE

Description: Students learn how to launch their own business or work with small or startup operations. Courses include small business, entrepreneurship and business plan development. Classroom work is complemented by frequent interaction with successful founders and leaders of entrepreneurial ventures.

Program Requirements: This certificate in small business and entrepreneurship is available only to business majors at ASU. The certificate requires 15 credit hours of classes, including the following six credit hours:

MGT 440 Entrepreneurship (3)

MGT 445 Business Plan Development (3)

The remaining nine credit hours consist of three additional upper-division courses relevant to small business. A copy of the approved electives for business majors pursuing the certificate in small business and entrepreneurship is available in the undergraduate programs office, BA 109. To receive the certificate, students must complete the specified business courses with a grade of "C" (2.00 on a scale of 4.00) or higher.

Enrollment Requirements: Students need to complete an application, which is available online or in BA 109. Please contact the department for more information and also see <https://wpcarey.asu.edu/smallbusiness> (<https://wpcarey.asu.edu/smallbusiness>), then click on the embedded link "course requirements for the Small Business and Entrepreneurship Certificate."

Social Transformation Certificate (LASOTCERT)

Campus: TEMPE

Description: The undergraduate certificate in social transformation introduces students to the ways in which social change is catalyzed by social movements, social entrepreneurship, social innovation, protest, law, activism and organizing. Students enrolled in the certificate learn how diverse communities locally and globally have achieved social change, understand theories of social transformation, and consider how to apply what they have learned about social transformation and transformational knowledge to the social problems facing communities today. The course work provides comparative, transdisciplinary and socially engaged frameworks within which to understand local and global mobilization, including, but not limited to, civil rights movements, labor movements, democracy movements, movements for global justice and movements for gender equality. Students learn how communities that have traditionally been institutionally marginalized have successfully mobilized to achieve institutional, political, cultural and economic change.

Program Requirements: Certificate Requirements

Students pursuing the certificate must complete 15 hours of course work, at least 12 hours of which must be from ASU.

A minimum grade of "C" (2.00) is required for a course to count toward the certificate. The same course may be used to satisfy multiple graduation requirements.

There are no language requirements.

Required Certificate Courses

There will be two required courses:

- A lower division course, SST 200 Introduction to Social Transformation.
- An upper division capstone internship or independent study, SST 484 Internship or SST 499 Individualized Instruction.

Certificate Elective Courses

In addition to the two required courses, certificate students must take three upper division courses, or 9 credit hours, related to social transformation and transformational knowledge. These courses may be chosen from the following course list. Additional related courses can be applied to the certificate with advisor approval.

AFS 355 Democracy and Civil Society in Africa

AFH/WST 364 Unruly Voices Black Women and Cultural Narratives, C

AFR 394 Race, Ethnicity and Politics

AFS 415 Black Political Thought and the Limits of Liberal Democracy, SB, G, H

AFS 494 Topic Effective Methods for Social Transformation

AFS 470/WST 471 Women's International Human Rights

AFS 325 Music as Political Discourse Reggae, Calypso, and Hip Hop

AIS 394 Innovation for American Indian Sustainability

APA/AFS 394 Race, Space and Production of Inequality

APA/AFS 394 Topic Social Movements and Intercultural Coalitions

APA 394 Inequality and Diversity in Education

COM 312 Communication, Conflict and Negotiation

COM 341 Social Context for Performance

ENG 371 Rhetoric of the Environmental Movement

ENG 333 Ethnic American Literature, L or HU, C

ENG 367 Environmental Issues in Literature and Film, L or HU

HDA 494 Public Practice Engagement & Community

HST 306 The Civil Rights Movement, HU or SB, H

HST 354 Revolutionary Europe, SB, H

HST 498 Pro-Seminar Segregation and Desegregation in US History and Law, L

JUS 320 Community and Social Justice, SB, C

JUS 321 Wealth Distribution and Poverty, SB, C

JUS 350 Immigration and Justice, SB, C

JUS 375 Justice and Mass Media, SB

Socio-Legal Studies Certificate (LASLSTCERT)

Campus: TEMPE

Description: The undergraduate certificate in socio-legal studies offers a model for educating and training students in the study of legal ideas, institutions and practices from the perspectives of the social sciences, law, and the humanities. The distinction between law "on the books" and law "in action," which refers to how people experience law in their everyday lives, is a cornerstone of the certificate program. Course work provides students with multiple and intersecting theoretical and methodological approaches that reveal law as a socially embedded system of loosely connected institutions, practices, presumptions and rules. Students participating in the certificate program will learn how to apply these socio-legal tools of analysis to their study of law in action.

Program Requirements: The certificate consists of four components to ensure students develop a broad understanding of socio-legal studies. Foundational courses in socio-legal theories (three credits) and in legal institutions (three credits) will be required. Students will then have the option of selecting three electives (nine credits) from a set of approved courses, providing flexibility so that they may pursue an individualized course of study. Additional courses beyond those listed on this proposal may be added with approval of the certificate director. Finally, a three credit experiential learning component will be required, for a total of 18 credit hours, of which a minimum of 12 hours must be upper division. This may be an internship within the U.S. or abroad, or a research experience under the guidance of a member of the socio-legal studies certificate faculty. Please consult the certificate program advisor for a list of approved courses in each area.

Enrollment Requirements: Students who have attained junior standing (56 credit hours) in any undergraduate degree program at ASU are eligible for admission to the certificate in socio-legal studies. There are no formal admissions procedures, but students should contact the certificate in socio-legal studies program director or advisor as soon as they decide to pursue the certificate.

Southeast Asian Studies Certificate (LASALCERT)

Campus: TEMPE

Description: The certificate in Southeast Asian studies can supplement a bachelor's, demonstrating knowledge of a Southeast Asian language and knowledge of Southeast Asian history, art, culture and society.

This certificate prepares students for admission to graduate programs in Southeast Asian-area studies or in an academic discipline with a focus on Southeast Asia, or for advanced programs in international law, journalism, business or other professional fields.

Recent graduates have gone on to enter medical school, M.B.A. programs and doctoral programs. An earned certificate will appear on student transcripts as a Southeast Asian studies emphasis.

Program Requirements: The certificate requires a simultaneous two-year sequence in a Southeast Asian language (Indonesian, Thai or Vietnamese) and 18 credit hours, of which a minimum of 12 credit hours must be upper division, including the three courses listed below plus two electives (selected from an approved list) and a 3-credit capstone project.

ASB 325 Peoples of Southeast Asia

ASB/GCU/HST/POS/REL 240 Introduction to Southeast Asia

HST 391 Modern Southeast Asia

Enrollment Requirements: A certificate in Southeast Asian studies is available to any undergraduate student. There are no specific admission requirements other than a student's desire to learn about Southeast Asia. A minimum grade of "C" (2.00) is required for each course that is used to fulfill the certificate requirements. Please contact the School of Historical, Philosophical & Religious Studies Advising Center for more information.

Spanish for the Professions Certificate (LSSPPRFCER)

Campus: DTPHX

Description: The series of courses in this 18-credit-hour certificate will help students hone Spanish communication skills and cultural knowledge, to serve the needs of the U.S.-Latino community in professional settings (i.e., education, social work, health care, criminology, journalism). This program is only offered on the ASU Downtown Phoenix campus and is open to current ASU students as well as members of the community. The combination of professionally focused courses and practical experience in this certificate will enhance students' professional skills in positions that require advanced proficiency in Spanish and in-depth understanding of U.S.-Latino culture.

Program Requirements: Pre-requisite: SPA 314/316 or permission of instructor.

SPA 494/401
SPA 494/402
SPA 494/403
SPA 494/404
SPA 494/405
SPA 484/SPA 499*
Internship or Independent Study

*Pre-requisite: A minimum of 12 credit hours completed in this certificate and permission of the instructor.

All courses for this certificate will require a minimum grade of "C" (2.00) or better to get credit toward fulfilling minor requirements.

Enrollment Requirements: For additional admission and registration requirements, please visit the school's website.

Special Events Management Certificate (HSRTMUERT)

Campus: DTPHX

Description: The special events management certificate is a career enhancement program offered to nondegree-seeking students or those who already have a degree from an accredited university in any major, or students currently pursuing a bachelor's in any major.

Program Requirements: The certificate requires 18 credit hours, 15 credit hours of required core courses and three credits of electives. Courses taken as part of a university major may count toward that degree and the certificate. To earn the certificate, students must complete all course work in the certificate with a minimum grade of "C" or better. An application to the program is required.

Required core courses (15)

PRM 422 Entertainment, Protocol and Programming for Special Events (3)
PRM 423 Special Event Operations and Site Design (3)
PRM 427 Revenue Generation for Special Events Management (3)
PRM 486 Special Events Management (3)
PRM 488 Event Marketing and Promotion (3)

Elective courses (3)

NLM 220 Introduction to Nonprofit Organizations (3)
PRM 368 Sports Management (3)
PRM 470 Environmental Interpretation and Education (3)
PRM 475 Entrepreneurial Recreation and Tourism (3)
PRM 487 Special Events Management Advanced (3)
PRM/TDM 301 Sustainable Communities (3)
NLM 310 Volunteer Management (3)
TDM 205 Introduction to Travel and Tourism (3)
TDM 350 Tourism Marketing (3)
TDM 345 Meeting and Convention Planning (3)
TDM 448 Heritage and Cultural Tourism (3)

Standards

- Eighteen hours of graded classroom coursework (no internship, no independent study).
- A minimum "C" (2.00) grade required for all classes in the certificate.
- A minimum GPA of 2.00 for those pursuing the certificate.
- Must be a junior to take 400-level courses.

Enrollment Requirements: Student wishing to pursue the special events management certificate should consult with an academic advisor in the School of Community Resources and Development. For additional information, please visit the official website.

Speech-Language Pathology Assistant Certificate (LASLPACERT)

Campus: TEMPE

Description: The Speech-Language Pathology Assistant (SLPA) certificate prepares students to work with individuals with communication disorders under the direction of a speech language pathologist (SLP). Students majoring in speech and hearing science or persons already holding a bachelor's in speech and hearing science receive additional course work and clinical training to be eligible for SLPA licensure and for positions working under the direction of an SLP in schools, clinics and rehabilitation agencies that provide speech and language services.

Program Requirements: The SLPA certificate includes 15 credit hours of course work and clinical internships completed in conjunction with the bachelor's in speech and hearing science. The student must take SHS 402, 473 and 483 and complete two internships of clinical practice (SHS 484). Twelve of the 15 credit hours for the SLPA certificate must be completed at ASU. A minimum grade of "B-" is required for a course to count toward the certificate.

Enrollment Requirements: Students who have completed 15 credit hours in speech and hearing science course work with at least a 2.75 grade point average in those courses are eligible to apply. Applications will also be accepted from students who have completed a bachelor's in speech and hearing science or communication disorders from a program accredited by the American Speech-Language-Hearing Association (ASHA), providing their grade point average in the major was at least 2.75. Please contact the Department of Speech and Hearing Science for more information.

Symbolic Systems Certificate (LAPHICERT)

Campus: TEMPE

Description: The symbolic, cognitive and linguistic systems certificate takes an interdisciplinary approach to the symbolic representation and

processing of information. Course work covers three areas:

- Human cognition and theories of mind.
- Philosophy of language and linguistics.
- Computing and logic.

Certificate course work exposes students to the subject matter from conceptual, empirical and practical points of view. The certificate may interest students who wish to add breadth to their degree through work in a variety of majors, including:

- Computer Science.
- Linguistics.
- Mathematics.
- Philosophy.
- Psychology.

The certificate takes an interdisciplinary approach to cognition, computation and meaning. Course work is focused around three thematic areas in order to expose students to the subject matter from a conceptual, empirical and practical point of view:

- Cognitive systems.
- Linguistic systems.
- Symbolic systems.

Although some suggested courses have prerequisites, the breadth of disciplinary course options make it likely that many students will find they have already completed necessary prerequisites in the course of completing their chosen major or minor.

Program Requirements: The certificate in symbolic, cognitive and linguistic systems consists of 18 credit hours approved by an academic advisor in the School of Historical, Philosophical and Religious Studies. Students must complete at least one computer science and engineering (CSE) course and at least one philosophy course, preferably PHI 333. Fifteen credit hours are chosen from the following, with at least course required from each area:

- Cognitive systems.
- Linguistic systems.
- Symbolic systems.

Since some of the approved courses in each area have special prerequisites, students should plan their certificate course work carefully. With written approval from the director of undergraduate studies, one substitution of a course from outside the approved list may be made. At least 12 of the 18 credit hours must be upper division and all courses must be passed with a minimum grade of "C" (2.00).

Enrollment Requirements: Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Office of Admissions online application. Please contact the School of Historical, Philosophical & Religious Studies advising center for more information.

Teaching English to Speakers of Other Languages (TESOL) Certificate (LATESLCERT)

Campus: TEMPE

Description: The TESOL undergraduate certificate consists of a coherent set of courses that are related to teaching English to speakers of other languages. This certificate is designed for students who are interested in teaching English as a foreign language (EFL). It will also be a good preparation for students who want to later pursue graduate studies in the MTESL program at ASU or in a similar program at another institution. Note that this certificate does not certify students to teach in Arizona public schools (K-12).

Program Requirements: Any student admitted to ASU can elect to complete the certificate program. Interested students should approach the TESOL certificate coordinator, a faculty member supervising the program, to discuss whether they could complete the 18 credits of the program as well as decide on the electives they would like to take. To complete the certificate, students must complete 18 credit hours with a minimum grade of "C".

Twelve of these credits will come from upper-undergraduate classes.

A minimum residency requirement: All courses must be ASU credit.

Required classes (12 credit hours)

ENG 213: Introduction to the study of language

ENG 404: A course in SLA Theory

ENG 404: A course in TESOL Methods

ENG 484: Internship

Electives (6 credit hours)

One ENG 404 course with a different topic; and one course such as ENG 214, ENG 313, ENG 314, ENG 312, ENG 413 or others approved by the advisor.

Technical Communication Certificate (LSTECCERT)

Campus: DTPHX

Description: Through the technical communication program, students learn how to produce, design and manage information, using traditional and developing technologies.

Program Requirements: The undergraduate certificate requires 18 hours. The following courses are required:

TWC 301 General Principles of Multimedia Writing

TWC 401 Principles of Technical Communication

Choose one of the following courses:

TWC 411 Principles of Visual Communication

TWC 421 Principles of Writing with Technology

TWC 431 Principles of Technical Editing

Choose three other 400-level TWC courses, of which at least two must be genre or information courses, such as TWC 443 Proposal Writing or

TWC 452 Information in the Digital Age.

Enrollment Requirements: The certificate is available to all admitted undergraduate students (regular or nondegree) at ASU. Once students have been admitted, they are eligible to enroll in courses to complete the certificate program. Applications are accepted throughout the year.

Please contact the school for more information.

Technology Entrepreneurship Certificate (ESTNECERT)

Campus: TEMPE

Description: Engineers and scientists around the globe launch high-tech companies to move their ideas to the market. Studies show that the majority of innovative products and services in the economy evolve from entrepreneurial ventures. By providing knowledge and skills important to the creation and leadership of such startups, the certificate program in technology entrepreneurship aims to train the founders and leaders of tomorrow's high-tech ventures. The certificate program is designed specifically for engineers. Courses are approached from the perspective of the student whose primary interest is in technological innovation, whose primary concentration is engineering and who has little or no prior business education.

Program Requirements: This 15-credit-hour certificate program is limited to students in the Ira A. Fulton Schools of Engineering and is designed to help technically oriented students analyze, launch and operate an entrepreneurial venture. The certificate program in technology entrepreneurship requires that students enroll in and complete five courses. Admission to the cohort portion of the certificate program can only occur after successful

completion of the introduction course, FSE 301 Entrepreneurship for Engineers (prerequisite: junior standing in a bachelor's program in the Ira A. Fulton School of Engineering). Once admitted to the certificate program, students must also successfully complete the remaining certificate courses:

FSE 400 Creating and Launching a Technology Venture

FSE 401 Intellectual Property for a Technology Venture

FSE 402 Operating a Technology Venture

FSE 403 Entrepreneurship Practicum

Enrollment Requirements: The qualifications for admission to the certificate in technology entrepreneurship program are having junior standing in a bachelor's program in the Ira A. Fulton Schools of Engineering and successful completion of the selection interview process.

The selection interview process consists of two parts: 1) a letter of intent written by the student to the selection committee, and 2) a live interview with the selection committee, which consists of at least one faculty member, one entrepreneurship program advisory board member and one member of the regular engineering faculty.

Each selection interview is conducted according to a fixed format, with each certificate program candidate having the opportunity to respond to the same set of questions. Please contact the department for more information.

Translation Certificate (LASPACERT)

Campus: TEMPE

Description: The translation certificate program is designed to provide:

- Advanced training required for professional translation in both public and private sectors.
- Preparation for the rigorous examinations required by national and international agencies.
- Training as an ancillary skill for professional fields, such as international business, public health, medicine and law, in accordance with guidelines recommended by the American Translators Association.

Program Requirements: The certificate program consists of the following requirements:

Prerequisites

SLC 400 Linguistics, SB (3) or SPA 400 Introduction to Spanish Linguistics (3) or equivalent SPA 412 Advanced Conversation and Composition, G (3)

Required

- SLC 401 Translation Theory and Practice (3)
- In-service practicum, SLC 484 Internship (2)

Also required are nine hours of applied translation electives in specialized areas chosen from the following courses:

SLC 481 Technical and Scientific Translation (3)

SLC 482 Business and Financial Translation (3)

SLC 483 Medical and Legal Translation (3)

SLC 485 Problems of Literary Translation (3)

Enrollment Requirements: Since entrance to professional translation is through work, cultural experience and examination, the entrance requirements to this certificate program are 1) a written proficiency examination in the source and the receptor languages at the level of completion of an advanced composition course in Spanish (SPA 412) and English (ENG 301), and 2) extensive work experience using Spanish and English, or demonstrated bilingual writing competence in English and Spanish.

Women and Gender Studies Certificate (ASWSTCERT)

Campus: WEST

Description: The certificate in women and gender studies, within the New College of Interdisciplinary Arts and Sciences, is an interdisciplinary program emphasizing intersectional approaches to the study of gender, race, class, ethnicity and sexuality in national and transnational contexts.

Program Requirements: The certificate consists of 18 credit hours of course work, of which 15 credit hours must be upper division (300 or 400 level).

Core requirements (9 credit hours):

WST 100, Women, Gender, and Society, SB, C (3) or WST 300, Women and Gender in Contemporary Society, SB, C (3)

WST 380, Race, Gender, and Class, SB, C (3)

WST 498, PS: Theory and Methods in Women and Gender Studies, L (3)

WST electives (9 credit hours).

Enrollment Requirements: The women and gender studies certificate is recommended for graduate students, nondegree students and students majoring in professional programs.

Students wishing to pursue the certificate should consult an academic advisor in the unit offering that certificate to ensure the appropriate set of courses is taken and required paperwork submitted.

Women and Gender Studies Certificate (LAWSTCERT)

Campus: TEMPE

Description: Women and gender studies, in the School of Social Transformation provides students with an intensive interdisciplinary liberal arts education that enables them to write well, think critically and analyze problems effectively. The certificate program is equivalent to an interdisciplinary minor.

Program Requirements: The certificate program consists of 18 credit hours, 12 of which must be upper-division courses. Students pursuing a certificate in women and gender studies must consult with the women and gender studies advisor to select appropriate courses and fulfill requirements. A certificate of concentration in women and gender studies is awarded for the successful completion of WST 100 (or WST 300) and WST 377, or WST 378 and an additional 12 credit hours from the list of approved women and gender studies courses.

Enrollment Requirements: Students admitted to study at Arizona State University are eligible to pursue the requirements of a certificate. In order to be admitted to the university, complete the Office of Admission online application. Please contact the unit for additional information.

Writing (Liberal Arts & Sciences) Certificate (LAENGCERT)

Campus: TEMPE

Description: The writing certificate provides advanced writing instruction for students in any major. Students pursuing the writing certificate gain practical skill in effective communication and enhance their ability to create, structure and present information in a variety of professional settings.

Program Requirements: The writing certificate consists of 19 credit hours. Required courses are as follows:

ENG 216 Persuasive Writing on Public Issues, L (3), or ENG 412 Creative Nonfiction (3)

ENG 301 Writing for the Professions, L (3)

ENG 372 Document Production, L (3)

ENG 472 Rhetorical Studies, L (3)

ENG 484 Internship: Writing Certificate (3)

ENG 498 Pro-Seminar: Writing Certificate Portfolio (1)

Also required is an additional writing course in English (three hours) or a writing or design course (three hours) selected from an approved list of courses from across campus. All students are required to submit a portfolio before receiving the certificate.

Enrollment Requirements: Application to the program requires a minimum GPA of 3.00 in ENG 101 and 102, 105, or 107 and 108. Students must also have completed at least 30 hours of course work and must have a minimum cumulative GPA of 3.00. A minimum of 6 upper division hours must be completed at the Tempe campus. Please contact the department for more information.

Writing (New College) Certificate (ASWRTCERT)

Campus: WEST

Description: Comprised of a minimum of 19 credit hours, the writing certificate combines intensive course work (of which at least 12 credit hours must be upper division) and an exit portfolio. Students will choose one of five track options:

- Creative writing.
- Generalist.
- Professional and technical writing.
- Publishing and editing.
- Nonfiction writing.

Exit portfolio: Students will assemble a portfolio of writing that demonstrates their grasp of the skills presented during their course of studies.

Program Requirements: To gain admission to the program, students must demonstrate fundamental writing skills through the completion of English composition (101/102, or 107/108, or 105) with grades of "B" (3.00, on a scale of 4.00) or higher. Students are required to submit an application, which includes at least three samples of writing from lower-division courses or independent writing projects. Applications must be submitted at least two months before the start of the semester they anticipate being admitted.

Enrollment Requirements: The Division of Humanities, Arts and Cultural Studies offers this program to students enrolled in any unit of any college at ASU. Certification of advanced writing skills opens the way to a vast array of opportunities, from journalism and publishing to public advocacy, military and government careers, elementary and secondary education, business management, economic development, the law and high-tech industry. Ability to communicate clearly and directly is a key to career advancement in all aspects of business, government and community service.

Undergraduate Programs

Undergraduate Degrees (Program Descriptions)

Business, W. P. Carey School of

Accountancy, BS (BAACCBS)

Campus: TEMPE, WEST

Program Description: The School of Accountancy's undergraduate program offers two tracks during the senior year. The accounting track is followed by most students and is designed to provide a rich educational experience. The Accounting Scholars Program is the track designed for our most highly qualified students who wish to commit to (and are accepted into) the M.Acc. program or the M.Tax. program during the second semester of the junior year. The scholars program provides a particularly rich and individualized educational experience during the senior and fifth years. It includes a number of distinct advantages for students:

- A spring internship experience.
- Increased personal interaction among students, faculty and staff.
- Possible reduced overall tuition costs through scholarships.

Further details about the accounting scholars track are available at the school website.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Admission Requirements: Freshmen admission requirements: 1160 SAT Reasoning OR 25 ACT score, OR graduated in the top eight percent of high school class, OR an overall high school GPA of 3.60 in ASU competency courses (A=4.00).

Freshmen should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey's Business B.A. programs or any other business or other degree program outside W. P. Carey School of Business. Students who are not admissible to a W. P. Carey Business B.S. major and who did not select a second major or are not admissible to their second major choice will be placed in a Business B.A. program in W. P. Carey School of Business.

Transfer admission requirements (30 or more semester hours of credit after high school): 3.00 transfer GPA AND 1,160 SAT score OR 25 ACT score OR graduated in the top 8th percent of high school class.

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey's Business B.A. programs or any other business or other degree program outside W. P. Carey School of Business.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in Exploratory--Social and Behavioral Sciences in University College.

Students with more than 45 transfer hours who are not admissible to University College will be contacted to select an appropriate major.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities: The major in accountancy includes the essential academic preparation for students who are:

- Planning to pursue a graduate degree or attend law school.
- Pursuing professional careers in public, corporate and governmental accounting.
- Seeking positions in consulting, or planning to operate a business.
- Seeking positions in personal financial planning and portfolio analysis.

The U.S. Bureau of Labor Statistics' Occupational Outlook Handbook (2010-2011) states, "Employment of accountants and auditors is expected to grow by 22 percent between 2008 and 2018, which is much faster than the average for all occupations. Job opportunities should be favorable; accountants and auditors who have a professional certification, especially CPAs, should have the best prospects."

Business, BA (BABUSBA)

Campus: POLY, TEMPE, WEST

Program Description: The W. P. Carey Bachelor of Arts provides an innovative, interdisciplinary approach to learning, which broadens career options upon graduation. Not only will students acquire a strong grounding in the principles of business, they will also immerse themselves in coursework outside the business school, supplementing the business degree.

Students in this program will learn how to apply core business knowledge in one of the following disciplines:

- Communication.
- Global leadership.
- Global politics.
- Legal studies.
- Public service and public policy.
- Statistics.
- Sustainability.
- Technology.
- Tourism management.
- Urban policy.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Admission Requirements: Freshman and transfer students must submit either an SAT Reasoning test score or an ACT test score by the end of the first semester in the program (we do not require the writing portion of these tests). There is no minimum score requirement.

Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Transfer applicants must have a 3.00 GPA for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in University College's exploratory--social and behavioral sciences program.

Students with more than 45 transfer hours who are not admissible to University College will be contacted to select an appropriate major.

Career Opportunities: Students in the Bachelor of Arts in business will graduate from one of 10 concentrations in the W. P. Carey School of Business. See those concentrations for career opportunities.

Business Exploratory, (BABUSEXP)

Campus: TEMPE

Program Description: Virtually every profession and organization uses business in some way. Business exploratory students have an opportunity to explore a variety of areas in business prior to selecting one of our seven majors:

- Accountancy.
- Computer information systems.
- Economics.
- Finance.
- Management.
- Marketing.
- Supply chain management.

Students have an opportunity to work with world-class faculty in an environment that values high quality teaching. Our majors provide students with the skills and knowledge needed in today's companies - whether they are starting their own businesses or working in large multinational corporations. Additionally, many graduates attend some of the best graduate schools in the country in a variety of disciplines.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Admission Requirements: This major has higher admission standards. To be admitted, freshmen need a 1160 SAT Reasoning score OR 25 ACT score, OR they must be among the top eight percent of their graduating high school class.

Transfer students (with 30 or more semester hours of credit after high school) must have a 3.00 GPA or higher, AND an SAT Reasoning score of 1160 OR a ACT score of 25 OR graduated in the top eight percent of their high school class.

Career Opportunities: Students in business exploratory will graduate from one of seven degrees in the W. P. Carey School of Business. See those degrees for career opportunities.

Computer Information Systems, BS (BACISBS)

Campus: TEMPE

Program Description: Computer information systems is part of every business and organization. This degree teaches students about the exciting and innovative ways that information technology is used to help organizations succeed. Our dedicated faculty members teach students how to design, build and maintain information systems that support business operations and managerial decision-making. In particular, students will learn about:

- Business intelligence for competitive advantage.
- Business process for workflow redesign.
- Data management for decision-making.

- Distributed systems for collaboration and globalization.
- Enterprise integration for synergy.
- Project management.
- Solution development for value creation.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Admission Requirements: Freshmen admission requirements: 1160 SAT Reasoning OR 25 ACT score, OR graduated in the top eight percent of high school class, OR an overall high school GPA of 3.60 in ASU competency courses (A=4.00).

Freshmen should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey's Business BA programs or any other business or other degree program outside W. P. Carey School of Business. Students who are not admissible to a W. P. Carey Business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a Business BA program in W. P. Carey School of Business.

Transfer admission requirements (30 or more semester hours of credit after high school): 3.00 transfer GPA AND 1160 SAT score OR 25 ACT score OR graduated in the top eight percent of high school class.

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey's Business BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students with less than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in Exploratory--Social and Behavioral Sciences in University College.

Students with more than 45 transfer hours who are not admissible to University College will be contacted to select an appropriate major.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Currently there is a shortage of information systems professionals and many more jobs than graduates. With a degree in computer information systems, career choices are limitless. A computer information systems degree offers job opportunities in a variety of industries, including:

- Education.
- Entertainment.
- Finance.
- Health care.
- National defense.
- Transportation.

Information systems are a key component in the success of other functional business areas, such as accounting, supply chain, finance and marketing. Entry-level information systems positions include:

- Computer forensics analyst.
- Database administrator.
- Systems analyst.
- Information systems consultant.
- Information technology security manager.
- Network administrator.
- Project manager.
- Software or systems developer.
- Systems administrator.

Long-term career aspirations for a student with a computer information systems degree include:

- Chief executive officer.
- Chief information officer.
- Chief knowledge officer.
- Chief security officer.
- Chief technology officer.

First Required Math Course: MAT 210 - Brief Calculus

Admission Requirements: Freshmen admission requirements: 1160 SAT Reasoning OR 25 ACT score, OR graduated in the top eight percent of high school class, OR an overall high school GPA of 3.60 in ASU competency courses (A=4.00).

Freshmen should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey's Business BA programs or any other business or other degree program outside W. P. Carey School of Business. Students who are not admissible to a W. P. Carey Business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a Business BA program in W. P. Carey School of Business.

Transfer admission requirements (30 or more semester hours of credit after high school): 3.00 transfer GPA AND 1160 SAT score OR 25 ACT score OR graduated in the top eight percent of high school class.

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey's Business BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students with less than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in Exploratory--Social and Behavioral Sciences in University College.

Students with more than 45 transfer hours who are not admissible to University College will be contacted to select an appropriate major.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities: A major in economics provides students with the analytical and quantitative skills needed to prepare them for careers in business, government or public policy. The program of study can also be tailored to prepare students for graduate programs in economics, business or law. Students interested in pursuing a Ph.D. in economics are strongly encouraged to minor or major in mathematics, as well.

Graduates have taken positions such as:

- Consultants who serve as advisers to state and federal governments, as well as private corporations.
- Corporate economists who collect data and make forecasts relevant to the firm's business.
- Employment in banking and financial services firms.

Each year, many graduates pursue studies at other prestigious universities.

Finance, BS (BAFINBS)

Campus: TEMPE

Program Description: The finance department has a rich tradition of educating leaders that excel in all aspects of the discipline of finance.

Whether ascending to the top ranks of the venture capital industry, executing multimillion-dollar real estate deals or becoming successful entrepreneurs with ideas and drive that are all their own, our graduates are equipped to succeed.

In particular, our Investment Banking Industry Scholars Program mentors students interested in going to Wall Street. Our student investment management fund provides undergraduates the opportunity to manage a real-world investment portfolio worth hundreds of thousands of dollars. The faculty is considered among the top finance departments in the world. Our professional advisory board, comprised of leading professionals from the financial services, manufacturing, energy, investment banking and real estate sectors, provides a sounding board for new ideas and a source of jobs for our top graduates.

Management, BS (BAMGTBS)

Campus: POLY, TEMPE, WEST

Program Description: The B. S. in management prepares students to become effective managers and team leaders by providing theoretical and conceptual knowledge and building critical skills such as:

- Analytical research and problem solving.
- Communication.
- Critical thinking.
- Global applications.

- Leadership.
- Personal ethics and integrity.
- Teamwork.

The curriculum includes the fundamentals of the global economy, the world of e-business, ethics, human resource and strategic management and collaborative team skills. Throughout the program, theories and concepts of management and ethical leadership are enhanced by experiencing and testing these concepts in skill-based exercises, case discussions and team-based project work, including community-based team projects in not-for-profit and for-profit business settings.

Management (Entrepreneurship), BS (BAMGTEBS)

Campus: TEMPE

Program Description: The entrepreneurship concentration prepares students to identify, evaluate and develop entrepreneurial opportunities, whether in existing companies or in new business ventures. The concentration is grounded in the management major's emphasis on collaboration, leadership, communication and team building, and adds refined analytical, managerial and leadership skills appropriate for people who want to change the world through new product development and innovation.

Students in the entrepreneurship concentration frequently collaborate with students from across the university, in particular students in the Design & the Arts Institute and the School of Sustainability. Additionally, the topic of sustainability is strongly emphasized throughout the curriculum. Graduates have the option of starting businesses or working for companies that value entrepreneurial abilities.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Admission Requirements: Freshmen admission requirements: 1160 SAT Reasoning OR 25 ACT score, OR graduated in the top eight percent of high school class, OR an overall high school GPA of 3.60 in ASU competency courses (A=4.00).

Freshmen should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey's Business BA programs or any other business or other degree program outside W. P. Carey School of Business. Students who are not admissible to a W. P. Carey Business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a Business BA program in W. P. Carey School of Business.

Transfer admission requirements (30 or more semester hours of credit after high school): 3.00 transfer GPA AND 1160 SAT score OR 25 ACT score OR graduated in the top eight percent of high school class.

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey's Business BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students with less than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in Exploratory--Social and Behavioral Sciences in University College.

Students with more than 45 transfer hours who are not admissible to University College will be contacted to select an appropriate major.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Supply Chain Management, BS (BASCMBMS)

Campus: TEMPE

Program Description: Supply chain managers coordinate the purchase of raw materials, manufacturing and transportation of materials across multiple vendors and multiple countries to provide the services and finished goods sitting on your local store shelf or online retailer. It is a key reason that you can buy an ever-increasing variety of goods and services at remarkably low prices.

The supply chain management program provides W. P. Carey School of Business students with an in-depth knowledge of integrated supply chain management. The curriculum focuses on:

- Execution systems.
- Logistics.

- Negotiations.
- Operations.
- Planning.
- Procurement.
- Strategy development.

Classes are small and use projects and case studies to bring the material to life.

Our program is consistently ranked as one of the top supply chain programs in the world, providing our students an opportunity to be recruited by many leading international companies in many different industries.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Admission Requirements: Freshmen admission requirements: 1160 SAT Reasoning OR 25 ACT score, OR graduated in the top eight percent of high school class, OR an overall high school GPA of 3.60 in ASU competency courses (A=4.00).

Freshmen should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey's Business BA programs or any other business or other degree program outside W. P. Carey School of Business. Students who are not admissible to a W. P. Carey Business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a Business BA program in W. P. Carey School of Business.

Transfer admission requirements (30 or more semester hours of credit after high school): 3.00 transfer GPA AND 1160 SAT score OR 25 ACT score OR graduated in the top eight percent of high school class.

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey's Business BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students with less than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in Exploratory--Social and Behavioral Sciences in University College.

Students with more than 45 transfer hours who are not admissible to University College will be contacted to select an appropriate major.

BA 446

Design & the Arts, Herberger Institute for

Architectural Studies, BSD (ARSTDBSD)

Campus: TEMPE

Program Description: Architects design buildings and environments that are useful, sustainable and aesthetically pleasing. This implies an understanding of people's needs; the science and technology of building; and the concepts of aesthetics. The faculty in The Design School offer a B.S.D. in architectural studies. In addition to developing knowledge and skills in architectural design, building technology, landscape architecture and professional practice, students are encouraged to select electives from a broad range of approved courses within the institute and across the university. These electives may be selected to devise a minor, to further professional study or in some other fashion enrich the student's academic experience.

This is an eight-semester program requiring sequential completion of studio course work (or approved equivalent) at any point of entry.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Admission Requirements: Admission into the architectural studies and landscape architecture majors is selective. All applicants who select architectural studies or landscape architecture at the time of application also will be asked to select a second choice major. In the event you are not admitted to the architectural studies or landscape architecture major, you will be considered for admission to your second choice major. If you do not select a second choice major, you will be considered for admission into the B.A. in design studies. B.A. design studies students may take architecture and landscape architecture studio course work in the first year and attempt to successfully complete the degree milestone, or may choose to pursue a broader range of design courses in the design studies program.

First-time freshman applicants must meet the University Aptitude Standards (3.00 ABOR GPA or top 25% of class or 22 ACT or 1040 SAT) and the following University Competency Standards: applicant cannot have either an English or math deficiency.

Students who are admissible to Arizona State University, but who do not meet the above criteria are considered for admission to their second choice major.

Transfer applicants must have a transfer GPA of 3.00 for consideration for the architectural studies and landscape architecture majors.

All students who are admitted to the major must pass a degree milestone to continue in the major at the end of the first year. For more information on the milestone process, visit: <http://herbergerinstitute.asu.edu/degrees/milestone.php> (<http://herbergerinstitute.asu.edu/degrees/milestone.php>).

Career Opportunities: Graduates of the bachelor's program who wish to become licensed can complete their professional studies by attending graduate school and earning the accredited professional master's. In Arizona, other graduates work for registered architects for several years before taking their licensing examination. Some begin their careers working for small offices of 10 to 20 people; others work for very large firms, industries, corporations or governmental agencies.

480-965-3536

Art (Art Education), BFA (FAARTEBFA)

Campus: TEMPE

Program Description: The B.F.A. in art with a concentration in art education involves:

- How instructors and administrators can best facilitate the teaching of art.
- How people learn about art.
- Policymaking in art.
- The study of art.

The program focuses on public and private K-12 instruction, art in higher education and educational programs in art museums. Students investigate issues in art teaching and learning from multiple perspectives, including:

- Art inquiry.
- Context.

- Development.
- Studio.
- Visual culture.

In addition to their art education course work, students are required to take course work in the various studio programs offered in the School of Art.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: All art students will be admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements including foundational course work and successfully passing a portfolio review to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division course work in the studio. There is no portfolio review process at the time of admission to ASU for freshmen.

Typically, students in their second year who are interested in studio art and art education will submit a portfolio for review after completing the core requirements and during completion of the last of the 12 hours of 200-level art requirements. Students interested in art history or museum studies will submit a declaration form in the semester in which they complete 30 hours. The student's major will be changed upon successful completion of the portfolio. Students may choose to remain in and complete the Bachelor of Arts (art studies) in which case no portfolio is required.

Transfer students who have completed the foundational core and pre-art requirements may submit a portfolio for review before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two year degree and have completed the foundational core and pre-art requirements, apply and submit a portfolio in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to 1) the existence of parallel and equal courses in the college's curriculum, and 2) departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Career Opportunities: Graduates who also complete the state certification requirements for an art specialist certificate can teach in public and private elementary schools, middle schools and high schools. Graduates who do not seek state certification may find opportunities for jobs with art museums and recreational or community service groups that offer art instruction.

ART 102

herbergeradvising@asu.edu

480-965-3468

Art (Art History), BA (FAARTHBA)

Campus: ONLNE, TEMPE

Program Description: The B.A. in art history is a comprehensive degree designed to train students to engage with visuality in multiple ways. It offers a diverse curriculum intended to foster critical understanding of the aesthetics, production, patronage and consumption of art. Internationally recognized faculty offer classes across many cultures and time periods, geographies and multiple approaches and methodologies.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

Freshmen students applying to the Herberger Institute School of Art enter ASU as art exploratory majors in the School of Art. There is no portfolio review process at the time of admission to ASU for freshmen.

Typically students in their second year interested in studio art and art education will submit a portfolio for review once they have completed their core requirements and are completing the last of the 12 hours of 200-level art requirements; or if they are interested in art history or museum studies, they will submit a declaration form in the semester in which they complete 30 hours.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

- the existence of parallel and equal courses in the college's curriculum, and
- departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 semester hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 semester hours of resident credit in the major as approved by the faculty.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Graduates in art history at the bachelor's level find employment opportunities in commercial art galleries, entry-level jobs with art publications and in museums. A graduate degree is essential for professional jobs; a master's degree prepares individuals to teach at the community college level or to gain entry into museums, auction houses and publishing companies. The Ph.D. is a necessity for employment as a university or college teacher, and for responsible administrative posts in the museum and publishing world.

Art (Art Studies), BA (FAARTSTDBA)

Campus: TEMPE

Program Description: The art studies curriculum offers students a broad educational foundation in the arts and general studies. The B.A. in art with a concentration in art studies is an interdisciplinary program featuring course work in art history, studio art, performing arts and a range of arts-related courses throughout the university. This concentration offers students a great deal of flexibility in planning course work. The scope of offerings in art and elsewhere on campus is unparalleled at smaller institutions. An art studies student can assemble an art-related curriculum focused on individual student needs, in consultation with a faculty advisor.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

Freshmen may apply directly to the Art Studies program; there is no portfolio review for this major.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

- the existence of parallel and equal courses in the college's curriculum, and
- departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 semester hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 semester hours of resident credit in the major as approved by the faculty.

Career Opportunities: Graduates work in arts-related fields such as:

- Arts administration.
- Galleries.
- Service-related art fields.

Career opportunities are also available with employers who seek graduates with a well-rounded humanities education.

Art (Ceramics), BFA (FAARTCBFA)

Campus: TEMPE

Program Description: The B.F.A. ceramics program provides a stimulating and challenging environment for artistic and intellectual growth. With the realization that discipline, familiarity with historical precedents, and freedom go hand in hand with creative activities, the area strives to strike a balance between the acquisition of traditional skills and the promotion of independence and innovation. Responsibility is placed on the individual student to find personally meaningful content and an effective means to express that content within the ceramic arts. The ceramics program features a complete and varied line of kilns, wheels and other equipment. World-renowned faculty ensure that graduates of the program learn the techniques and concepts that will enable their work to take any direction they wish. A strong guest artist schedule enhances the program and the Ceramics Research Center at the ASU Art Museum, with its collection of more than 3,000 pieces, provides unparalleled opportunities to study and research ceramics.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: All art students will be admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements including foundational course work and successfully passing a portfolio review to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division course work in the studio. There is no portfolio review process at the time of admission to ASU for freshmen.

Typically, students in their second year who are interested in studio art and art education will submit a portfolio for review after completing the core requirements and during completion of the last of the 12 hours of 200-level art requirements. Students interested in art history or museum studies will submit a declaration form in the semester in which they complete 30 hours. The student's major will be changed upon successful completion of the portfolio. Students may choose to remain in and complete the Bachelor of Arts (art studies) in which case no portfolio is required.

Transfer students who have completed the foundational core and pre-art requirements may submit a portfolio for review before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two year degree and have completed the foundational core and pre-art requirements, apply and submit a portfolio in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to 1) the existence of parallel and equal courses in the college's curriculum, and 2) departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Career Opportunities: Graduates of the undergraduate and graduate programs work as artists in the field, selling their works through commercial galleries, commissions and to private collectors. Some artists work as designers and consultants to the commercial ceramic industry; others set up their own businesses, producing hand-crafted functional ware, architectural tiles and one-of-a-kind works.

Art (Drawing), BFA (FAARTDBFA)

Campus: TEMPE

Program Description: The B.F.A. drawing program offers a learning environment for creative, intellectual and technical growth that leads to quality art practice and professionalism. The program encourages a wide spectrum of approaches to contemporary drawing as visual expression, ranging from traditional to innovative. Students work under the guidance of a large full-time faculty of active professionals who are nationally and internationally recognized. Visiting artists of national stature enhance the program with lectures and individual undergraduate critiques.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: All art students will be admitted to ASU into the Bachelor of Arts (art studies) program. Art (Fibers), BFA (FAARTFBFA)

Campus: TEMPE

Program Description: The B.F.A. fibers program cultivates an environment that stimulates creative and intellectual growth. Students are encouraged to discover their distinctive expression informed by knowledge and skills related to surface design, woven structures and 3-D structures. Course work covers processes from basic carding, spinning, dyeing and felting to the use of the loom. Throughout, students are challenged to utilize and interpret textile traditions while considering innovative and interdisciplinary approaches to contemporary art.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: All art students will be admitted to ASU into the Bachelor of Arts (art studies) program. Art (Intermedia), BFA (FAARTIBFA)

Campus: TEMPE

Program Description: The B.F.A. intermedia program is a conceptually driven program with an interdisciplinary approach to art-making. Students work with experimental studio practices, performance and digital media to explore new avenues for self-expression, collaborative practice and community action. The program covers a wide range of conceptual and media orientations reflecting the professional practices of a growing team of faculty members. Currently, emphasis in performance, installation, mixed media, digital video, digital sculpture, animation and Web art are offered. Interaction and collaboration across other areas in the School of Art, including sculpture and photography, are encouraged and supported.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Art (Metals), BFA (FAARTMBFA)

Campus: TEMPE

Program Description: The B.F.A. metals program offers a wide range of traditional and nontraditional approaches to:

- Attention to detail.
- Creativity.

- Critical thinking.
- Emphasizing craft skills.
- Metalworking.

A well-equipped studio with a wide variety of metal-smithing tools is offered. Students explore the close relationship with the School of Art's sculpture and foundry programs, learn important entrepreneurial skills and receive a strong foundation in technical vocabulary and methods for working with metal while being encouraged to experiment with alternative materials and techniques.

Students have the opportunity to gain knowledge and skills through additional educational opportunities that include:

- Conferences and symposia.
- Internship possibilities.
- Lectures.
- Visiting artists.
- Visits to artist studios, museums and exhibitions.
- Workshops.

ASU is located in proximity to numerous galleries and museums as well as local organizations such as:

- The Arizona Artist-Blacksmith Association.
- The Arizona Designer Craftsmen.
- Metalink.

Art (Museum Studies), BA (FAARTMSBA)

Campus: TEMPE

Program Description: Museum studies students explore:

- Art galleries.
- Art history.
- Art museums.

- Public Art programs
- Visual arts organizations.

The B.A. in art with a concentration in museum studies undergraduate program at ASU is one of the most rigorous in the U.S. The program develops students knowledgeable in:

- Art history.
- Critical writing skills.
- Foreign languages.
- Museums, galleries and visual arts organizations.

The curriculum includes art history courses taught by faculty with diverse specialties. Museum professionals and arts administrator teach specialized classes in their areas of expertise. Internships enable students to work directly with working arts professional in their field of interest. Students must take courses in:

- Art history.
- Galleries and museums.
- Research.
- Small business.
- Coursework may also include classes in small business, non-profit management, and arts policy.

Students must also demonstrate an ability to read at least one foreign language.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

Freshmen students applying to the Herberger Institute School of Art enter ASU as art exploratory majors in the School of Art. There is no portfolio review process at the time of admission to ASU for freshmen.

Typically students in their second year interested in studio art and art education will submit a portfolio for review once they have completed their core requirements and are completing the last of the 12 hours of 200-level art requirements; or if they are interested in art history or museum studies, they will submit a declaration form in the semester in which they complete 30 hours.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

- the existence of parallel and equal courses in the college's curriculum, and
- departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Museum studies graduates find employment possibilities in art galleries, art-based organizations and entry-level positions with art publications and museums. A graduate degree is necessary for professional positions. An M.A. prepares individuals to teach at community colleges and to gain entry into museums, auction houses and publishing companies. The Ph.D. is necessary for employment as a faculty member at a university or for administrative posts in museums and higher education.

Art (Printmaking), BFA (FAARTPMBFA)

Campus: TEMPE

Program Description: The B.F.A. printmaking program provides a complete studio experience with regular courses in:

- Book arts.
- Intaglio.
- Lithography.
- Monotype.
- Other graphic applications.
- Papermaking.
- Relief.
- Screenprint.

Accomplished faculty teach in spacious, well-equipped studios, offering a complete range of print media. While individual students are encouraged to pursue a personal direction, the faculty encourages students to become well-rounded printmakers by experiencing and understanding many media and processes, including experimentation and interdisciplinary approaches to making art. No style, technique or aesthetic approach is stressed over another, so that the individual quality of each student's work is the essential measure of achievement. Collaboration is encouraged and students often work with other areas in the School of Art, particularly photography and intermedia.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: All art students will be admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements including foundational course work and successfully passing a portfolio review to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division course work in the studio. There is no portfolio review process at the time of admission to ASU for freshmen.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to 1) the existence of parallel and equal courses in the college's curriculum, and 2) departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Career Opportunities: Trained printmakers are working artists, practicing the expression of a personal understanding of their place in the world. They may find employment as artists or printmakers in schools of all levels teaching the execution and appreciation of visual art. They also work in fine art print studios, executing original prints for other artists. Printmaking skills such as screenprinting or photomechanical, and digital techniques, acquired for the production of art, also have commercial, nonart applications that may afford skilled employment. Artists with printmaking skills may also work with graphic designs, illustrations and signage or may work in museums, conservation, publishing, galleries and in other art-related activities. Additionally, their art may sell successfully in the open marketplace.

Art (Sculpture), BFA (FAARTSBFA)

Campus: TEMPE

Program Description: The B.F.A. sculpture program recognizes the broad, interdisciplinary nature of sculpture today. A wide range of media now falls within an expanded definition of sculpture. Course work includes:

- Architectural sculpture.
- Foundry.
- Interactive and kinetic sculpture.
- More traditional forms of 3-D expression, including metal and wood.
- Neon.
- Video installation.

While classes run the gamut of the contemporary sculpture environment, there also is an emphasis on helping students put today's creations in the contexts of the history of sculpture and the larger field of contemporary art. Critical inquiry is augmented by courses in the art history program. Visiting artists, curators and critics connect students to the contemporary context.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: All art students will be admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements including foundational course work and successfully passing a portfolio review to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division course work in the studio. There is no portfolio review process at the time of admission to ASU for freshmen.

Arts (BA in the Arts), BA (FAATSBA)

Campus: TEMPE

Program Description: The B.A. in the arts is a broad-based liberal arts degree program designed for students who are passionate about the arts but wish to explore alternatives to the institute's discipline-specific degree programs. Students will gain an increased understanding of the theoretical, historical and cultural forces that shape the arts, through an open-ended path for exploration and development of a range of skills that will be valuable for advanced study in multiple disciplines.

The major includes a common core for all students, and students choose a focus from:

- An individualized focus designed by the student and subject to approval by the institute's standards committee and the dean's office.
- Arts administration.
- Digital culture.
- Historical and theoretical studies in the arts.

Applicants interested in pursuing the focus area in digital culture, which emphasizes the ways in which our digitally-mediated environments are changing our experience and evolving our culture, must have a minimum high school G.P.A. of 3.00 and an 1100 SAT or 24 ACT standardized test score. This emphasis also requires MAT 210.

Additional Program Fee: N

Second Language Requirement: Students pursuing the historical and theoretical studies focus area must demonstrate foreign language proficiency. Remaining focus areas do not have a second language requirement.

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Career Opportunities: As the population in the state of Arizona grows, numerous arts organizations are developing to provide cultural and artistic experiences for our residents. These organizations will need and demand individuals with the necessary critical thinking skills who understand the impact the arts have on society and who will be passionate employees committed to the arts. This degree will provide the skill set necessary for careers as:

- Arts administrators.
- Arts critics.

Dance, BFA (FADANBFA)

Campus: TEMPE

Program Description: The School of Dance provides a dynamic and culturally diverse learning environment in which students develop as creative artists, scholars and educators. The B.F.A. in dance provides an interdisciplinary curriculum promoting innovative collaborations and a holistic approach to acquiring skills for successful career transitions. The core program values of creativity and research are embedded in a broad range of academic experiences that emphasize:

- Artistic process.
- Leadership.
- Movement and creative practices.
- Pedagogy.

Through classes, internships and apprenticeships, as well as careful advisement and guidance from the faculty, students discover individual strengths, the power of community engagement and establish unique goals in the dance field.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: Students are admitted as dance interview majors and must successfully complete an interview and audition before enrolling in courses. Because entrance into the School of Dance is selective, you also will be asked to indicate your second choice major. If you pass your interview, the School of Dance will change your major to dance. In the event that you are admitted to ASU, but not selected for the School of Dance, you will be placed in your second major choice indicated at the time of application.

Interview days take place in November and February of each year. To ensure a smooth curricular progression, we strongly encourage all prospective dance students, including transfer students, to participate in the interview day during the semester prior to their intended date of enrollment. More information on the interview process and deadlines can be found at

<http://dance.asu.edu/students/undergrad/prospective/applying.php> (<http://dance.asu.edu/students/undergrad/prospective/applying.php>).

The deadline for applying to ASU for admission to the dance program for fall 2011 was February 18, 2011. Applications are no longer being accepted for fall 2011.

The deadline for applying to ASU for admission to the dance program for spring 2012 is November 4, 2011.

The deadline for applying to ASU for admission to the dance program for fall 2012 is January 27, 2012.

Students must select a different major when applying to ASU after these deadlines. Students may participate in the interview day held during their first semester at ASU. The School of Dance will change their major to dance if they pass the interview.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

- The existence of parallel and equal courses in the college's curriculum.
- Departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

Career Opportunities: The comprehensive academic foundation of the Bachelor of Fine Arts degree in Dance prepares students to be leading dance professionals of the 21st century. Graduates of the B.F.A. program have the expertise and broad experience to initiate and lead artistic projects in diverse contexts, perform in a broad range of work, choreograph and collaborate. In addition, graduates:

- Conduct research.
- Direct or manage performing arts companies, studios or dance-related organizations.
- Facilitate community partnerships and projects.
- Produce dance media for performance or instruction.
- Teach and design curriculum.
- Work in technical theatre and dance production.
- Work in the field of arts management.
- Write scholarly publications.

Dance (Dance Education), BFA (FADANEBFA)

Campus: TEMPE

Program Description: The B.F.A. in dance education prepares students for certification to teach dance in K-12 schools in the state of Arizona. Students in this degree program are required to complete additional state certification requirements. The School of Dance provides a dynamic and culturally diverse learning environment where students develop as creative artists, scholars and educators. Studies in dance cultures, music, digital media, dance history, philosophy and criticism, movement science, somatics, and stage and screen production enhance the rich educational setting. Creativity and research, the core program values, are embedded in a broad range of academic experiences emphasizing movement and creative practices, artistic process, leadership and pedagogy.

Design Studies, BA (ARDSNBA)

Campus: TEMPE

Program Description: The B.A. in design studies is a four-year, non-studio program of study in design that focuses on the design disciplines offered in the ASU Herberger Institute:

- Architectural studies.
- Graphic design.
- Industrial design.
- Interior design.
- Landscape architecture.

It is a highly flexible program of study, much like a liberal arts degree, in which students select design and design-related courses offered in the institute and throughout the university. Students acquire a breadth of design knowledge via courses taken from three categories:

- Communication for design.
- Design history.
- General design.

It provides a design education, general and specific, to students who seek opportunities in the broader design sector or in graduate education. Students may undertake the program with a focus area in digital culture, which emphasizes the ways in which our digitally mediated environments are changing our experience and evolving our culture, or in one of two specific concentrations, 1) design studies, which allows students to discover the myriad possibilities of design as a subject area as well as the flexibility that it provides for further exploration, or 2) design management, which offers a selection of courses in management and human communication that complement design.

Applicants pursuing the digital culture emphasis must have a minimum high school GPA of 3.00 and an 1100 SAT or 24 ACT standardized test score. This emphasis also requires MAT 210.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Career Opportunities: Although a specific career path is not the principal intention, recent graduates of the program have become involved in sales and marketing in the design sector, or have gone on to graduate studies in architecture and planning. Other possible career paths include journalism and education.

Digital Culture (Art), BA (HIDGCABA)

Campus: TEMPE

Program Description: The B.A. in digital culture degree with a concentration in art program is designed for students who are interested in new media-based cultural practice. The digital culture initiative is recognizing the transformative role of digital technology in cultural practice and our day-to-day lives. The degree emphasizes the strongest emerging trend in cultural media: systems and processes that integrate digital technology with

the everyday physical human experience. We refer to these systems as new media. Through a collaboration with more than 15 partnering ASU units, the Herberger Institute for Design and the Arts has created a dynamic, cross-campus, student-customizable curricula that not only prepares students with tangible skills in new media, but also with skills to continuously adapt and maintain a leadership role in cultural practice over the next 40 years.

Students complement their knowledge of new media with an understanding of the historical and theoretical aspects of visual arts, foundational visual arts skills and hands on knowledge of visual composition through digital means.

Digital Culture - Art Concentration

The program is for students wishing to specialize in visual composition aspects of new media.

Students complement their knowledge of new media with an understanding of the historical and theoretical aspects of visual arts, foundational visual arts skills and hands on knowledge of visual composition through digital means.

For more information on the art concentration, visit: http://digitalculture.asu.edu/education/art_concentration (http://digitalculture.asu.edu/education/art_concentration).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Degree Requirements:

Admission Requirements: Freshmen admission requirements: 1100 SAT Reasoning OR 24 ACT score OR graduated in the top 15 percent of high school class. Also must fill out and submit an online program questionnaire.

Transfer admission requirements: 2.50 transfer GPA. Also must fill out and submit an online program questionnaire.

International student requirements: International students may have an additional English language

proficiency criterion. Foreign nationals must meet the same admission requirements shown above, with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see <http://global.asu.edu/future/undergrad>), then admission to digital culture requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5. If your application to the university is reviewed favorably, you will receive conditional admission to the university. You must submit a supplemental digital culture questionnaire, which will be reviewed by a faculty committee in the School of Arts, Media and Engineering. Details about the questionnaire submission process can be found here: <http://digitalculture.asu.edu/education/degrees>.

(<http://digitalculture.asu.edu/education/degrees>) If the faculty committee determines you are admissible to the degree program, you will be formally admitted to the concentration of your choice in the B.A. in digital culture. In the event you are admitted to ASU but not selected for the B.A. in digital culture program or you do not submit the required supplemental questionnaire for the program by the deadline, you will be placed in the second major choice you selected at the time of application.

Career Opportunities: Upon graduation, digital culture students have a wide array of career opportunities in new media involving the fields of:

- Communications (e.g., CISCO, Google, Facebook).
- Computing (e.g., Apple, Microsoft).
- Gaming and entertainment (e.g., Industrial Light and Magic, Electronic Arts, Pixar).
- Media arts (including engineering multi-media shows, video and sound production).

The digital culture curriculum also prepares students for roles in the development of modern media systems that address complex socio-technical problems, such as:

- Diagnostic, monitoring assistive cyber-physical tools and systems that can be used by health care providers.
- New systems for collaborative, participatory content creation and sharing.
- Social networking and reflection tools for promoting sustainability.
- Systems for interactive, adaptive learning and computational assessment in educational organizations.

Graduates of the digital culture degree who are interested in continuing their higher education will be well prepared to apply for admission to the top interdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Digital Culture (Interdisciplinary Arts and Performance), BA (HIDCIAPBA)

Campus: TEMPE

Program Description: The B.A. in digital culture is a broad-based liberal arts degree program designed for students who are interested in new media-based cultural practice. The digital culture initiative is recognizing the transformative role of digital technology in cultural practice and our day-to-day lives. The degree emphasizes the strongest emerging trend in cultural media: systems and processes that integrate digital technology with the everyday physical human experience. We refer to these systems as new media. Through a collaboration with more than 15 partnering ASU units, the Herberger Institute for Design and the Arts has created a dynamic, cross-campus, student-customizable curricula that not only prepares students with tangible skills in new media, but also with skills to continuously adapt and maintain a leadership role in cultural practice over the next 40 years.

Students complement their knowledge of new media with skills in interdisciplinary arts and media, media literacy, digital editing and digital recording.

Digital Culture - Interdisciplinary Arts and Performance Concentration

This concentration is offered in partnership with the New College: Division of Humanities, Arts and Cultural Studies.

The program focuses on an interdisciplinary and collaborative approach to the arts, technology and performance. Courses are offered in digital media arts, music and electronic sound art, performance studies, theatre/performance practice, digital graphics and more. The program includes courses on the traditions of 20th and 21st century interdisciplinarity, avant-garde and experimental arts and provides students with an understanding of the genres and directions in contemporary art and performance.

For more information on this concentration, visit: http://digitalculture.asu.edu/education/iap_concentration (http://digitalculture.asu.edu/education/iap_concentration).

Digital Culture (Media Processing), BA (HIDGCMPPBA)

Campus: TEMPE

Program Description: The B.A. in digital culture is a broad-based liberal arts degree program designed for students who are interested in new media-based cultural practice. The digital culture initiative is recognizing the transformative role of digital technology in cultural practice and our day-to-day lives. The degree emphasizes the strongest emerging trend in cultural media: systems and processes that integrate digital technology with the everyday physical human experience. We refer to these systems as new media. Through a collaboration with more than 15 partnering ASU units, the Herberger Institute for Design and the Arts has created a dynamic, cross-campus, student-customizable curricula that not only prepares students with tangible skills in new media, but also with skills to continuously adapt and maintain a leadership role in cultural practice over the next 40 years.

Students complement their knowledge of new media with a more advanced understanding of programming, data structures, signals processing and system architecture aspects of new media.

Digital Culture - Media Processing Concentration

This concentration is offered in partnership with the Ira A. Fulton Schools of Engineering.

The program is for students wishing to specialize in media processing aspects of new media.

Students complement their knowledge of new media with a more advanced understanding of programming, data structures, signals processing and system architecture aspects of new media.

For more information on this concentration, visit: http://digitalculture.asu.edu/education/media_processing_concentration (http://digitalculture.asu.edu/education/media_processing_concentration).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Degree Requirements:

Admission Requirements: Freshmen admission requirements: 1100 SAT Reasoning OR 24 ACT score OR graduated in the top 15 percent of high school class. Also must fill out and submit an online program questionnaire.

Transfer admission requirements: 2.50 transfer GPA. Also must fill out and submit an online program questionnaire.

International student requirements: International students may have an additional English language proficiency criterion. Foreign nationals must meet the same admission requirements shown above, with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see <http://global.asu.edu/future/undergrad>), then admission to digital culture requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5. If your application to the university is reviewed favorably, you will receive conditional admission to the university. You must submit a supplemental digital culture questionnaire, which will be reviewed by a faculty committee in the School of Arts, Media and Engineering. Details about the questionnaire submission process can be found here: <http://digitalculture.asu.edu/education/degrees>.

(<http://digitalculture.asu.edu/education/degrees>) If the faculty committee determines you are admissible to the degree program, you will be formally admitted to the concentration of your choice in the B.A. in digital culture. In the event you are admitted to ASU but not selected for the B.A. in digital culture program or you do not submit the required supplemental questionnaire for the program by the deadline, you will be placed in the second major choice you selected at the time of application.

Career Opportunities: Upon graduation, digital culture students have a wide array of career opportunities in new media involving the fields of:

- Communications (i.e., CISCO, Google, Facebook).
- Computing (i.e. Apple, Microsoft).
- Gaming and entertainment (i.e., Industrial Light and Magic, Electronic Arts, Pixar).
- Media arts (including engineering multi-media shows, video and sound production).

The digital culture curriculum also prepares students for roles in the development of modern media systems that address complex socio-technical problems, such as:

- Diagnostic, monitoring assistive cyber-physical tools and systems that can be used by health care providers.
- New systems for collaborative, participatory content creation and sharing.

- Social networking and reflection tools for promoting sustainability.
- Systems for interactive, adaptive learning and computational assessment in educational organizations.

Graduates who are interested in continuing their higher education will be well prepared to apply for admission to the top interdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Digital Culture (Music), BA (HIDGCMBA)

Campus: TEMPE

Program Description: The B.A. in digital culture is a broad-based liberal arts degree program designed for students who are interested in new media-based cultural practice. The digital culture initiative is recognizing the transformative role of digital technology in cultural practice and our day-to-day lives. The degree emphasizes the strongest emerging trend in cultural media: systems and processes that integrate digital technology with the everyday physical human experience. We refer to these systems as new media. Through a collaboration with more than 15 partnering ASU units, the Herberger Institute for Design and the Arts has created a dynamic, cross-campus, student-customizable curricula that not only prepares students with tangible skills in new media, but also with skills to continuously adapt and maintain a leadership role in cultural practice over the next 40 years.

Students complement their knowledge of new media with an understanding of the foundations and historical and theoretical structure of commercial and popular music, the principles of electronic music composition and digital sound, and develop digital sound creation and processing skills.

Digital Culture - Music Concentration

The program is for students wishing to specialize in digital sound aspects of new media.

Students complement their knowledge of new media with an understanding of the foundations and historical and theoretical structure of commercial and popular music, the principles of electronic music composition and digital sound, and develop digital sound creation and integrative design approaches to the digital and physical elements of hybrid products and spaces.

For more information on the music concentration, visit: http://digitalculture.asu.edu/education/music_concentration (http://digitalculture.asu.edu/education/music_concentration).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Degree Requirements:

Admission Requirements: Freshmen admission requirements: 1100 SAT Reasoning OR 24 ACT score OR graduated in the top 15 percent of high school class. Also must fill out and submit an online program questionnaire.

Transfer admission requirements: 2.50 transfer GPA. Also must fill out and submit an online program questionnaire.

International student requirements: International students may have an additional English language proficiency criterion. Foreign nationals must meet the same admission requirements shown above, with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see <http://global.asu.edu/future/undergrad>), then admission to digital culture requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5. When you apply to Arizona State University, you will be asked to indicate your intended major. Because entrance into the B.A. in digital culture concentrations is selective, you also will be asked to indicate your second-choice major. If your application to the university is reviewed favorably, you will receive conditional admission to the university. You must submit a supplemental digital culture questionnaire, which will be reviewed by a faculty committee in the School of Arts, Media and Engineering. Details about the questionnaire submission process can be found here: <http://digitalculture.asu.edu/education/degrees>. (<http://digitalculture.asu.edu/education/degrees>) If the faculty committee determines you are admissible to the degree program, you will be formally admitted to the concentration of your choice in the B.A. in digital culture. In the event you are admitted to ASU but not selected for the B.A. in digital culture program or you do not submit the required supplemental questionnaire for the program by the deadline, you will be placed in the second major choice you selected at the time of application.

Career Opportunities: Upon graduation, digital culture students have a wide array of career opportunities in new media involving the fields of:

- Communications (e.g., CISCO, Google, Facebook).
- Computing (e.g., Apple, Microsoft).
- Gaming and entertainment (e.g., Industrial Light and Magic, Electronic Arts, Pixar).
- Media arts (including engineering multi-media shows, video and sound production).

The digital culture curriculum also prepares students for roles in the development of modern media systems that address complex socio-technical problems, such as:

- Diagnostic, monitoring assistive cyber-physical tools and systems that can be used by health care providers.
- New systems for collaborative, participatory content creation and sharing.
- Social networking and reflection tools for promoting sustainability.
- Systems for interactive, adaptive learning and computational assessment in educational organizations.

Graduates who are interested in continuing their higher education will be well prepared to apply for admission to the top interdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Film (Film & Media Production), BA (FAFLMBA)

Campus: TEMPE

Program Description: The School of Theatre and Film offers a B.A. in film with a concentration in film and media production. The concentration provides students with a comprehensive practical knowledge of production, awareness of the impact of media and entertainment on the audience, and an understanding of the role of the artist in society. The program teaches students to thoughtfully consider not only how to look through a lens, but why they should, and this is accomplished through a unique emphasis in ethical decision-making in both content creation and business practices. Students in the film and media production concentration have access to digital cameras, lighting and sound equipment in a teaching studio. Post-production facilities include multiple computer editing stations.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Career Opportunities: The film and media production concentration provides students with the knowledge and experience to prepare them to enter careers in media and entertainment as:

- Cinematographers.
- Directors.
- Editors.
- Producers.
- Screenwriters.

The B.A. program is an excellent broad-based foundation for work in the profession or to prepare students for further training at graduate schools or conservatories.

Film (Filmmaking Practices), BA (FAFPRBA)

Campus: TEMPE

Program Description: A B.A. in film with a concentration in filmmaking practices provides students with a comprehensive film education within the context of the liberal arts.

Students pursuing the filmmaking practices concentration of the B.A. in film receive grounding in production practice, independent film producing, entertainment ethics and an understanding of the role of the artist in society. Students are encouraged to participate in the production-oriented environment of the Herberger Institute for Design and the Arts. The curriculum's course work in ethics in entertainment and dramatic analysis are two unique components of the program.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Degree Requirements:

All successful applicants to the Herberger Institute for Design and the Arts of the Arts B.A. in film begin their studies at ASU in the filmmaking practices concentration. All students complete the same 18-hour core requirements in their first two years of study.

Admission Requirements: Students interested in pursuing the highly-selective, studio-based film and media production concentration must achieve an ABOR GPA at or above 3.0, or an SAT score of 1040, or an ACT score of 22, or top 25% of the high school class. The applicant cannot have a deficiency in English, and each applicant must complete an essay regarding his or her interest in filmmaking practices.

Students are required to write a 500-word essay answering one of the below questions. The essay will be evaluated based on the following: ideas and content, originality, clarity of expression, voice, sentence fluency, word choice, and format. As this essay is used to determine admissibility to the BA in Film (Filmmaking Practices) program, it is essential that work is proofed.

In 500 words (approximately 2 pages, double-spaced) and with an emphasis on creativity as well as composition, please respond to ONE of the following topics:

- Talk about a film or filmmaker that inspired you to make a career in film.
- How does the entertainment industry affect the world? What would you do to change it?

Career Opportunities: The filmmaking practices concentration provides students with the knowledge and experience to prepare them to enter entry-level positions in media and entertainment production, producing and film management or to enter advanced graduate-level education.

Graphic Design, BSD (ARGRABSD)

Campus: TEMPE

Program Description: Graphic designers are responsible for designing how information is communicated. Forms of communication include print, video, film and electronic (Web). The faculty in the School of Architecture and Landscape Architecture offers the B.S.D. in graphic design.

Graphic designers are concerned with:

- Appearance.
- Choosing the appropriate mechanism for distinctness.
- Clarity of information.
- How communication is transferred and received.

This program places an emphasis on strategic communication, developed through a design process that includes research, analysis, conceptualization, planning and realization. The process leads to innovative visual communication design solutions for contemporary design problems that are local to global in scope.

This is an eight-semester program requiring sequential completion of studio course work (or approved equivalent) at any point of entry.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements:

Career Opportunities: Based on a very diversified portfolio upon graduation, students opting for the graphic design profession gain employment in:

- Advertising.

- Brand and corporate identity.
- Broadcast (TV graphics).
- Interaction and interface design.
- Museum/exhibitions.
- Publication.

Specific examples of graphic designers' work include:

- Annual reports.
- Books.
- Environmental graphics.
- Information design.
- Motion graphics.
- Multimedia presentations.
- Publications.
- Web design.

Students may also pursue graduate studies leading to careers in design education and other fields of professional endeavor in design.

Industrial Design, BSD (ARINDBSD)

Campus: TEMPE

Program Description: Industrial designers are responsible for the design of products and systems that people use in their everyday lives. The industrial design program at ASU focuses on a new model of interdisciplinary product development called integrated innovation. The primary goal of integrated innovation is to produce design solutions that:

- Create value in the marketplace.
- Improve society and the environment.
- Meet user needs in unexpected ways.

This is an eight-semester program requiring sequential completion of studio course work (or approved equivalent) at any point of entry.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Admission Requirements:

Career Opportunities: Graduates work for corporations that have their own industrial design departments, in such industries as:

- Computer hardware/software.
- Consumer goods.
- Furniture.
- Medical device manufacturing.
- Toys.
- Transportation.

Opportunities also exist with consulting firms that design for a variety of different clients. A third option includes entrepreneurship, as some graduates have established their own design and manufacturing ventures.

Interior Design, BSD (ARINTBSD)

Campus: TEMPE

Program Description: Course work in the B.S.D. in interior design examines the context in which individuals and groups live and work. Interior designers create environments within buildings that meet the physical and psychological needs of individuals and institutions, providing a useful, rich and rewarding context for their lives. Interior design involves the design of space, equipment and furniture. It requires substantial technical and organizational understanding, as well as sensibility to color, shape and form.

This is an eight-semester program requiring sequential completion of studio course work (or approved equivalent) at any point of entry.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Admission Requirements:

Career Opportunities: Graduates find employment opportunities with interior design firms or architecture firms specializing in interior design. The scope of work undertaken by interior designers is expanding. Career opportunities include historic restoration, and working for large corporations or governmental agencies within their interior design and space-management offices.

480-965-8947

Landscape Architecture, BSLA (ARPLABSLA)

Campus: TEMPE

Program Description: Landscape architects are involved in the design, planning, analysis and management of the natural and built environment. Landscape architects develop expertise in the art of design and the environmental sciences. While landscape architects may design a residential garden, an urban park and playground, a residential development or a national park, they all share a deep commitment to stewardship of the land and the highest standard of planning and design that directly enhances the quality of people's lives. Landscape architecture students learn about:

- Art.
- Construction techniques.
- Design.
- History.
- Natural science.
- Planning.
- Social studies.

This is an eight-semester program requiring sequential completion of studio course work (or its approved equivalent) at any point of entry.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Admission Requirements: Admission into the architectural studies and landscape architecture majors is selective. All applicants who select architectural studies or landscape architecture at the time of application also will be asked to select a second choice major. In the event you are not admitted to the architectural studies or landscape architecture major, you will be considered for admission to your second choice major. If you do not select a second choice major, you will be considered for admission into the B.A. in design studies. B.A. design studies students may take architecture and landscape architecture studio course work in the first year and attempt to successfully complete the degree milestone, or may choose to pursue a broader range of design courses in the design studies program.

First-time freshman applicants must meet the University Aptitude Standards (3.00 ABOR GPA or top 25% of class or 22 ACT or 1040 SAT) and the following University Competency Standards: applicant cannot have either an English or math deficiency.

Students who are admissible to Arizona State University, but who do not meet the above criteria are considered for admission to their second choice major.

Transfer applicants must have a transfer GPA of 3.00 for consideration for the architectural studies and landscape architecture majors.

All students who are admitted to the major must pass a degree milestone to continue in the major at the end of the first year. For more information

on the milestone process, visit: <http://herbergerinstitute.asu.edu/degrees/milestone.php> (<http://herbergerinstitute.asu.edu/degrees/milestone.php>).

Career Opportunities: Graduates in landscape architecture are able to pursue career opportunities in private landscape architecture, academic organizations and government agencies such as:

- The Bureau of Land Management.
- The Department of Transportation.
- The National Park Service.
- The Soil Conservation Service.
- The U.S. Corps of Engineers.
- The U.S. Forest Service.

Some landscape architects elect to pursue graduate degrees to develop specialty skills and to enhance their opportunities for career advancement. U.S. News and World Report named landscape architecture among the best career choices in 2010.

Music, BA (FAMUSBA)

Campus: TEMPE

Program Description: The B.A. in music provides students with a broad-based degree applicable to a variety of professional settings. Students develop an understanding of human culture through:

- Analysis of ideas.
- Appreciation of art forms.
- Beauty and symmetry.
- Development of critical thinking skills.
- Knowledge of theories.
- Perception of differences.
- Principles of form, subsistancy, argument and philosophy.

This degree may be used as a first step toward a master's or doctoral or may be combined with other degree programs.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: Important: An additional application, supplementary materials, and audition are required for entrance to the School of Music. Please go to <http://music.asu.edu/admissions/undergrad/> (<http://music.asu.edu/admissions/undergrad/>) for information on applying to the School of Music.

Because entrance into the School of Music is selective, you will be asked to indicate a second choice of major when completing your application to ASU. If you pass your audition, the School of Music will change your major to the appropriate music major. In the event that you are admitted to ASU, but not selected for the School of Music, you will be placed in the second major choice you indicated on your application to ASU. Audition days take place in November (for spring admission), and February/March (for fall admission) of each year. More information on the audition process is available here: <http://music.asu.edu/admissions/auditions/> (<http://music.asu.edu/admissions/auditions/>).

Application Deadlines

Please visit <http://music.asu.edu/admissions/deadlines> (<http://music.asu.edu/admissions/deadlines>) for complete information on School of Music deadlines.

Spring 2012: The deadline for applying to ASU for admission to the B.A. in music is October 1, 2011 for voice applicants, and October 15, 2011 for instrumental and keyboard applicants. A prescreening is required for all applicants who wish to audition in voice:

<http://music.asu.edu/admissions/voice> (<http://music.asu.edu/admissions/voice>).

Fall 2012: The deadline for applying to ASU for admission to B.A. in music is December 1, 2011 for voice applicants, and January 15, 2012 for instrumental and keyboard applicants. A prescreening is required for all applicants who wish to audition in voice:

<http://music.asu.edu/admissions/voice> (<http://music.asu.edu/admissions/voice>).

You must select a different major when applying to ASU after these deadlines. You may apply to the School of Music for the audition day(s) held during your first semester at ASU. The School of Music will change your major to music if you pass your audition. Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

- The existence of parallel and equal courses in the college's curriculum.
- Departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU.

Transfer students enrolled in the institute must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Career Opportunities: Music research, criticism, publishing and concert management are a few of the career opportunities. Many graduates pursue a master's or a doctorate in music or in another professional field.

Music Education, BMUS (FAMUSEBM)

Campus: TEMPE

Program Description: The B.Mus. in music education program is designed for students interested in pursuing careers as music teachers in the public schools. The degree program also prepares students for K-12 teaching certification.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements: Important: An additional application, supplementary materials, and audition are required for entrance to the School of Music. Please go to <http://music.asu.edu/admissions/undergrad/> (<http://music.asu.edu/admissions/undergrad/>) for information on applying to the School of Music.

Because entrance into the School of Music is selective, you will be asked to indicate a second choice of major when completing your application to ASU. If you pass your audition, the School of Music will change your major to the appropriate music major. In the event that you are admitted to ASU, but not selected for the School of Music, you will be placed in the second major choice you indicated on your application to ASU. Audition days take place in November (for spring admission), and February/March (for fall admission) of each year. More information on the audition process is available here: <http://music.asu.edu/admissions/auditions/> (<http://music.asu.edu/admissions/auditions/>).

Application Deadlines

Please visit <http://music.asu.edu/admissions/deadlines> (<http://music.asu.edu/admissions/deadlines>) for complete information on School of Music deadlines. Application procedures are posted at <http://music.asu.edu/admissions/undergrad/applying> (<http://music.asu.edu/admissions/undergrad/applying>).

Fall Admission: The deadline for applying to ASU for admission to B.Mus. in music education is December 1 for voice applicants, and January 15 for instrumental and keyboard applicants. A prescreening is required for all applicants who wish to audition in voice: <http://music.asu.edu/admissions/voice> (<http://music.asu.edu/admissions/voice>).

You must select a different major when applying to ASU after these deadlines. You may apply to the School of Music for the audition day(s) held during your first semester at ASU. Application procedures are posted at <http://music.asu.edu/admissions/undergrad/applying> (<http://music.asu.edu/admissions/undergrad/applying>). The School of Music will change your major to music if you pass your audition. Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

- The existence of parallel and equal courses in the college's curriculum.
- Departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU.

Transfer students enrolled in the institute must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Career Opportunities: Graduates teach in public and private school music programs that offer general music, choir, band, orchestra, strings or some combination of musical activities. Graduates also:

- Perform in community and professional ensembles.
- Teach privately.
- Work in music-related industries.

Music Therapy, BMUS (FAMUSTHBM)

Campus: TEMPE

Program Description: The B.Mus. in music therapy program prepares students for a career in the mental-health/special-education profession. Music therapists use carefully planned music activities to achieve desired changes in client behavior and functioning. Music therapy is a profession in which engagement in active music-making helps a client achieve nonmusical, therapeutic goals. Educating the potential music therapist requires both a wide range of musical skills and the ability to work with people in a therapeutic manner. Music therapy students have many opportunities to develop their clinical skills. Students also study:

- Musical improvisation.
- Popular music styles.
- Songwriting.
- World music.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: Important: An additional application, supplementary materials, and audition are required for entrance to the School of Music. Please go to http://music.asu.edu/students/prospective/undergrad/apply_SOM.php

(http://music.asu.edu/students/prospective/undergrad/apply_SOM.php) for information on applying to the School of Music.

Because entrance into the School of Music is selective, you will be asked to indicate a second choice of major when completing your application to ASU. If you pass your audition, the School of Music will change your major to the appropriate music major. In the event that you are admitted to ASU, but not selected for the School of Music, you will be placed in the second major choice you indicated on your application to ASU. Audition days take place in November (for spring admission), and February/March (for fall admission) of each year. More information on the audition process is available here: http://music.asu.edu/students/prospective/undergrad/apply_Audition.php (http://music.asu.edu/students/prospective/undergrad/apply_Audition.php).

Application Deadlines

Please visit <http://music.asu.edu/admissions/deadlines> (<http://music.asu.edu/admissions/deadlines>) for complete information on School of Music deadlines.

Spring 2012: The deadline for applying to ASU for admission to the B.Mus. in music therapy is October 1, 2011 for voice applicants, and October 15, 2011 for instrumental and keyboard applicants. A prescreening is required for all applicants who wish to audition in voice:

<http://music.asu.edu/admissions/voice> (<http://music.asu.edu/admissions/voice>).

Fall 2012: The deadline for applying to ASU for admission to B.Mus. in music therapy is December 1, 2011 for voice applicants, and January 15, 2012 for instrumental and keyboard applicants. A prescreening is required for all applicants who wish to audition in voice:

<http://music.asu.edu/admissions/voice> (<http://music.asu.edu/admissions/voice>).

You must select a different major when applying to ASU after these deadlines. You may apply to the School of Music for the audition day(s) held during your first semester at ASU. The School of Music will change your major to music if you pass your audition. Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

- The existence of parallel and equal courses in the college's curriculum.
- Departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU.

Transfer students enrolled in the institute must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Career Opportunities: Graduates are eligible to register as professional music therapists and can sit for the music therapy certification examination given by the Certification Board of the American Music Therapy Association. Positions are available regionally and nationally in hospitals, schools, rehabilitation centers, nursing homes and other health care facilities. Career opportunities also include work in:

- Geriatric care.
- Mental health.
- Physical rehabilitation.
- Special education.

A music therapy career may also provide an opportunity for private practice with flexible hours.

Performance (Collaborative Piano), BMUS (FAMUSPPBM)

Campus: TEMPE

Program Description: The B.Mus. in performance with a concentration in collaborative piano offers private instruction, supervised ensemble work and ample opportunity for extensive collaborative performance experience. The program focuses on core repertoire: the English, German and French song literature and selected works from the instrumental, operatic and oratorio repertoire. Collaboration within the School of Music involves working with all performance areas, including:

- Concerts with large ensembles and choirs.
- Duo recitals with instrumental and voice colleagues.
- Performances of great chamber music literature.
- Work as rehearsal and pit pianists for the Lyric Opera Theater.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: Important: An additional application, supplementary materials, and audition are required for entrance to the School of Music. Please go to <http://music.asu.edu/admissions/undergrad/> (<http://music.asu.edu/admissions/undergrad/>) for information on applying to the School of Music.

Performance (Jazz), BMUS (FAMUSPJBM)

Campus: TEMPE

Program Description: The jazz concentration, under the B.Mus. in performance, places an emphasis on the improvisational aspects of jazz. The curriculum combines jazz performance, composition and pedagogy in a program that allows the student to express himself or herself musically while emphasizing the skills necessary to pursue a career as a professional musician. The study of jazz performance can be a suitable background for work in:

- Contemporary composition.
- Film scoring, writing and arranging.

- Performance.
- Private instruction.
- Recording studios.
- Teaching jazz pedagogy and other related fields in the music industry.

Theatre, BA (FATHEBA)

Campus: TEMPE

Program Description: A B.A. in theatre provides students with a comprehensive theatre education within the context of the liberal arts while offering specialty course work in the following areas:

- Design and production.
- New work development.
- Performance.
- Theatre and performance studies.
- Theatre for youth.

ASU offers well-equipped theatrical facilities including:

- Extensive and professionally staffed production shops.
- The Galvin Playhouse.
- The Lyceum Theatre.
- The Prism Theatre for student-production work.
- Uniquely equipped rehearsal and instructional spaces.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: Students, both freshmen and transfers, are admitted to ASU as theatre exploratory majors. They successfully complete an interview and audition or portfolio review before enrolling as a BA Theatre major. Students may interview before enrolling at ASU or participate in the interview during their first semester of study. Students who enter before interviewing take course work in the first semester to better prepare them for the interview.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

- the existence of parallel and equal courses in the college's curriculum, and
- departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 semester hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 semester hours of resident credit in the major as approved by the faculty.

Career Opportunities: The B.A. in theatre program provides an excellent broad-based foundation for work in the arts or entertainment professions or readies students for further training at graduate schools or conservatories. The program's liberal arts emphasis prepares graduates for a variety of occupations in both theatre and non-theatre fields. Opportunities may include work with production companies in theatre, television or film, in schools, themed entertainment or arts entrepreneurship.

Theatre (Acting), BA (FATHEABA)

Campus: TEMPE

Program Description: The B.A. in theatre with a concentration in acting involves comprehensive academic and hands-on theatre study with an emphasis on performance. Student artists and scholars gain a general appreciation of the principal fields of human knowledge while acquiring training in such areas as:

- Film.
- New work development.
- Performance and directing, design and production.
- Theatre and performance studies.
- Theatre for youth.

ASU offers well-equipped theatre facilities including:

- Extensive shops.
- The Galvin Playhouse.
- The Lyceum Theatre.
- The Prism Theatre for student-produced work.
- Uniquely equipped rehearsal and instructional spaces.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: Students are admitted to ASU as theatre exploratory majors. They successfully complete an interview and audition or portfolio review before enrolling as a B.A. Theatre major. Students may interview before enrolling at ASU or participate in the interview during their first semester of study. Students who enter before interviewing take course work in the first semester to better prepare for the interview. After students are admitted to the B.A. Theatre major, they may interview for admission into the acting concentration; these interviews are conducted in the spring semester. Sophomore standing is required for admission to the acting concentration.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

- the existence of parallel and equal courses in the college's curriculum, and
- departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 semester hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 semester hours of resident credit in the major as approved by the faculty.

Career Opportunities: The B.A. in theatre program provides an excellent broad-based foundation for work in the profession and readies students for further training at graduate schools or conservatories. The program's liberal arts emphasis prepares graduates for a variety of occupations. The concentration in acting offers students advanced study that can lead to careers in theatre, film or media, ranging from regional/seasonal theatrical production opportunities for work in television and film, as well as careers in education and other related arts disciplines.

Theatre (Design & Production), BA (FADSNPRBA)

Campus: TEMPE

Program Description: A B.A. in theatre with a concentration in design and production provides students with an opportunity to focus their course work on performance production and thus prepare for both advanced graduate study in the field and entry-level careers in entertainment design and production within the context of a comprehensive B.A. theatre degree. ASU offers well-equipped theatrical facilities including:

- Extensive and professionally staffed production shops.
- The Galvin Playhouse.
- The Lyceum Theatre.
- The Prism Theatre for student-production work.
- Uniquely equipped rehearsal and instructional spaces.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: Students are admitted to ASU as theatre exploratory majors. They successfully complete an interview and audition or portfolio review before enrolling as a BA Theatre major. Students may interview before enrolling at ASU or participate in the interview during their first semester of study. Students who enter before interviewing take course work in the first semester to better prepare for the interview. Interviews for admission into the BA Theatre design and production concentration are conducted each semester and require a portfolio.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

- the existence of parallel and equal courses in the college's curriculum, and
- departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 semester hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 semester hours of resident credit in the major as approved by the faculty.

Career Opportunities: The B.A. in theatre program provides an excellent broad-based foundation for work in the profession or readies students for further training at graduate schools or conservatories. The program's liberal arts emphasis prepares graduates for a variety of occupations. The design and production concentration offers students advanced study that can lead to careers as designers or technologists in the performing arts and the entertainment industry.

Theory & Composition (Composition), BMUS (FAMUSTCBM)

Campus: TEMPE

Program Description: The B.Mus. in theory and composition with a concentration in composition program focuses on the study of music from a compositional viewpoint. This program may be used as the first step toward a master's or doctorate in music theory and composition. The School of Music offers students the opportunity to study with theorists and composers who have established national and international reputations.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra OR MAT 119 OR MAT 142

Admission Requirements: Important: An additional application, supplementary materials, and audition are required for entrance to the School of Music. Please go to http://music.asu.edu/students/prospective/undergrad/apply_SOM.php

(http://music.asu.edu/students/prospective/undergrad/apply_SOM.php) for information on applying to the School of Music.

Because entrance into the School of Music is selective, you will be asked to indicate a second choice of major when completing your application to ASU. If you pass your audition, the School of Music will change your major to the appropriate music major. In the event that you are admitted to ASU, but not selected for the School of Music, you will be placed in the second major choice you indicated on your application to ASU. Audition days take place in November (for spring admission), and February/March (for fall admission) of each year. More information on the audition process is available here: http://music.asu.edu/students/prospective/undergrad/apply_Audition.php

(http://music.asu.edu/students/prospective/undergrad/apply_Audition.php).

Application Deadlines

Please visit <http://music.asu.edu/admissions/deadlines> (<http://music.asu.edu/admissions/deadlines>) for complete information on School of Music deadlines.

Spring 2012: The deadline for applying to ASU for admission to the B.Mus. in composition is October 1, 2011. A prescreening portfolio is required of all applicants. In addition, a separate prescreening is required for all applicants who wish to audition in voice. Prescreening information:

<http://music.asu.edu/admissions/prescreening> (<http://music.asu.edu/admissions/prescreening>).

Fall 2012: The deadline for applying to ASU for admission to B.Mus. in composition is December 1, 2011. A prescreening portfolio is required of all applicants. In addition, a separate prescreening is required for all applicants who wish to audition in voice. Prescreening information:

<http://music.asu.edu/admissions/prescreening> (<http://music.asu.edu/admissions/prescreening>).

You must select a different major when applying to ASU after these deadlines. You may apply to the School of Music for the audition day(s) held during your first semester at ASU. The School of Music will change your major to music if you pass your audition. Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to:

- The existence of parallel and equal courses in the college's curriculum.
- Departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU.

Transfer students enrolled in the institute must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Career Opportunities: A degree in the arts offers students a pathway to a rich and varied choice of careers. This particular program is designed for a student who plans a career as a professional composer, arranger or college-level teacher of theory and composition. College-level teaching does require a graduate degree.

Engineering, Ira A. Fulton Schools of

Aerospace Engineering (Aeronautics), BSE (ESAEROBSE)

Campus: TEMPE

Program Description: The aerospace engineering curriculum provides students with an education in technological areas critical to the design and development of aerospace vehicles and systems. The aeronautics concentration, under the B.S.E. in aerospace engineering, emphasizes engineering and the design of aircraft, helicopters, missiles and other vehicles that fly through the atmosphere. Topics in required courses cover:

- Aerodynamics.
- Aerospace materials.
- Aircraft structures.
- Flight mechanics.
- Propulsion.
- Stability and control.

Required astronautics topics include:

- Attitude control.
- Orbital mechanics.
- Rocket propulsion.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Degree Requirements:

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer students with 24 or more transferable college credit hours:

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: A majority of students entering the field of aerospace engineering desire to work on the design and analysis of aerospace vehicles. Most graduates are employed in the aerospace industry or in government positions related to aerospace. Specific careers in aerospace

engineering include:

- Aeronautical and space systems integration.
- Configuration development.
- Material and structural design.
- Propulsion engineering.
- Space mission design and analysis.
- Vehicle and component analysis using computer-aided tools.
- Vehicle design and performance.
- Wind-tunnel and flight testing.

The objectives of the aerospace engineering program are for graduates to be employed in aerospace engineering or a related field or accepted to graduate school. Our graduates will:

- Be employed as engineers or will be enrolled in (or have graduated from) engineering or professional graduate school.
- Contribute to the design of solutions to complex problems.
- Demonstrate professionalism and will hold positions of increasing responsibility within their organizations.

Aerospace Engineering (Astronautics), BSE (ESAEASBSE)

Campus: TEMPE

Program Description: The aerospace engineering curriculum provides students with an education in technological areas critical to the design and development of aerospace vehicles and systems.

The astronautics curriculum covers:

- Attitude determination and control.
- Elective topics in astronautics.
- Gas dynamics.
- Orbital mechanics.
- Rocket propulsion.
- Space environment.
- Space structures.
- Telecommunications.

Students in the astronautics concentration culminate their major study with a capstone design project that incorporates the multiple disciplines involved in the creation of a space-going vehicle.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English-language proficiency criterion. Biomedical Engineering, BSE (ESBMEBSE)

Campus: TEMPE

Program Description: Biomedical engineering uses principles and methods from engineering and the physical sciences to solve problems in biology and medicine.

Our first primary goal is to produce high-quality graduates with broad-based education in engineering and the life and natural sciences who are well prepared for further graduate study in biomedical engineering, a career in biomedical research, or entry into a medical or other health professional school.

The second primary goal is to graduate students who apply their skills in an ethical, sustainable and environmentally responsible manner to make contributions that address societal and individual needs.

Our objective is to prepare students:

- For productive employment, graduate study, or professional programs, especially in human and animal medicine, biotechnology and related biology-based engineering fields.
- Who continue to develop technical knowledge, awareness and leadership abilities to address domestic or global issues in human health.
- Who will ethically and responsibly contribute to society, drawing from an integrated, multidisciplinary biomedical engineering education, focusing on sustainability and environmentalism.

Accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: 410-347-7700.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 3.00 in all critical courses for Terms 1 and 2 (see major map for critical courses), and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: Biomedical engineers are employed in industry, hospitals and research facilities affiliated with educational and medical institutions, education and governmental regulatory agencies. They often serve a coordinating or interfacing function, using their background in both the engineering and medical fields. In industry, they may create designs where an in-depth understanding of living systems and technology is essential. They may be involved in performance testing of new or proposed products. Government positions often involve product testing and safety, as well as establishing safety standards for devices. In the hospital, the biomedical engineer may provide advice on the selection and use of medical equipment and supervise performance testing and maintenance of the selected equipment. Biomedical engineers may also build customized devices for special health care or research needs.

Chemical Engineering, BSE (ESCHEBSE)

Campus: TEMPE

Program Description: Chemical engineering deals with the application of chemistry, physics and mathematics to the process of converting raw materials or chemicals into more useful or valuable forms. Chemical engineering also involves the design of valuable new materials and chemical products.

The B.S.E. offered in the chemical engineering program builds on a broad base of knowledge within the basic and mathematical sciences and engineering, and offers excellent career opportunities. Chemical engineers are engaged in the development and production of a diverse range of products, including high performance materials needed for aerospace, automotive, biomedical, electronic, environmental and military applications. The modern discipline of chemical engineering is intertwined with biology and biomedical engineering.

Accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: 410-347-7700.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer students with 24 or more transferable college credit hours:

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: Chemical engineers have traditionally played a key role in industries as varied as:

- Artificial fibers.
- Ceramics.
- Food.
- Glass.
- Petrochemicals.
- Petroleum.
- Plastics.
- Primary metals.
- Specialty chemicals.

Newer areas, such as semiconductors, biotechnology, biomedical engineering, modern materials (composites, superconductors) and the solution of environmental problems, have also generated more opportunities for chemical engineers. These factors, along with the recent recovery and reported record earnings of the chemical and petroleum industries, have created a great demand for chemical engineering graduates.

Civil Engineering, BSE (ESCEEBS)

Campus: TEMPE

Program Description: Civil engineering majors in the Ira A. Fulton Schools of Engineering have three choices within the B.S.E. accredited program:

- Civil engineering.
- Civil engineering with environmental engineering concentration.
- Civil engineering with sustainable engineering concentration.

The first choice allows students to choose among design and technical elective courses in their senior year. The other choices specify design and technical courses to students with minimal choices. Regardless of choice, the B.S.E. in civil engineering is accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: 410-347-7700.

Civil engineering involves the analysis, planning, design, construction, maintenance and application of sustainable practices in all areas of urban infrastructure for government, commerce, industry and the public domain. These include:

- Airports.
- Bridges.
- Canals.
- Dams.
- Factories.
- Office towers.
- Roadway systems.
- Schools.
- Tunnels and subway systems.
- Water purification facilities.

Civil engineers are concerned with the impact their projects have on the public and the environment; they coordinate the needs of society with technical and economic feasibility.

The curriculum exposes students to various areas of civil engineering, including:

- Construction engineering.
- Environmental engineering.
- Geotechnical engineering.
- Hydrosystems engineering.
- Structures.
- Transportation.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: ASU graduates with a B.S.E. in civil engineering readily find employment. Civil engineers work in many different types of companies, from large corporations to small, private consulting firms, or governmental agencies. A civil engineering background is an excellent foundation for jobs in management and public service. Civil engineering is one of the best engineering professions from the viewpoint of international travel opportunities or for eventually establishing one's own consulting business. The B.S.E. in civil engineering prepares graduates for the Fundamentals of Engineering (FE) examination, the Professional Engineering (PE) examination and graduate degrees.

- Civil engineering with environmental engineering concentration.
- Civil engineering with sustainable engineering concentration.

The first choice allows students to choose among design and technical elective courses in their senior year. The other choices specify design and technical courses to students with minimal choices. Regardless of choice, the B.S.E. in civil engineering is accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: 410-347-7700.

The faculty in the Ira A. Fulton Schools of Engineering offer a B.S.E. in civil engineering, with a concentration in environmental engineering. Environmental engineering is a multidisciplinary field based on traditional civil engineering principles, chemistry, biology and geology. Environmental engineers are involved with:

- Air pollution technology.
- Analysis of the fate and transport of pollutants in natural environments.
- Application of sustainable practices in all areas of urban infrastructure.
- Construction of hazardous waste containment systems.
- The design and operation of water and wastewater treatment systems.
- Remediation of contaminated soils and waters.
- Surface water quality management.
- Water conservation and reuse.

In addition to environmental engineering, the curriculum exposes students to other areas of civil engineering, including:

- Geotechnical engineering.
- Hydrosystems engineering.
- Structures.
- Transportation.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: ASU graduates with a B.S.E. in civil engineering with a concentration in environmental engineering find employment in consulting firms, municipalities, regulatory agencies and industry. The growth of environmental engineering positions has been balanced by the growing number of students entering the field, resulting in a stable job market.

A civil engineering background is an excellent foundation for jobs in management and public service. International opportunities are abundant and are likely to expand. The B.S.E. in civil engineering prepares graduates for the Fundamentals of Engineering (FE) examination, the Professional Engineering (PE) examination and graduate degrees.

Civil Engineering (Sustainable Engineering), BSE (ESCEESUBSE)

Campus: TEMPE

Program Description: Civil engineering majors in the Ira A. Fulton Schools of Engineering have three choices within the B.S.E. accredited program:

- Civil engineering.
- Civil engineering with environmental engineering concentration.
- Civil engineering with sustainable engineering concentration.

The first choice allows students to choose among design and technical elective courses in their senior year. The other choices specify design and technical courses to students with minimal choices. Regardless of choice, the B.S.E. in civil engineering is accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: 410-347-7700.

The faculty in the Ira A. Fulton Schools of Engineering offer a B.S.E. in civil engineering, with a concentration in sustainable engineering. With limited world resources, especially in urban areas, there is large demand for new sustainable engineering approaches and technologies in order to maintain and improve the quality of life for future generations. Sustainable engineering incorporates systems modeling and life cycle approaches to assessing the resiliency and material selection across all areas of urban infrastructure, or built environment, currently addressed within the civil engineering degree. The program is designed to provide students with exposure to material from several disciplines that comply with the principles of economic, social and ecological sustainability and apply them to traditional civil engineering areas of environmental engineering, hydrosystems engineering, structures, geotechnical engineering and transportation.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: Many jobs are currently available that are applicable to the civil engineers with sustainable engineering concentration in different types of companies, from large corporations to small, private consulting firms, or governmental agencies. Civil engineering is one of the best engineering professions from the viewpoint of international travel opportunities or for eventually establishing one's own consulting business. The B.S.E. in civil engineering prepares graduates for the Fundamentals of Engineering (FE) examination, the Principles and Practice of Engineering (PE) examination and graduate degrees.

Computer Science, BS (ESCSEBS)

Campus: TEMPE

Program Description: Computer science professionals design, analyze and improve the quality of computer software and systems for a variety of applications, including:

- Artificial intelligence.
- Computer vision.
- Graphics.
- Information management.
- Multimedia.
- Networking.
- Security.

Examples of projects a computer scientist might work on include:

- Computer networking.
- Database and information systems.
- Distribution processing systems.
- Gaming systems.
- Next-generation computing systems.
- Search engines.
- Software engineering.
- Web services.

The program focuses on the design of computers, computational processes for problem solving, and information transfer and transformation with an emphasis in improving software and system quality, security, performance and usability. The program supports the evolution of the computing and informatics disciplines, and the integration of computer and information sciences with engineering, science and other disciplines.

Accredited by the Computing Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: 410-347-

7700.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Graduates with a degree in computer science find employment working in a variety of capacities ranging from computer and software design to development of information technologies. Their jobs are often distinguished by the high level of theoretical expertise they apply to solving complex problems and the creation and application of new technologies. Some computer science-related jobs may include:

- Creating computer games and graphics systems.
- Designing artificial intelligence systems.
- Developing network security applications.
- Inventing and implementing more efficient systems for managing data management, including information retrieval and search on the Internet.

With the theoretical foundation built in the program, computer science graduates can excel in system and software development, as well as in designing effective computing solutions for emerging and challenging problems in modern society. Skills in system development and research can lead to entrepreneurial activity that produces innovative computing products and services.

Three to five years after graduation, the alumni of the B.S. degree in computer science will:

- Be engaged in lifelong learning to maintain currency in an ever-changing field, to innovate, and to attain professional advancement.
- Communicate effectively to all constituencies and uphold a commitment to professional and ethical conduct.
- Have demonstrated the ability of analyzing and solving complex technical problems from a "system" perspective of computer science, including business, societal, and regulatory issues.
- Have demonstrated the ability to tackle challenging computing problems using a comprehensive knowledge of computer science, while reflecting a commitment to quality, innovation, critical thinking, and continuous improvement.
- Have functioned as both a leader and collaborative team member within diverse environments.

Computer Science (Information Assurance), BS (ESCSEIBS)

Campus: TEMPE

Program Description: The B.S. in computer science with a concentration in information assurance provides students with the knowledge, skills and advanced development capability for building dependable and secure information systems and networks, ensuring the integrity and quality of the information being stored, processed and transmitted by information systems and networks. The curriculum of the concentration spans broad areas of information assurance, including:

- Computer and network forensics.
- Computer network security.
- Computer systems security.
- Data and information security.
- Information assurance.

ASU has been certified as a National Center of Academic Excellence in Information Assurance Education and a National Center of Academic Excellence in Information Assurance - Research by the National Security Agency and the Department of Homeland Security. IA courseware at ASU has been certified by the Information Assurance Courseware Evaluation Program to satisfy the standards for 1) Information Systems Security Professionals (NSTISSI 4011), and 2) Senior Systems Managers (CNSSI 4012). For more information on IA courseware at ASU, see <http://ia.asu.edu/education.php> (<http://ia.asu.edu/education.php>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: Students enrolled in the information assurance concentration are eligible for federal fellowships, such as the Department of Defense Information Assurance Scholarship Program and the Federal Cyber Service Scholarship for Service Program. For more information on the

scholarship programs, see <http://ia.asu.edu/scholarship.php> (<http://ia.asu.edu/scholarship.php>).

Graduates with a degree in computer science with an information assurance concentration find employment in a variety of capacities ranging from computer system and software development to research on information assurance technologies. Some related jobs may include:

- Analyzing computer forensic data.
- Designing secure information systems and databases.
- Developing secure software.
- Information security consulting.
- Secure computer and network applications.

Computer Science (Software Engineering), BS (ESCSESBS)

Campus: TEMPE

Program Description: The software engineering concentration is appropriate for computer science students seeking careers as software engineers. Software engineering concentration students will learn advanced processes, methodologies and tools for developing and testing large and small software applications in emerging areas such as:

- Enterprise systems.
- Service-orientated computing.
- Systems of systems.

They will also learn information assurance concepts and techniques or principles of human computer interaction and methods for developing these applications. The curriculum prepares students to assume leadership roles in software development organizations, and to practice professional standards and emerging software technology to the software engineering life-cycle activities.

Accredited by the Computing Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: 410-347-7700.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses),and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: Career opportunities are strong and numerous for software engineering concentration graduates. Graduates possess the knowledge and skills to work across the spectrum of software development process activities including:

- Architecture.
- Coding.
- Project management.
- Quality assurance.
- Requirements engineering.
- Testing.

Career paths include:

- Software analyst.
- Software architect.
- Software engineer.
- Software task leader.
- Software tester.

Software engineering concentration graduates find employment in large and small organizations that develop, employ and manage software systems. They work on all types of projects, from large, complex engineering systems, distributed banking, financial and government software to gaming.

Computer Systems Engineering, BSE (ESCSEBSE)

Campus: TEMPE

Program Description: The computer systems engineering program focuses on the analysis, design, testing, integration and evaluation of hardware and software systems. The curriculum is grounded in an array of engineering disciplines, including the applications of science and technology to the design of:

- Computer architecture.
- Computer security.
- Digital circuits.
- Distributed and embedded systems.
- Networking.
- Operating systems.

Students engage in the design of integrated hardware and software solutions for computing, communication and control applications. They practice many aspects of engineering activities, such as the development of:

- Computer networks.
- Embedded and ubiquitous systems.
- High performance computer systems.
- Individual digital components.

Students become skilled at interfacing different pieces of hardware and software components, and integrating systems and products with new capabilities and improved quality and performance.

Accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: 410-347-7700.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: Computer systems engineers are employed in industry, government, education and consulting and are concerned with the design, development and operation of hardware and software components of various computer systems.

Computer systems engineers often find themselves focusing on engineering problems or challenges that result in new state-of-the-art products that integrate computing and communication capabilities. They work on the development verification and testing of computer hardware and software, from chips to device controllers and embedded systems. Computer systems engineers frequently find jobs that involve designing new applications of computers and other devices, such as those used in:

- Airplanes.
- Digital television and photography.
- Intelligent highways and control systems for cars.
- Mobile devices and smart applications.
- New apparatuses for the sight-impaired or others with physical disabilities.
- Security and defense systems.
- Space vehicles.

Three to five years after graduation, we expect the alumni of the B.S.E. degree in computer systems engineering to exhibit one or more of the following:

- Success in a chosen field as evidencing, for example, continued employment, entrepreneurship, or other accomplishments.
- Advancement as shown by promotion to a position of increased technical, supervisory or management responsibility.
- Engagement in lifelong learning to maintain currency in an ever-changing field.
- Success in a graduate or professional school degree program.

In addition, we expect our alumni to demonstrate professional and ethical conduct in their professional actions.

Construction Engineering, BSE (ESCONBSE)

Campus: TEMPE

Program Description: The B.S.E. in construction engineering focuses on a combination of design and management topics preparing the student for a career in the engineering and construction industry. The degree prepares students who wish to gain a professional engineering license while working at the interface of design and construction; it is desirable to those students who are interested in a career emphasizing construction of infrastructure. The degree makeup includes engineering design and construction management courses with a focus on sustainability and building information modeling topics. Construction management content includes:

- Contract management.
- Construction methods.
- Cost and schedule control.
- People management.
- Project estimating.

The curriculum's design content includes structures, geotechnical engineering and transportation. Students are further prepared with the computer, management, technical and people skills needed to succeed. This degree is the third in the Southwestern U.S. and one of about 20 worldwide.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses),and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: The construction engineering graduate will be prepared to begin as a field engineer, project engineer or project designer working for facility owners, design firms, construction companies, specialty subcontractors or material suppliers. The graduate will have unique skills which will allow them to take on the role of integrator in the delivery of design build projects or development activities. As the graduate's career progresses, each should be able to take on leadership roles in the delivery of sustainable facilities in the built environment and then progress through successively higher levels of management responsibility. The graduate should be particularly attuned to design and construction of heavy civil and industrial facilities meeting the infrastructure needs of society.

Construction Management (Concrete Industry Management), BS (ESCONIMBS)

Campus: TEMPE

Program Description: The Del E. Webb School of Construction program offers the B.S. in construction with a concentration in concrete industry management. Concrete industry management graduates are broadly educated, articulate managers grounded in basic construction management, who are knowledgeable about concrete technology and techniques and are able to manage people and systems and to promote products or services in the concrete industry.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses),and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: The concrete industry management concentration provides a foundation for students who wish to pursue careers as project managers, estimators, schedulers or a combination of all three at an executive level. Concrete industry management career opportunities include:

- Advanced mixing technology or equipment manufacturing.
- Cement.
- Concrete or general contracting.
- Concrete production.
- Development.
- Field sales.
- Operations.
- Project and production management.
- Technical service.

Construction Management (General Building Construction), BS (ESCONGBS)

Campus: TEMPE

Program Description: Through the B.S. in construction management program, students will be able to specialize in heavy construction, residential, commercial, and specialty construction. Students learn to organize, lead and manage the building business processes related to real estate and infrastructure projects. Construction management is the most vital function on a job site. Construction managers represent the interests of the building owner or the contractor and interact with architects, engineers, and suppliers to ensure the success of construction projects. Students learn:

- The basics of design.
- The construction methods specific to each type of construction (heavy, residential, commercial, specialty).
- How to estimate and control the costs of a project.
- What it takes to manage the people involved and the various types of contracts.

Students are prepared with the computer, management, technical and people skills needed to succeed. This is one of two construction programs in the state of Arizona and one of approximately 60 accredited programs in the nation.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: The construction management program provides a foundation for students who wish to pursue careers as estimators, project managers, project engineers and eventually become principals of firms engaged in the construction of industrial, commercial and institutional structures.

The heavy construction emphasis area prepares students for careers related to the public works such as highways, airports, bridges, or water facilities.

Residential and commercial emphasis areas prepare students for careers in real estate development, home production systems, special commercial and industrial building projects.

Specialty construction prepares students for careers with contractors, working with mechanical, electrical and construction firms. It also prepares the students for careers in management at specialty contracting firms, such as control systems, electrical, heating, ventilation and air conditioning systems for large facilities.

Construction Management (Heavy Construction), BS (ESCONHBS)

Campus: TEMPE

Program Description: Through the B.S. in construction program (with a concentration in heavy construction), students learn to organize, lead and manage the building process. Builders are one of the two most vital people on a job site, equal in status and importance to the engineer. Students learn:

- The basics of design.
- How to estimate and control the costs of a project.
- The many construction and equipment methods used.
- The various types of contracts.
- What it takes to manage the people involved.

Students are prepared with the computer, management, technical and people skills needed to succeed. This is one of two construction programs in the state of Arizona and one of approximately 60 accredited programs in the nation.

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: The heavy construction concentration prepares students for careers related to the public works discipline. Graduates become project managers, estimators, schedulers or a combination of all three at an executive level. Typical heavy construction-oriented projects include:

- Airports.
- Bridges.
- Canals.
- Dams.
- Harbor and water facilities.
- Highways.
- Pipelines.
- Power plants.
- Rapid transit systems.
- Sewerage systems.
- Tunnels.
- Water works.

Heavy construction managers, through education and experience, are capable of implementing significant facets of construction on a timely and economical basis with proficiency and integrity.

Construction Management (Specialty Construction), BS (ESCONSBS)

Campus: TEMPE

Program Description: Through the B.S. in construction program (with a concentration in specialty construction), students learn to organize, lead and manage the building process with an emphasis on construction at the subcontractor level. This concentration emphasizes the construction process from a subcontractor's perspective including mechanical, electrical and other speciality contractor management and methods. Students learn:

- The basics of design.
- How to estimate and control the costs of a project.
- The many construction methods used.
- What it takes to manage the people involved and the various types of contracts.

Students are prepared with the computer, management, technical and people skills needed to succeed. This is one of two construction programs in the state of Arizona and one of approximately 60 accredited programs in the nation.

Electrical Engineering, BSE (ESEEEBSE)

Campus: TEMPE

Program Description: The goal of the electrical engineering undergraduate program is to prepare graduates for positions as electrical engineers. Faculty in the Ira A. Fulton Schools of Engineering offer a B.S.E. in electrical engineering. Following initial course work in mathematics and sciences, the foundation classes build a solid base of engineering knowledge. The electrical engineering curriculum includes a number of required upper division electrical engineering and technical elective courses; areas include:

- Circuits.
- Communication, signal processing and control systems.
- Computer engineering.
- Electromagnetics.
- Power.
- Solid-state devices.

Approved technical elective courses provide students with an opportunity either to broaden their background in electrical engineering or to study, in greater depth, technical subjects in which they have special interest.

Accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: 410/347-7700.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: Graduates with the B.S.E. in electrical engineering find many exciting opportunities in industry. These include:

- Communication equipment and network providers.
- Computers and peripheral devices manufacturers and defense organizations.
- Consulting companies.
- Electric power utilities.
- Semiconductor chip designers and manufacturers.

The degree also prepares graduates for continued learning experiences, either in a formal graduate program or in continuing education applications.

Electrical Engineering (Electric Power and Energy Systems), BSE (ESEEEPBSE)

Campus: TEMPE

Program Description: The goal of the electric power and energy systems concentration is to prepare graduates for positions in industries dealing with generation, transmission and utilization of electric power. Generation includes conventional power generation (fossil fuel and nuclear) and alternative energy systems, including solar, wind and fuel cells.

Students in this concentration will complete the foundation courses in math, science and engineering. They are then required to take the pathway course in electric power and complete nine of the 15 technical elective credit hours with power classes. In addition, the senior design capstone project should be in the area of electric power and energy systems.

Accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: 410-347-7700.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: Career opportunities for graduates with a concentration in electric power and energy systems include:

- Consulting engineer firms.
- Employment in utility companies.
- Entrepreneurial opportunities.
- Power equipment manufacturers.
- Research and design organizations.
- State, federal, and municipal agencies.

This concentration will also prepare students to pursue graduate degrees in the areas of:

- Power generation.
- Power systems.
- Power transmission and distribution.
- Renewable and sustainable energy sources.

The degree also prepares graduates for continued learning experiences, either in a formal graduate program or in continuing education applications.

Engineering Management, BSE (ESEMGBSE)

Campus: ONLINE, TEMPE

Program Description: The program in engineering management is designed to provide the graduate with skills for effective management and leadership of engineering-driven enterprises. The curriculum provides a breadth of engineering science and design with depth in one specific area suitable for practice. This knowledge is augmented with an understanding of business practices, organizational behavior and management skills to enable the graduate to succeed in the management of a scientific or engineering enterprise. Topics such as project and resource management, financial engineering, risk management, configuration management, service plans, product liability, entrepreneurship and operations management are covered, in addition to product design and process development.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission requirements for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission requirements. Students should select a second major choice when applying for admission to a degree program in the Ira A. Fulton Schools of Engineering.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://students.asu.edu/international-admission> (<http://students.asu.edu/international-admission>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1100 SAT combined math and verbal or minimum 23 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- Admission may be granted with one deficiency in no more than two competency (<http://students.asu.edu/admission/competencies>) areas. Deficiencies in both math and laboratory science are not acceptable.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 2.75 for less than 24 transfer hours, and
- Satisfy the freshmen admission requirements.

Transfer students with more than 24 transferable college credit hours:

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- If Undergraduate Admissions requires submission of a high school transcript, admission may be granted with one deficiency in no more than two competency (<http://students.asu.edu/admission/competencies>) areas. Deficiencies in both math and laboratory science are not acceptable.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Career Opportunities: The engineering management graduate will be prepared to begin as a project management team member or lead, system specification and customer relationship management specialist, production supervisor, supply logistics engineer or similar role, and then progress through successively higher levels of management responsibility.

The graduate will leave with a deep understanding of at least one industry sector based upon the focus area selected.

Industrial Engineering, BSE (ESIEEBSE)

Campus: TEMPE

Program Description: Industrial Engineering (IE) is concerned with the design, improvement, installation and operation of integrated systems of people, materials, information, equipment and energy. Industrial engineers determine the most effective ways to use the basic factors of production-people, machines, materials, information, and energy-to make a product or provide a service. IE draws upon specialized knowledge and skill in the

mathematical, physical and social sciences together with the principles and methods of engineering analysis and design, to specify, predict and evaluate the results to be obtained from such systems.

The underlying concepts of IE include certain business principles, but IE emphasizes the use of mathematics and information technology to build models to describe, understand and optimize system performance. Depending on the sub-specialties involved and intended application, industrial engineering may also be known as operations management, management science, operations research, systems engineering or manufacturing engineering. For example, in health care industrial engineers are more commonly known as health management engineers or health systems engineers.

Accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: 410/347-7700.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: Graduates in industrial engineering are prepared to design and manage systems for a wide range of organizations. They find exciting career opportunities in all types of manufacturing and service industries, including:

- Aerospace.
- Automotive.
- Banking.
- Defense.
- Finance.
- Government.
- Healthcare.
- Management consulting.
- Semiconductor manufacturing.
- Telecommunications.
- Transportation.

Informatics, BS (ESCPIBS)

Campus: TEMPE

Program Description: The Bachelor of Science (B.S.) informatics program is an interdisciplinary degree that combines mastery of general techniques for processing information with specialization in an application area and its information processing problems. The design of the degree responds to the rapidly growing need for skilled workers who can take a problem-driven, system-level, user-oriented perspective toward information and computing, who can apply current informatics methods to address society's needs, and who can contribute to the next generation of such systems.

The program begins with the fundamentals of informatics in a general setting and in the context of disciplinary applications. The student selects a focal area such as enterprise informatics, geo-informatics, etc.; takes prescribed courses; and completes a two-course capstone project in the focal area. Thus, an informatics graduate remains highly interdisciplinary, yet has a specialization that provides a head start on one possible career in informatics.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 265 - Calculus for Engineers I

Admission Requirements: The admission requirements for a Bachelor of Science in informatics are higher than minimum university admission requirements. Students should select a second major choice when applying for admission to a degree program in the Ira A. Fulton Schools of Engineering.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://students.asu.edu/international-admission>) and admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer students with more than 24 transferable college credit hours:

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and
- A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: An ASU informatics graduate has the ability to develop future information technology solutions that place a strong emphasis on user needs and provide the ability to adapt and change dynamically with society's needs. This makes the informatician a strong candidate for jobs in:

- Graduate programs offering emphasis in emerging technologies.
- Management consulting firms.

- Technology research centers.
- Technology start-ups.

Materials Science & Engineering, BSE (ESMSEBSE)

Campus: TEMPE

Program Description: Materials engineers are responsible for designing and developing new and improved materials for a wide variety of engineering applications. The faculty in the Ira A. Fulton Schools of Engineering offer a B.S.E. in materials science and engineering. Courses in materials teach students about the structure of materials and how to process them to improve their structure, properties and performance. Accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone: 410-347-7700.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses), and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: Materials engineers are in demand in a wide range of industries, including the automotive, aerospace, electronics, energy, semiconductor, computer and health care professions. The career paths in these industries offer opportunities to impact technological advances through working in a team environment with engineers from the chemical, electrical, mechanical, aerospace and other engineering disciplines.

Mechanical Engineering, BSE (ESMAEMBSE)

Campus: TEMPE

Program Description: Mechanical engineering is a creative, diverse discipline. Mechanical engineers design, build and control the devices, machines, processes, and systems that are the mainstay of modern industrialized society.

Students are prepared for a career in mechanical engineering through a curriculum that includes study of the principles governing energy transfer, mechanical design, sensors and control devices and the application of these principles to the creative solution of practical modern problems. Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer students with 24 or more transferable college credit hours:

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: A major strength of a mechanical engineering education is the flexibility it provides in future employment opportunities for its graduates. Mechanical engineers are employed in virtually every kind of industry. They are involved in seeking new knowledge through research; in generating creative design and development; and in the production, control, management and sales of the devices and systems needed by society. The objectives of the mechanical engineering program are for graduates to be employed in mechanical engineering or a related field or accepted to graduate school and:

- Our graduates will be employed as engineers or will be enrolled in (or have graduated from) engineering or professional graduate school.
- Our graduates will be sought out to contribute to the design of solutions to complex problems.
- Our graduates will demonstrate professionalism and will hold positions of increasing responsibility within their organizations.

Mechanical Engineering (Computational and Mathematical Mechanics), BSE (ESMAECBSE)

Campus: TEMPE

Program Description: As mathematical and numerical modeling takes on a much larger role in product development, graduates who are highly skilled in computational and mathematical engineering will be in high demand. The concentration in computational and mathematical mechanics, under the B.S.E. in mechanical engineering, is designed to teach students the modern computational tools available for solving large-scale and complex technical problems. The curriculum focuses on high-performance computing and the accurate modeling of large- and small-scale systems. Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English-language proficiency criterion. Mechanical Engineering (Energy & Environment), BSE (ESMAEEBSE)

Campus: TEMPE

Program Description: The concentration in energy and environment, within the B.S.E. in mechanical engineering, seeks to prepare students to analyze technical problems in:

- Air pollution.
- Climate change.
- Energy efficiency.
- Environmental sustainability.

- Renewable energy.
- Timely issues facing the global community.

Although the primary focus of this program is technical, the general education courses in the areas of the humanities and social and behavioral sciences introduce students to the global, political and societal issues relating to energy and the environment. By focusing on issues such as air pollution, water scarcity and the lack of alternative transportation, this program becomes even more attractive for employers in the greater Phoenix area, as well as nationwide.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score; or 3.00 minimum ABOR GPA; or class ranking in top 25 percent of high school class, and
- No high school math or science competency deficiencies.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- No high school math or science competency deficiencies, and
- Minimum 1140 SAT combined math and verbal or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer students with 24 or more transferable college credit hours:

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- No high school math or science competency deficiencies (if Undergraduate Admissions requires submission of a high school transcript).

Career Opportunities: Mechanical engineers are employed in virtually every kind of industry. They are involved in:

- Generating creative design and development.
- Seeking new knowledge through research.
- The production, control, management and sales of the devices and systems needed by society.

Therefore, a major strength of a mechanical engineering education is the flexibility it provides in future employment opportunities for its graduates. Students completing this concentration have opportunities as:

- Environmental consultants.
- Heating, ventilation and air-conditioning (HVAC) engineers.
- Power plant designers.

The objectives of the mechanical engineering program are for graduates to be employed in mechanical engineering or a related field or accepted to graduate school and:

- Our graduates will be employed as engineers or will be enrolled in (or have graduated from) engineering or professional graduate school.
- Our graduates will be sought out to contribute to the design of solutions to complex problems.
- Our graduates will demonstrate professionalism and will hold positions of increasing responsibility within their organizations.

Health Solutions, College of

Applied Science (Food Service Management), BAS (ECNTRBAS)

Campus: DTPHX

Program Description: The B.A.S. degree with a concentration in food service management is designed to complement and enhance the educational preparation of students holding an A.A.S. degree from a regionally accredited institution. It is a flexible, 60-credit-hour degree particularly designed for students holding an A.A.S. degree in culinary or hospitality science.

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements: Students applying to this program must have completed an Associate of Applied Science (A.A.S.) degree. Not available for freshmen.

Career Opportunities: This degree prepares students for careers in food production, service, management and marketing. With additional education or professional training, students may also become credentialed as certified dietary managers, school food service and nutrition specialists or registered sanitarians.

Applied Science (Health Sciences), BAS (NUHSCBAS)

Campus: DTPHX, ONLNE

Program Description: The B.A.S. program is a flexible degree designed specifically for students who have earned an A.A.S. from a regionally accredited institutions. In completing the B.A.S., students complete all ASU graduation requirements.

The concentration in health sciences is designed to provide the academic knowledge and skills to allow students with an A.A.S. degree from a previously-approved health related program to advance their employment opportunities within the health field and/or continue into a graduate program of study.

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements: Students applying to this program must have completed an Associate of Applied Science (A.A.S.) degree. Not available for freshmen.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(<http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-applied-science-health-sciences>)

Career Opportunities: Graduates will be able to return to their original area of expertise in allied health (i.e., radiology, nuclear imaging) and qualify for a managerial position, as an educator or instructor within their field of expertise or a higher position grade within their current place of employment. Other career options include positions such as:

- Elder services program coordinator.
- Health/patient educator.
- Healthy Start coordinator.
- HMO/insurance company client coach.
- Home health care coordinator.
- Longterm care health/wellness coordinator.
- School health and program specialist.
- WIC/Community nutrition aide.

Exercise & Wellness (Exercise & Wellness), BS (ECEXWBS)

Campus: DTPHX

Program Description: The B.S. in exercise and wellness with a concentration in exercise and wellness provides students with the knowledge, skills and professional expertise to assist individuals across the lifespan in adopting physical activity and other healthy behaviors that lead to increased fitness, wellness and optimal health.

The exercise and wellness concentration prepares students in the:

- Sciences of cardiovascular and muscular fitness, nutrition, and stress management;
- Methods for promoting health behavior change;
- Knowledge, skills, and ethics for instructing, assessing, prescribing, and promoting fitness and wellness behaviors to varied populations.
- Competencies required to pursue national certifications provided by professional organizations such as the American College of Sports Medicine, National Strength and Conditioning Association, or the National Academy of Sports Medicine.

Students are exposed to the latest research and practices designed to enhance fitness and wellness through laboratory and field experiences. Distinctive features of the exercise and wellness concentration include an outstanding capstone internship that provides preprofessional experience in the fitness, wellness and health industry, locally and nationally, and a focus on practical hands-on application of knowledge and skills learned throughout the program.

The preparation and internship in this program prepares students for multiple career opportunities across fitness and wellness industries and health promotion settings, as well as further graduate study in such fields as exercise science, physical therapy, dentistry and medicine.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra/MAT 170

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Graduates will have enhanced opportunities in fitness and wellness employment settings, because clients and employers prefer to work with people who are more highly prepared and qualified.

Undergraduates in this concentration often pursue careers in such fields as:

- Active adult planned community fitness and health promotion.
- Cardiac rehabilitation.
- College and university wellness and fitness centers.
- Community recreation and fitness centers.
- Country club fitness center
- Family planned community fitness and health promotion.
- Hospital based fitness centers.
- Personal trainers.
- Spa fitness.
- Sports medicine clinics.
- Strength and conditioning coach.
- Worksite fitness and health promotion.

Graduates may pursue further graduate study in such fields as:

- Chiropractic.
- Dental school.
- Exercise science.
- Medical school.
- Occupational therapy.
- Physician assistant.
- Physical therapy.

Exercise & Wellness (Health Promotion), BS (ECEXWHBS)

Campus: DTPHX

Program Description: The B.S. in exercise and wellness with a concentration in health promotion provides students with the knowledge, skills and expertise to assist individuals across their lifespan in adopting healthy lifestyles.

The health promotion concentration focuses on the development and delivery of programs that enhance awareness about healthy lifestyle behavior, increasing health-enhancing behaviors, decrease health risk behaviors and create environments supportive of healthy lifestyles.

Students are prepared in:

- Foundational knowledge in nutrition, physical activity, stress, and substance abuse for chronic disease prevention,
- Methods for promoting health behavior change,
- Knowledge, skills, and ethics for assessing group and community health needs,
- Skills in designing, implementing, administering, and evaluating effective health promotion programs in worksite, community, healthcare, and agency settings.
- Competencies required to pursue the Certified Health Education Specialist certification.

Distinctive features of the health promotion concentration include an outstanding capstone internship that provides preprofessional experience in health promotion settings and a focus on application of the knowledge and skills learned throughout the program.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra/170

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: The rising cost of health care has increased the need for individuals in health promotion. As health care costs continue to rise, insurance companies, employers and governments are attempting to find ways to curb costs. One of the more cost-effective ways is to employ health promotion professionals to teach people how to live healthy lives and avoid costly treatments for illnesses. Health promotion professionals work in various environments based on the industry in which they are employed. In public health, nonprofit organizations, corporations and businesses, colleges and universities and medical care settings, they primarily work in offices. However, they may spend a lot of time away from the office implementing and attending programs, meeting with community organizers, speaking with patients or teaching classes.

Undergraduates in this concentration often pursue careers in such fields as:

- College and university wellness and health promotion.
- Government health departments and agencies.
- Health and wellness coaching.
- Nonprofit disease prevention agencies.
- Private health care organizations.
- Wellness centers.
- Worksite wellness and health promotion.

Graduates may pursue further graduate study in such fields as:

- Dental school.
- Health education.
- Health promotion.
- Health psychology.
- Medical school.
- Occupational therapy.
- Physician assistant.
- Public health.

Health Sciences (Health Policy), BS (NUHSCHPBS)

Campus: DTPHX

Program Description: The B.S. in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. Students will complete a complement of core courses that emphasize ethics, communication skills, critical thinking and cultural awareness. The program includes three unique concentrations: preprofessional, healthy lifestyle coaching and health policy.

The program is designed for students interested in the community policy aspects of disease prevention and health promotion. The continuum of health care now spans a diverse array of health providers ranging from private practitioner offices and outpatient care centers to residential care facilities and acute care hospitals. Key to the enhancement of health care within the U.S. is the development and implementation of innovative, cost effective and universally accessible programs. Students in this concentration will be required to complete a supervised practicum, providing hands-on experience within their field of interest. Students may also wish to consider using their electives to complete a minor in nonprofit administration, which requires 15 credits.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Career Opportunities: Career opportunities are available in city, county and state departments of health, with additional employment opportunities in the health insurance industry, nonprofit sector and within various corporate entities providing health care.

Health Sciences (Healthy Lifestyles Coaching), BS (NUHSCHLCBS)

Campus: DTPHX, ONLNE

Program Description: The B.S. in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field and/or continue their education in discipline-specific programs. Students will complete a complement of core courses that emphasize ethics, communication skills, critical thinking and cultural awareness. The program includes three unique concentrations: pre-professional, healthy lifestyles coaching, and health policy.

The program is designed for students who have a broad interest in health education and are seeking immediate employment in the community health education/health promotion field.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Career Opportunities: Career options include positions such as:

- Elder service/congregate meal program coordinator.
- Health/patient educator.
- Healthy start coordinator.
- School health and nutrition program specialist.
- Women, infants and children/community nutrition aide.

Health Sciences (Pre-professional), BS (NUHSCPRES)

Campus: DTPHX

Program Description: The B.S. in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. Students will complete a complement of core courses that emphasize ethics, communication skills, critical thinking and cultural awareness. The program includes three unique concentrations: preprofessional, healthy lifestyle coaching and health policy.

The program is designed for students planning to enter medical, dental, osteopathic, physical therapy, veterinary, pharmacy and similar professional schools. In addition to a comprehensive core of basic science courses, the concentration is unique in that it will provide a solid base in ethics; communication; the evaluation of research (the cornerstone of evidence-based practice); and healthy lifestyles (the foundation of health promotion and chronic disease risk reduction avenues of health care), including the role of complementary and alternative care within the U.S. health care system. Students will also have the ability to incorporate electives that contribute to their knowledge of and sensitivity to the needs of populations impacted by health disparities.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: If not entering an advanced degree program in the medical field, employment opportunities include:

- Clinical research coordinator.
- Health officer.
- Laboratory scientist.
- Sales/marketing representative for pharmaceutical or medical device companies.

Kinesiology, BS (NUKINBS)

Campus: DTPHX

Program Description: Kinesiology is a discipline emphasizing the study of movement as it relates to physical activity, health and disease prevention, exercise and sport. Using both human and animal models and reflecting research ranging from basic to applied, it draws from an interdisciplinary body of knowledge grounded in the biological, psychological, physical and social sciences.

Undergraduate students in the program gain a disciplinary knowledge of the anatomical, biomechanical, developmental, neural, physiological and psychological mechanisms underlying human movement.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Admission Requirements: Fall 2010

All applicants must meet university minimum admission requirements (<http://students.asu.edu/undergraduate-admission>).

Effective Spring 2011

Freshmen admission:

- Have a minimum ABOR GPA of 3.30; and high school class rank in the top 15th percentile; or an SAT score of 1140 or higher or an ACT score of 25 or higher.
- Meet math competency (Four years Math, including Algebra 1, Geometry, Algebra II and one course requiring Algebra II as a prerequisite)

Transfer students with fewer than 24 transferable college credit hours:

- Admissions will be based on the standards used for freshmen admission.

Transfer students with greater than 24 transferable college credit hours:

- Minimum transfer GPA of 3.30 or higher.

Please note: The Major Map posted is for the 2010-2011 academic year. The kinesiology B.S. is undergoing curricular changes. Students admitted for Fall 2011 and Spring 2012 will be under the 2011-2012 catalog year and subject to the new curriculum and 2011-2012 Major Map.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: An undergraduate degree in kinesiology prepares students for graduate study in a variety of clinical and research settings including:

- Chiropractic.
- Dentistry.
- Kinesiology.
- Medical School.
- Occupational Therapy.
- Physician Assistant.
- Physical Therapy.

Nutrition (Dietetics), BS (ECNTRDBS)

Campus: DTPHX

Program Description: The dietetics concentration, under the B.S. in nutrition, provides all the academic course work a student needs to qualify to become a registered dietitian (R.D.). A registered dietitian is a food and nutrition expert who has met the minimum academic and professional requirements to qualify for the credential. In addition to a core of professional nutrition courses, students must complete a broad range of science, management and communication classes. The program emphasizes the application of nutrition within clinical, community, food production and wellness areas. Graduates can apply to complete a dietetic internship, which will further prepare them to take the exam to become an R.D. ASU's program in dietetics is accredited as a Didactic Program in Dietetics by the Commission on Accreditation for Dietetics Education of the Academy of Nutrition and Dietetics, 120 S. Riverside Plz., Ste. 2000, Chicago, IL 60606-6995.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Central Arizona College (<http://transfer.asu.edu/central-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: The nutrition/dietetics field provides employment opportunities in:

- Consulting.
- Education.
- Food/nutrition marketing and sales.
- Hospitals and other health care facilities.

Nutrition (Food & Nutrition Management), BS (ECNTRMBS)

Campus: DTPHX

Program Description: The food and nutrition management concentration is designed to provide students with an understanding of the food industry and the ability to apply nutrition principles to food production. Students will learn to manage and market food and develop a food or menu that meets a specific nutrition guideline.

Course work focuses on a strong foundation in food purchasing, production and planning. Additional course work in management, marketing and nutrition prepares students for a variety of food service positions. Graduates can also pursue the credentials of certified dietary manager, school nutrition specialist or registered sanitarian.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: According to the National Restaurant Association, the number of food service managers is projected to increase by 15 percent in the next 10 years. This degree prepares students to become food service directors at schools, health care facilities and corporate food service operations. Our graduates aspire to own restaurants or nutrition-related businesses, work in supplement or pharmaceutical sales, or work in food marketing and distribution.

Nutrition (Human Nutrition), BS (ECNTRHBS)

Campus: DTPHX

Program Description: The human nutrition concentration, under the B.S. in nutrition, provides students with a strong foundation in nutrition and science. Students in this concentration usually intend to apply to medical school or another health profession. In addition to providing a strong foundation in medical nutrition therapy, the course work includes anatomy, physiology, chemistry and microbiology. Students gain knowledge of nutritional concepts that health care professionals sometimes lack.

Students from this program have gone on to study:

- Medicine.
- Dentistry.
- Naturopathic medicine.
- Optometry and podiatry.
- Osteopathic medicine.
- Pharmacy.
- Physician assistant.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Central Arizona College (<http://transfer.asu.edu/central-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: The nutrition field provides employment opportunities in health care, public health, education, food service, food/nutrition marketing and sales, and nutrition/health promotion and consulting. Graduates of the human nutrition program often go on to apply to other health education or master's programs. The area of nutrition research is also a good fit for human nutrition majors. Several outstanding scientists have received their bachelor's from this program; add a master's or a doctorate and the opportunities within the research field are unlimited.

Nutrition (Nutrition Communication), BS (ECNTRCBS)

Campus: DTPHX

Program Description: The nutrition communication concentration, under the B.S. in nutrition, was originally developed in collaboration with the Walter Cronkite School of Journalism and Mass Communication. While focusing on human nutrition, students take classes designed to build a foundation toward becoming expert communicators on issues related to food, health and nutrition.

Nutrition courses provide the content for articles students write in their communication classes. This degree program provides students with a strong understanding of the scientific method, statistics, nutrition, health care, fitness and wellness that many traditional journalists lack. Faculty members teach students how to avoid sensationalism or sacrificing reality to get a better story.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: The nutrition communication field offers employment opportunities with newspapers, magazines, Web-based companies, community and health care agencies and private corporations (e.g., public relations firms). With this degree, graduates can pursue careers as authors, freelance writers for newspapers and magazines, public relations representatives for food and beverage companies or consultants in program or product development.

Honors - Barrett, The Honors College

Honors College, (9HOHONALL)

Campus: DTPHX, POLY, TEMPE, WEST

Program Description: ABOUT THE COLLEGE

Barrett, The Honors College at ASU is a selective, residential college that recruits academically outstanding undergraduates. Named "Best Honors College," this honors community is known nationally for the number of National Merit Scholars and recipients of prestigious fellowships such as the Rhodes, Truman, Fulbright, Marshall, Goldwater, NSEP and Udall. Barrett students benefit from a \$10 million endowment used exclusively to support honors students and their projects. The Barrett honors experience is unique, with the advantage of students experiencing a small, intellectually and socially vibrant environment while having access to the vast resources of the major research university that is ASU. Barrett students are members of a small community of scholars who benefit from personalized attention, dedication and access to Barrett deans; roughly 18 Faculty Fellows within the college; more than 1,400 faculty members who teach honors students university-wide; and approximately 35 staff members on all four campuses. Barrett students may major in any field offered at any of the university's four campuses, which also offer a vibrant honors residential component, academic and co-curricular experiences, and faculty and staff support. In the fall of 2009, Barrett opened the nation's first comprehensive premier four-year residential honors college within this top-tier Research I university. The \$130 million nine-acre honors community at ASU includes 12 classrooms; 1,700 beds; a community center (with student lounges, activity rooms, computer labs and a fitness center); a dining center with signature refectory and café; and all the Barrett Faculty Fellows and administration offices.

PROGRAM REQUIREMENTS

Barrett welcomes applications from highly-motivated, high-achieving, academically strong high school seniors and transfer students, as well as students currently enrolled at ASU. Prospective students may apply to Barrett after they have submitted an application to ASU. Admission information and the online application are available on the Barrett website. Barrett students complete a challenging honors curriculum through a combination of honors-only seminars, honors contracts, internships, research, honors study abroad and a culminating honors thesis or creative

project. Generally, students complete 36 hours of honors credits within the 120 credit hours required to earn a bachelor's degree. Details regarding the academic requirements can be viewed using the major map.

STUDENT OPPORTUNITIES

Barrett students take advantage of an array of opportunities that enrich the honors experience. They participate in study abroad programs that enable them to enjoy small classes taught by Barrett faculty and experience different cultures while earning honors credits. Barrett students receive national and international graduate scholarships such as Rhodes, Fulbright, Truman and Marshall scholarships. They secure unique undergraduate research and internship opportunities; attend social and cultural events; work in the governor's office; and publish poetry in the honors literary publication, LUX. They work with doctors at the Mayo clinic as a result of integral community partnerships and work with faculty in the Biodesign Institute on the latest developments in nanotechnology. They also benefit from spending significant time with individuals whose achievements are extraordinary in a given field. Whether listening to the experiences of U.S. Supreme Court Justice Sandra Day O'Connor, enrolling in an honors course taught by former CNN anchor and Rhodes Lecturer-In-Residence, Aaron Brown, or attending a seminar with Centennial lecturer, Edward James Olmos, Barrett students are provided exceptional opportunities to engage with experts in multiple disciplines while learning from each other in an academic-intensive community of students with many talents both within the classroom and beyond.

Additional Program Fee: Y

Second Language Requirement: N

Admission Requirements: Students who have demonstrated high levels of academic achievement in high school or college may apply for admission to Barrett. All candidates for admission must file an application to Barrett separate from their ASU application and must be admitted to ASU before Barrett can consider their application. Applicants are evaluated on the basis of: • High school GPA (Arizona Board of Regents GPA based on 16 competency courses). • High school class rank. • Performance on the SAT or ACT. • Talents that contribute to leadership and community service. Continuing ASU or transfer students are evaluated on their college GPA. Please contact Barrett for more information.

Interdisciplinary Arts & Sciences, New College of

American Studies, BA (ASAMSBA)

Campus: WEST

Program Description: The B.A. in American Studies, within the New College of Interdisciplinary Arts and Sciences, enables students to look at the experiences of North Americans and their environment from a variety of historical and contemporary perspectives. Courses are grouped into four emphases:

- American cultures: concentrating on systems of belief and their symbolic expression in literature, art, philosophy, and regional and popular cultures.
- American lives: exploring the ways in which categories of race, ethnicity, class and gender intersect with individual and community experience.
- American systems: dealing with political, economic, religious and legal institutions.
- Writing: stressing critical writing skills and training students to pursue careers in which writing is a major activity.

Students learn to think and write critically, to conduct research and to appreciate the changing and diverse nature of American life. Students determine appropriate programs of study in consultation with department academic advisors.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Graduates are well equipped to embark on a wide variety of careers in government, education, business, museum and

foundation work; journalism and other forms of professional writing; and in other areas where these capabilities are highly valued and sought. The program also serves as excellent preparation for law school and for graduate programs in fields such as:

- American studies.
- Art history.
- English.
- History.
- Journalism.

Ideally suited to careers in which research, analysis and planning play a central role.

Applied Computing, BS (ASACOBS)

Campus: WEST

Program Description: The B.S. in applied computing, within the New College of Interdisciplinary Arts and Sciences, prepares students to:

- Allow for efficient, effective and ethical user interaction with computer systems.
- Apply skills to lead the development of technology systems.
- Collect and analyze data.
- Develop and assure quality and value of information.
- Engage in creative efforts.

The program has a technical component, concerned with the design and use of appropriate systems and technologies, and a social sciences component, concerned with understanding how people seek, obtain, evaluate, use and categorize information. Students receive a solid foundation in mathematics, technology and social sciences. Students can also choose one of three concentrations within the major:

- Database systems.
- Digital media and graphic design.
- Networking and distributed processing.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Students are prepared to integrate technology with human activities, respond to global changes, solve problems and create and manage the technological production of information and creative products. Core information technology industries are among the fastest growing sectors in the U.S. economy. Graduates will find employment opportunities with corporations and businesses, nonprofit and government agencies, digital arts media industries and in the academic world.

Applied Mathematics, BS (ASMATBS)

Campus: WEST

Program Description: The B.S. in applied mathematics is an interdisciplinary program that provides students with a broad and rigorous foundation in applied mathematics. The program emphasizes an education in quantitative problem-solving and critical thinking, through a survey of courses exposing students to a wide variety of mathematical theories, techniques and applications currently used by analysts and researchers in government, industry and nonprofit organizations. Students will complete a capstone project involving real-world problems, under the supervision of an advisor and in close consultation with an external project sponsor.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Graduates have a wide range of career options in industry, finance, government, nonprofit organizations and education. They also may pursue advanced degrees in the mathematical sciences (e.g., mathematics, statistics, and computer science), and their career interests would suggest the appropriate degree tracks and choice of courses, such as:

- Applied mathematical networks.
- Financial mathematics.
- General applied mathematics.
- Mathematical biology.
- Operations research.

Applied Science, BAS (ASBASBAS)

Campus: WEST

Program Description: The B.A.S. program, within the New College of Interdisciplinary Arts and Sciences, combines the technical concentration knowledge earned in the student's Associate of Applied Science with a broader education gained at the bachelor's level of education. Included in the program of study is an area of concentration (using an approved ASU minor or creating a concentration that is completely individualized) unique to the student's own interests and career pursuits. For example, the area of concentration can include, but is not limited to:

- Business.
- Communication.
- Criminal justice and pre-professional studies.
- Education and teaching.
- Environmental issues and physical sciences.
- Languages and cultures.
- Social sciences and policy issues.

The program is capped with an internship experience.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements: Students applying to this program must have completed an Associate of Applied Science (A.A.S.) degree. Not available for freshmen.

Career Opportunities: Emphasizing professional study combined with a specific area of concentration (e.g., business, communication studies, English, gerontology, history, psychology or pre-professional studies), students tailor their programs to meet individualized career goals. The capstone internship program prepares students to make the transition smoothly to post-baccalaureate employment in business, cultural, educational, community and human service settings, as well as to graduate school. Students planning graduate or professional degrees in law, business, social sciences, helping professions or in traditional disciplines benefit from the flexibility of this program for a broad range of future academic and career pursuits.

Communication, BA (ASCOMMBA)

Campus: CALHC, WEST

Program Description: Communication is an extensive field involving the exploration of messages and their various meanings. Such exploration occurs in countless ways, including the study of messages between:

- Employees in organizations.
- Individuals in relationships.
- Media and their respective audiences.
- Members of different cultures.
- Social institutions and their constituents.

The B.A. prepares students to work in communications-intensive careers, such as:

- Corporate communications.
- Crisis management.
- Customer relations.
- Health communications.
- Human resources management.
- Media relations.
- New media.
- Public relations.
- Training.

It readies graduates to perform various forms of data analysis, communication assessment and technical reporting. It also prepares students for graduate study in the social sciences, law, humanities and management.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Career Opportunities: Communication is a broadly based discipline that trains individuals to speak and write competently; manage relationships well; effectively problem-solve; and understand the role and function of communication in public forums, organizational settings, relational exchanges and intercultural situations. Because these skills are crucial to many professions, communication graduates work in a variety of fields, including:

- Advertising.
- Customer service and customer relations.
- Education.
- Fundraising.
- Health and human services.
- Human resources.
- International service.
- Legal professions.
- Lobbying.
- Management.
- Media and public relations.
- Mediation.

English, BA (ASENGBA)

Campus: WEST

Program Description: The primary mission of the English program is undergraduate education. Graduates should be able to write clearly and effectively, to think critically and to construct well-supported rational arguments. They should gain an awareness of genre, should be able to take a critical approach to texts and should learn to shape their discourse to suit their intended audience.

The program, in its thematic cluster design, provides students with a balanced overview of major literature in the English language - major authors, regional and ethnic literatures and writing by women - and an awareness of the role of literary discourse in broader social and historical contexts. The program stresses the formal aesthetic qualities of texts and the issues of class, gender, race and ethnicity relating to literary representation. It provides students a familiarity with standard literary critical terminology and an awareness of a variety of theoretical approaches to literary study. It relates works of literature to historical events, cultural patterns, philosophical and theological concepts, and technological innovations.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program

Ethnicity, Race, and First Nations Studies, BA (ASETHBA)

Campus: WEST

Program Description: Ethnicity, Race, and First Nations Studies is the first such B.A. program in Arizona. It provides an integrated, comparative and comprehensive approach to the study of diversity among ethnic and racial groups and First Nations. A highlight of the program is the internship, which fosters direct links between the university and community-based settings. Both theoretical and applied perspectives are embedded in a curriculum addressing how ethnicity, race and First Nations shape identities, literacies, public policies and communities in local and transnational U.S. contexts. Students identify a career area enabling them to integrate their knowledge with specific course work tied to their career and advanced educational goals.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Career Opportunities: Rapid socioeconomic change, changing demographics, increased global competition and rapid cultural diversification have created an increasing need for workers and citizens knowledgeable about diverse ethnic and racial groups. Graduates of the undergraduate Ethnicity, Race and First Nations Studies program will be positioned to enter the workforce and function effectively and critically as informed citizens in a diverse and complex society.

History, BA (ASHISBA)

Campus: WEST

Program Description: The B.A. in history, within the New College of Interdisciplinary Arts and Sciences, trains students in the use of basic tools and methods of the historical discipline. Students are exposed to a broad span of modern history, a wide range of historiographical perspectives and approaches and such fundamental categories of historical analysis as race, class, gender and ethnicity. Students develop habits of mind associated with history as a discipline. The program consists of several specific core courses and a range of electives and distributional

requirements, providing students with a solid foundation in historical methods.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Integrative Studies, BA (ASIASBA)

Campus: WEST

Program Description: The B.A. in integrative studies, within the New College of Interdisciplinary Arts and Sciences, prepares students for broad employment alternatives or to pursue graduate studies. As a variation of the classic liberal arts degree, students combine a solid foundation of lower-division courses, followed by upper-division liberal arts courses in which students design an area of concentration (using an approved ASU minor or creating a concentration that is completely individualized) unique to their own interests and career pursuits. For example, the concentration can include, but is not limited to:

- Business.
- Communication.
- Criminal justice and pre-professional studies.
- Education and teaching.
- Environmental issues and physical sciences.
- Languages and cultures.
- Social sciences and policy issues.

Flexible and diverse, the program is capped with an internship experience.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Career Opportunities: Emphasizing interdisciplinary study combined with a specific area of concentration (e.g., business, communication studies, English, gerontology, history, psychology or pre-professional studies), students tailor their programs to meet individualized career goals. The capstone internship program prepares students to make the transition smoothly to post-baccalaureate employment in business, cultural, educational, community, social sciences and human service settings, as well as to graduate school. Students planning graduate or professional degrees in law, business, helping professions or in traditional disciplines benefit from the flexibility of this program for a broad range of future academic and career pursuits.

Interdisciplinary Arts & Performance, BA (ASIAPBA)

Campus: WEST

Program Description: The Interdisciplinary Arts and Performance program (IAP), the only one of its kind in the Southwest, offers a B.A. for students focused on an interdisciplinary and collaborative approach to the arts, technology and performance. Core and elective courses are offered in digital media arts, sound and recording arts, theatre and performance practice, visual art and more.

The IAP program includes courses on the traditions of 20th- and 21st-century interdisciplinary, avant gard and experimental arts, and aims to provide students with an understanding of the genres and directions in contemporary art-making and performance. Teaching and course work in IAP encourages students to develop creatively and work collaboratively. A senior project allows students to finalize the degree with a substantial artistic venture or to engage in a practical arts-based internship. Graduates enter the art-making world or work in the areas of media, film and education.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements:

Career Opportunities: This interdisciplinary arts training can be the basis for a variety of personal and professional pursuits. Students who major in the program receive practical, professional training and solid academic skills. They gain extensive preparation for careers as artists, performers and creative professionals. They also develop critical backgrounds useful for becoming future teachers and scholars. Graduates of the program are prepared for advanced study in the performing arts or arts-related professions in:

- Art and cultural journalism.
- Education.
- Government and community arts administration.
- Media services and production.

Life Sciences, BA (ASLSCBA)

Campus: WEST

Program Description: The intricate connections among biology, chemistry and physics form the basis of the life sciences curriculum. The B.A. program emphasizes interdisciplinary learning of the life and physical sciences, particularly the connectedness among disciplines. The organization and flexibility of the program encourages students to deeply study another subject outside their major, even encouraging students to double-major or minor in another subject area.

Additional Program Fee: N

Second Language Requirement: N

Career Opportunities: Students have a wide variety of options, including pursuing graduate studies or seeking careers that include:

- Environmental management and conservation.
- Health professional programs.

- Laboratory research.
- Primary and secondary school teaching.
- Science advisors to businesses and government.
- Science writing.

Life Sciences, BS (ASLSCBS)

Campus: CALHC, WEST

Program Description: The intricate connections among biology, chemistry and physics form the basis of the life sciences curriculum. The B.S. program emphasizes experiential learning, and all required core courses have laboratories. By learning in an integrative environment that emphasizes the connectedness of disciplines, students gain a better understanding of larger scientific concepts and can view these concepts from multiple perspectives. Undergraduates have the opportunity to conduct independent research under the mentorship of faculty members or in internships outside of the department.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)
 Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)
 Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities: The B.S. in life sciences prepares students for a wide range of careers by offering course and laboratory work and quantitative research opportunities that develop fundamental problem-solving, critical thinking, writing and communication skills. Graduates may enter careers in:

- Laboratory or field research.
- Business.
- Scientific journalism.
- Publishing.
- Teaching.
- Medicine.

Undergraduate laboratory experience, both on- and off-campus, enhances employability 1) as a laboratory technician or research associate in university and government research laboratories and hospital and diagnostic laboratories, and 2) in pharmaceutical, biotechnology, agricultural and food processing companies.

Students engaged in field studies are prepared for entry-level positions in 1) private companies, and 2) state and federal agencies (e.g., wildlife biologist, environmental consultant or conservation officer).

Life Sciences (Environmental Science), BS (ASLSCEBS)

Campus: CALHC, WEST

Program Description: The intricate connections among biology, chemistry and physics form the basis of the life sciences curriculum. The B.S. program emphasizes experiential learning, and all required core courses have laboratories. By learning in an integrative environment that emphasizes the connectedness of disciplines, students gain a better understanding of larger scientific concepts and can view these concepts from multiple perspectives. Undergraduates have the opportunity to conduct independent research under the mentorship of faculty members or in internships outside the department.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities: According to the 2010-2011 Occupational Outlook Handbook (US Bureau of Labor Statistics, 2010), employment of environmental scientists is expected to grow by 28 percent between 2008 and 2018. This is far more rapid growth than average rate of growth for all occupations. The handbook indicates most rapid growth will occur in the private sector (primarily, in private environmental consulting firms). This concentration will allow students to tailor their courses of study to interests they possess in the science of the environment, to help prepare them for careers in the public and private sectors (e.g., in environmental consulting, environmental remediation, natural resource management, etc.) as well as entry into graduate programs in environmental science and related disciplines.

<http://newcollege.asu.edu/mns/>

CLCC 217

mns@asu.edu

602-543-6050

Life Sciences (Forensics), BS (ASLSCFBS)

Campus: WEST

Program Description: This concentration allows students interested in the life sciences to focus their courses of study on the field of forensics. Students pursuing this concentration will take a different, more forensics-relevant set of distribution courses than those students pursuing the current B.S. in life sciences. The concentration will prepare students interested in criminal forensics for 1) careers in forensic science, and 2) success in graduate and professional degree programs. Much of the required course work will be completed in chemistry or biology lab science course, to ensure that graduates of the program are competitive as they enter the workforce, pursue relevant careers (e.g., those in crime labs), and apply to graduate and professional degree programs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Career Opportunities: Graduates of this program will be able to pursue careers in forensics laboratories and in the research and development of new technologies in forensics. Graduates will be particularly competitive for positions in forensics laboratories because the concentration focuses heavily on chemistry and biology laboratory course work (areas that administrators and current employees in crime labs have reported are critically important). For example, as reliance upon DNA fingerprinting technologies increases, demand for forensic scientists trained in the requisite amounts of molecular biology will increase. The concentration also places focus on oral communication skills (e.g., through course work in argumentation, COM 222 or 422), which will prepare graduates for the multifaceted aspects of their careers in forensics (e.g., providing articulate and compelling expert testimony in criminal trials). Graduates of this program will also be well-positioned to enter graduate programs in forensics.

Political Science, BA (ASPOLBA)

Campus: WEST

Program Description: Students gain understanding of theory, practice and policy underlying political processes, locally, nationally and internationally, in the B.A. in political science program. The degree trains students in research skills necessary for analysis of complex sociopolitical issues locally and globally. Course work is learner-centered in political theory, American political institutions, international relations and world affairs. This is a flexible program focusing on international, urban, and race/ethnic sociopolitical areas, internships, and service-learning/action research opportunities, with emphasis on intellectual and concrete policy issues in the greater Phoenix metropolitan area, Arizona, the Arizona-Mexico borderlands, the Americas and the world.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: The political science curriculum provides a solid background for employment in a relevant profession and prepares students for graduate work in political science, social science disciplines, urban planning or in professional schools. The program serves as a good precursor to staff, manager or policy analyst positions in local, state and federal government. This degree is recognized as qualification for many careers in business (for-profit and nonprofit) and industry. Work may include binational, cross-border positions linking U.S. and Mexican businesses, Arizona-Sonora local government or local community groups on both sides of the border. Many students use the degree as a gateway to law school or basis for further study in such applied fields as:

- Community development.
- Public administration.
- Public policy.

- Urban affairs/urban and regional planning.

Psychology, BA (ASPGSBA)

Campus: CALHC, ONLINE, WEST

Program Description: Psychology is the scientific study of the behavior and mental processes of individuals and groups. The diverse B.A. curriculum in psychology, within the New College of Interdisciplinary Arts and Sciences, consists of basic and applied courses covering multiple perspectives within the field, including clinical, cognitive systems/behavioral neuroscience, cross-cultural, developmental, organizational and social psychology. Courses are presented in the context of cultural, socio-historical and transnational issues, enabling the student to understand the relationship between psychology and other social and behavioral sciences. This program adds practical experiences to enrich study through service learning, internships and research with faculty members. Strong emphasis is placed on developing skills in critical thinking and reasoning, quantitative and qualitative research methods, and writing to round out preparation for a career or for graduate studies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. (<http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-arts-psychology>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)
Central Arizona College (<http://transfer.asu.edu/central-az>)
Coconino Community College (<http://transfer.asu.edu/coconino>)
Cochise College (<http://transfer.asu.edu/cochise>)
Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)
Mohave Community College (<http://transfer.asu.edu/mohave>)
Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)
Pima Community College (<http://transfer.asu.edu/pima>)
Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities: A degree in psychology will prepare students for a career in:

- Government (e.g., sales and marketing, human resources management).
- Mental health professions (e.g., youth counselor, substance abuse counselor).
- Social services (e.g., high school psychology teacher, occupational analyst).

The degree also provides an excellent foundation for graduate study in fields such as public administration, law, family studies, communication and the various graduate programs in psychology:

- Clinical and counseling.
- Cognitive neuroscience.
- Developmental.
- Environmental.
- Experimental.
- Physiological.
- Social.

Religion & Applied Ethics Studies, BA (ASRELBA)

Campus: WEST

Program Description: Many people make ethical decisions in the context of their religious beliefs or worldviews. By combining the disciplines of religion and applied ethics studies, students are able to analyze problems more realistically. Students in the B.A. in religion and applied ethics studies program, within the New College of Interdisciplinary Arts and Sciences, learn the applicable religious contexts for understanding why people choose to live or respond to ethical issues as they do. They learn to identify moral problems developing in society, to develop the tools needed to formulate and critically evaluate various responses and to make careful and informed decisions about ethical matters in contemporary life. The program is capped with a thesis and internship experience.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western

states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Graduates can anticipate opportunities in the following fields, explored through required internships:

- Business.
- Criminal justice.
- Education.
- Government.
- Human resources.
- Law.
- Law enforcement.
- Media.
- Medicine.
- Religious organizations.
- Social services.

Social and Behavioral Sciences, BA (ASSBSBA)

Campus: WEST

Program Description: The social and behavioral sciences curriculum provides an understanding of assumptions underlying the social and behavioral sciences, develops research skills necessary for analysis of complex social issues, offers a flexible program tailored to the career goals of the individual student, and offers individual and group experiences in working with faculty on concrete intellectual and policy issues. The core courses provide students a background suitable to helping them better understand psychological and social principles related to the behavior of individuals across multiple social contexts and institutions (e.g., family, community, society and culture).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra/142

Career Opportunities: The interdisciplinary degree is an excellent means toward creating a degree program that matches the individual's interests and fulfills many employers' expectations of a baccalaureate degree, namely that it should expose the student to a variety of outlooks and challenges. Such a degree will be competitive in most situations where the disciplinary social and behavioral degrees are accepted and is advantageous when seeking entry to broad professional programs such as regional planning or urban studies.

Sociology, BA (ASSOCBA)

Campus: WEST

Program Description: The B.A. in sociology, within the New College of Interdisciplinary Arts and Sciences, provides an understanding of theory, practice and policy underlying the issues of social change, inequality and diversity, studying these from multiple perspectives, including race/ethnicity, gender, economic position, age, geographic location and position in the global political economy.

The program enhances students' understanding of 1) social realities and institutions at local, national and international levels, and 2) how sociology contributes to the other social sciences and to the humanities. Students gain a basic understanding of assumptions underlying the discipline of sociology and develop the research skills necessary for analysis of complex social issues. This is a flexible program, with opportunities to work collaboratively with faculty on concrete intellectual and policy issues.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Statistics, BS (ASSTABS)

Campus: WEST

Program Description: The B.S. in statistics prepares students for entry level positions as statisticians and for graduate training in statistics and related fields. Statistics is the science of collection, description, analysis and interpretation of data from experiments or surveys. Statisticians help to make decisions and solve problems in the face of uncertainty, using the limited data available from an experiment or survey. Because the use of statistical methods is common in all areas of business, government, natural and social sciences, the demand for individuals with all levels of statistical training is great.

The program encompasses theoretical and applied statistics, as well as the requisite foundations in mathematics and computing. The emphasis is on the more practical and applied aspects of statistics. Graduates of this program are equipped to utilize statistical techniques to explore interdisciplinary topics that span disciplines. These unique features emphasize the interdisciplinary nature of statistics and prepare graduates for employment as entry-level statisticians or for graduate school.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Career Opportunities: Statisticians are in high demand in many areas of industry, government and academia. Some areas with particularly high demand include pharmaceutical, medical, manufacturing and financial jobs.

Journalism & Mass Communication, Walter Cronkite School of

Journalism & Mass Communication, BA (CSJMCBA)

Campus: DTPHX

Program Description: The Walter Cronkite School of Journalism and Mass Communication, named in honor of legendary CBS news anchor Walter Cronkite, is one of the largest and most successful professional journalism schools in the country. Students study print and online journalism, broadcast journalism, or strategic media/public relations, leading to a B.A. in journalism and mass communication. The Cronkite school is located at the ASU at the Downtown Phoenix campus, in the heart of the 13th largest media market in the U.S. The school features state-of-the-art computer labs, editing suites, production studios and classrooms dedicated to journalism education.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements: The Bachelor of Arts in journalism and mass communication degree program has higher admission requirements and an application deadline of Feb. 1 for fall. Students should select a second choice major on the application. All applicants will be reviewed by the school. Those who are not admitted to the Cronkite School will, if eligible, be admitted to their second choice major. Freshman applicants must meet all of the following standards:

- Have a 3.00 (4.00 = A) ABOR GPA.
- Have no English competency deficiencies.
- 1040 SAT Reasoning or 22 ACT score.
- TOEFL score of 600 (paper-based) or 100 (internet-based).
- IELTS score of 7.0.
- PTE score of 73.

Transfer students (with 12 or more transfer hours after high school graduation) are required to have a cumulative transfer GPA of 3.00 or higher and no English competency deficiencies. Transfer students should contact the school for additional steps after admission to ASU. For more information regarding transfer admission see http://cronkite.asu.edu/undergrad/xfer_major_change.php (http://cronkite.asu.edu/undergrad/xfer_major_change.php).

Career Opportunities: Walter Cronkite School of Journalism and Mass Communication graduates work for:

- Corporate communication divisions.
- Magazines.
- Newspapers, radio and television stations.
- Online services.

- Public relations firms.

Positions include reporters, editors, photojournalists, writers and media managers.

Letters & Sciences, School of

Applied Science (Technical Communication), BAS (LSTECBAS)

Campus: POLY

Program Description: The B.A.S. is a flexible degree plan designed specifically for students who have earned an A.A.S. from a regionally accredited institution. This major combines the technical experience gained in the student's associate degree program with a broader education of management, leadership, critical thinking and communication skills.

Technical communication is applied workplace communication that makes technical information understandable and available to many audiences. In the technical communication concentration, students learn how to produce, design and manage information using both traditional and developing technologies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements: Students applying to this program must have completed an Associate of Applied Science (A.A.S.) degree from a regionally accredited institution. Not available for freshmen.

Career Opportunities: The Bureau of Labor Statistics estimates the need for writers and editors will increase by 25 percent during the next five years. Software and electronics companies, media corporations, financial institutions, government agencies, nonprofits and other areas will see an increased demand for writers. Students in the program will prepare for careers as:

- Desktop publishers.
- Information designers.
- Multimedia designers.
- Publications managers.
- Technical editors.
- Technical writers.

English, BA (LSENGBA)

Campus: POLY

Program Description: The B.A. in English focuses on effective writing, critical thinking and sophisticated reading of literary and non-literary texts. Our faculty teach courses in English, American and world literature, from the Classical period to the present; creative and academic writing; and American and international film. We also offer internships in online publishing through our acclaimed online literary journal Superstition Review.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements:

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: The B.A. in English prepares scholars and teachers for graduate or professional study and for careers in education, writing and other related fields. Career prospects for secondary language arts teachers in Arizona are particularly strong. More importantly, students in the program will develop skills that employers value, such as analyzing ideas and problems, finding and evaluating information, communicating effectively, and presenting clear and logical arguments. With these skills, graduates of the program can find jobs in:

- Creative and technical writing.
- Editing.
- Financial services.
- Government.
- Health care.
- Lobbying.
- Marketing.
- Nonprofit organizations.
- Program management.
- Public relations.
- Reporting.

General Studies, BGS (LSGNSBGS)

Campus: CALHC, DTPHX

Program Description: The Bachelor of General Studies offers students a flexible, innovative path to degree completion. Graduates of the program will be informed and effective members of society, who are well-prepared for a changing global marketplace with its diverse cultures. The theme of this degree, offered by the School of Letters and Sciences on the Downtown Phoenix campus, is "Society and the Individual." Students will explore the tensions between individualism and collectivism, the public and private self, and the interplay of culture and identity.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities: General studies majors have the option of working in almost any field that requires effective interaction with others, from sales to social services, organizational management to government administration. Graduates will be equipped with transferable skills highly desired by many employers; therefore, a wide array of job choices is available. The B.G.S. creates great flexibility in career choice because of the versatility within the program.

Graduates may choose to enter one of the areas for which their cluster prepares them, including but not limited to:

- Advertising.
- Corporate communications.
- Government sectors.
- The helping professions.
- Higher education.
- Hospitality.
- Marketing.
- Media.
- Nonprofit administration.
- Sales.

Interdisciplinary Studies, BIS (LSBISBIS)

Campus: DTPHX, ONLNE, POLY, TEMPE, WEST

Program Description: The Bachelor of Interdisciplinary Studies degree is one of the highest quality and best recognized interdisciplinary studies degree programs in the nation, ranking in the top five programs. It offers students the freedom to select two concentration areas from a rich menu of more than 140 possibilities (see concentration checksheets (<https://sls.asu.edu/node/299>)), and it enables students to integrate those areas into a degree with interdisciplinary breadth, intellectual cohesion and practical value. The core curriculum provides students the intellectual tools needed to integrate their concentration areas, engage in interdisciplinary problem solving and prepare for careers and graduate programs that increasingly cross disciplinary boundaries.

Selecting from among the 140 academic areas, an interdisciplinary studies student could choose to integrate entertainment technology and

business, applied psychology and social welfare, communication and justice studies, public administration and ethics, kinesiology and computer gaming or countless other unique combinations.

Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary studies students develop the intellectual tools needed to build bridges between academic disciplines and to apply their skills, innovations and knowledge in various academic and practical settings. Interdisciplinary studies students take an active role in designing their educational plans and defining their career goals. The degree emphasizes written communication, versatility, self-assessment and critical thinking-essential skills for navigating today's dynamic world.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements: The B.I.S. program is available to all students in good academic standing who have achieved sophomore, junior or senior standing. Students must complete the online B.I.S. cyber workshop (found in student resources at <http://sls.asu.edu/ils/> (<http://sls.asu.edu/ils/>)) prior to meeting with an advisor to declare their major as interdisciplinary studies.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. (<http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-interdisciplinary-studies>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Coconino Community College (<http://transfer.asu.edu/coconino>)
Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities: Because of the flexibility of the Interdisciplinary Studies degree, graduates take many different career paths after leaving ASU. One graduate combined business and communication and now owns a small business; another integrated sociology and family studies to further a career in law enforcement; another studied philosophy and economics to prepare for law school; another combined biology and chemistry in preparation to pursue a master of pharmacy degree; yet another studied Spanish and religious studies and now works as an employee trainer for a major company.

Interdisciplinary Studies (Organizational Studies), BIS (LSORGBIS)

Campus: EAC, ONLNE

Program Description: Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary students develop the intellectual tools needed to build bridges between academic disciplines and apply their skills, innovations and knowledge in various academic and practical settings. The B.I.S. in Organizational Studies is intended for students seeking an interdisciplinary degree and possessing a desire to learn about the dynamics of contemporary organizations. Via the organizational studies curriculum, students gain valuable knowledge of management styles, communication strategies, technologies, diversity, ethics and politics. All course work for organizational studies is offered online, giving students freedom and flexibility in completing their requirements. By engaging in a breadth of knowledge and experience, and by acquiring the skills to integrate various domains of knowledge, students prepare themselves for careers in:

- Business.
- Government.
- Health care administration.
- Nonprofit agencies.
- Service industry.

Many organizational studies students already have a chosen career field, yet desire a degree that is versatile, flexible, meaningful and that affords the opportunity for continued career development and advancement.

Liberal Studies, BLS (LABLSBLS)

Campus: ONLNE

Program Description: The Bachelor of Liberal Studies program helps to address student interests in a broad array of disciplines and subject matter. The program aims to provide students with the grounding to use knowledge in a manner that will help them to become more successful thinkers, decision makers and leaders. The liberal studies core classes are designed to promote both critical and creative thinking as students learn how to draw upon diverse disciplinary perspectives and modes of inquiry, help in the development of communication skills and support efforts toward professional career development.

Students majoring in liberal studies have become part of an international movement in higher education. This movement has proven empowering to people who are given the flexibility to explore multiple interests or approach a particular interest from various perspectives. Students are not alone in their chosen path. In fact, our Bachelor of Liberal Studies program is just one of hundreds of similar programs offered in colleges and universities across the nation. Liberal studies courses emphasize:

- Critical analysis.
- Flexibility and creativity.
- Group collaboration.
- Information literacy.
- Integrative thinking.
- Written communication.

For more information on eligibility requirements, visit the school website.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements:

Science, Technology and Society, BS (ECSTSBS)

Campus: POLY

Program Description: Questions surrounding the interaction of science, technology and human systems are highly interdisciplinary and cultural, requiring analytical techniques that transcend space and time. Thus, the science, technology and society program stresses the need to step outside both disciplinary and cultural boxes in pursuit of knowledge. Accordingly, the program is heavy on cultural and information literacy and critical thinking. The primary goal is to produce generalists who understand the intricate interrelationship of science, technology and society and are armed with the technical skills to change their environment. The following three tracks are available:

- General science, technology and society.
- Global technology and development.
- Science, technology and governance.

Students can use the general STS track to design targeted programs of their choosing, including pre-med and pre-law.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Career Opportunities: The bachelor's degree in science, technology and society prepares professionals and scholars for careers in the 21st-century world focusing primarily, but not exclusively, on the interaction of science and technology with human systems. The focus of the program is on developing the technical skills required to audit the social, political and policy impact of technological advancement, and the competence required to navigate questions surrounding the future trajectory of science and technology. Graduates are prepared for graduate or professional study, or professional careers in:

- Business.
- Education.
- Government.
- Law.
- Nonprofit organizations.

Liberal Arts & Sciences, College of

African & African American Studies, BA (LAAFRBA)

Campus: TEMPE

Program Description: African and African American studies (AAAS) is an interdisciplinary B.A. program that focuses on people of African descent throughout the world and the diversity of past and present experiences of those who live in:

- Africa.
- Central America.
- South America.
- The Caribbean.
- The United States.

As an institutional program, AAAS is structured to:

- Combine knowledge of the African diaspora with intellectual and practical training in specific areas to create more effective communities and global partnerships.
- Prepare students of all ethnicities to better understand, value and more effectively participate in our increasingly diverse society.
- Provide students with a foundation for advanced studies in such fields/professions as history, English, sociology, political science, communications, arts, public administration, law, psychology, social work, education and business.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Because of its emphasis on various social aspects and groups, AAAS provides students with practical applications useful for various workplaces. The minor requirement of AAAS helps students develop cultural sensitivity and prepares them for careers in:

- Administration.
- Advertising.
- Business.
- Counseling.
- Education.
- Human resources.
- International relations.
- Journalism.
- Justice.
- Management.
- Travel.

Our program prepares students for work in:

- Civil rights organizations.
- Colleges and universities.
- Corporations.
- Government agencies.
- Hotel chains.
- The insurance industry.
- Law firms.
- Libraries.
- Museums.
- Nonprofit organizations.
- Political action groups.
- Public relation firms.
- Research organizations.
- Sales departments.
- Social service agencies.
- The Peace Corps.
- Travel agencies.

American Indian Studies, BS (LAAISBS)

Campus: TEMPE

Program Description: The B.S. in American Indian studies provides students with unique opportunities to evaluate issues of American Indian nations within a domestic and international context. The B.S. in American Indian studies encompasses two areas of emphasis, 1) legal, policy and community and economic development, and 2) arts, languages and culture. The American Indian Studies Program is committed to broadening the

knowledge of students interested in the histories, languages, cultures, arts and contemporary situations of American Indian nations and people. The program is designed to protect the integrity and identity of the indigenous populations of North America and to create a learning environment conducive to critical and creative thought.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: American Indian Studies graduates will be qualified to fill positions at the tribal government, state, federal and private levels. Graduates can advance to graduate school or can pursue professional careers in such fields as government service or public service. For example, federal and tribally operated schools located in remote areas within Indian Country have high turnover rates for both teachers and staff. American Indian Studies graduates should be available to help fill these positions. Furthermore, the federal government, a major employer on many reservations across the country, is in need of qualified people who are knowledgeable of Indian cultures, laws and policies. Additionally, many American Indian nations' economies and infrastructures are developing at a rapid pace, and they are in continuous need to fill mid-management and management-level positions.

Anthropology, BA (LAASBBA)

Campus: TEMPE

Program Description: The B.A. program in anthropology gives students an opportunity to learn how and why humans evolved and how our evolutionary biological, social and cultural trajectories help us understand the meaning of being human in past, present and future environments. Anthropology helps students develop strong critical thinking and oral and written expression skills, important to success in many careers areas. Anthropology majors learn how to use the scientific method to formulate and test hypotheses and gather qualitative and quantitative data through participant observation, interviewing, ethnographic study, careful excavation and measurement. They also learn how to employ statistics to analyze and extract meaning from data.

A special feature of the ASU anthropology program is its relevance to other disciplines and many exciting hands-on learning opportunities through laboratories, study abroad and field-based courses.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: The demand in the job market for people with an anthropology background is stimulated by a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret the large amounts of data. As the many spheres of human interaction expand globally, people trained in anthropology will increasingly be sought for their broad, holistic knowledge and perspective of understanding, which are the hallmarks of anthropology. Some career opportunities include:

- Acting as legal advocates in international cases.
- Analyzing and proposing policies.
- Consulting for private and public organizations.
- Curating cultural resources.
- Directing programs in the private or public sector.
- Directing nonprofit organizations.
- Modeling infectious diseases.
- Planning communities.
- Postgraduate academic research and teaching.
- Professional employment in heritage (cultural resource) management in private or public sectors.
- Providing health care as nurses, doctors or public or global health professionals.

Anthropology, BS (LAASBBS)

Campus: TEMPE

Program Description: The B.S. program in anthropology gives students an opportunity to master anthropological or anthropologically-relevant knowledge and skills through applications of the scientific method and quantitative methodologies. Anthropology is the study of how and why humans evolved and how our evolutionary biological, social and cultural trajectories help us understand the meaning of being human in past, present and future environments. Through core and elective courses, the B.S. in anthropology program allows students to explore problems that may require the use of theories and methods from diverse disciplines, including biology, global health, applied mathematics, psychology, economics, sociology, medicine, law and engineering. Anthropology provides many exciting, hands-on learning opportunities through laboratories, study abroad, and field-based courses.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Career Opportunities: The demand in the job market for people with an anthropology background is stimulated by a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret the large amounts of data. As the many spheres of human interaction expand globally, people trained in anthropology will increasingly be sought for their broad, holistic knowledge and perspective of understanding, which are the hallmarks of anthropology. Some career opportunities include:

- Acting as legal advocates in international cases.
- Analyzing and proposing policies.
- Consulting for large and small private and public organizations.
- Curating cultural resources.
- Directing programs in the private or public sector.
- Directing nonprofit organizations.
- Modeling infectious diseases.
- Planning communities.
- Postgraduate academic research and teaching.
- Professional employment in heritage (cultural resource) management in private or public sectors.
- Providing health care as nurses, doctors or public or global health professionals.

Applied Mathematics for Life and Social Sciences, BS (LAAMLBS)

Campus: TEMPE

Program Description: The B.S. in applied mathematics for the life and social sciences is a challenging and exciting curriculum that investigates and integrates complex areas of the physical, life and social sciences while preparing a new generation of students in mathematics. A primary objective of this program is for students to develop critical thinking skills and purposeful competencies in mathematics, as well as an appreciation for the contributions of mathematics to the fields of sciences, engineering, business, government and economics. Students learn how to use theories and techniques such as mathematical modeling and computational methods to resolve practical real-world problems. The course work is directed toward an understanding of mathematical theory and its relation to other fields of studies. Emphasis is placed on precision of definition, reasoning to accurate conclusions, and analyzing and developing solutions to problems using mathematical principles.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: The B.S. in applied mathematics for the life and social sciences provides students entering the environmental, life, health, mathematical and social science fields the quantitative, scientific and analytical skills that are critical, but still lacking for professionals working in these areas.

The need for quantitatively trained scientists and professionals in the life and social sciences is strong in Arizona and the nation. This degree's applied use of mathematics, modeling, statistics and simulation methodologies are in high demand and provide excellent training for future academics and professionals in industries including:

- Astrophysics.
- Biostatistics.
- Chemical engineering.
- Communications.
- Computational biology.
- Computer animation.
- Data mining.
- Demography.
- Digital and medical imaging.
- E-commerce.
- Education.
- Forensics.
- Genomics.
- Informatics and complex systems research.
- Materials science.
- Neuroscience.
- Pharmaceutical engineering.
- Political science.
- Public health.
- Risk management.
- Security and military.
- Social network analysis.

Asia Studies (East Asia), BA (LAHSTEABA)

Campus: TEMPE

Program Description: The B.A. in Asia studies offers students the opportunity to study East Asia, South Asia or Southeast Asia in depth through a coherent concentration of academic study across a number of disciplines. The interdisciplinary approach will prepare students to deploy a variety of intellectual tools to address contemporary political, social and cultural issues in Asia and to apply their knowledge in various academic and practical settings. Students will identify which concentration (East, South or Southeast Asia) they will pursue.

The concentration in East Asia focuses on:

- China.
- Japan.
- Korea.
- Taiwan.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: People knowledgeable about Asia will be required in virtually every arena in which America interacts with the rest of the world, including:

- Communication.
- Diplomacy.
- Food security.
- Higher education.
- Humanitarian service.
- Intelligence.
- International organizations.
- Journalism.
- Law.
- Law enforcement.
- Military Studies.
- Philanthropy.
- Technology transfer.
- Tourism.
- Trade.
- Transportation.

Asian Languages - Chinese, BA (LACHIBA)

Campus: TEMPE

Program Description: The B.A. in Asian languages with a concentration in Chinese strives to instill proficiency in reading, writing, and speaking Mandarin and in reading classical Chinese. It provides an in-depth understanding of the fundamentals of the rich Chinese cultural tradition, centered on primary Chinese texts (in Chinese and in English translation) from the literary, intellectual and religious cultures of Chinese-speaking societies. These texts include visual and written materials on, among other things:

- Linguistics.
- Literary theory and history.
- Media.
- Religions.
- Urban culture.

Students in the program have a number of options available for studying abroad, and for students with higher levels of linguistic competency there are targeted courses (conducted in Chinese) offered as part of the Chinese Flagship track.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Graduates have a variety of career opportunities. Many work for firms that deal with international trade for U.S. companies that have branches in China or for Chinese companies located either in the U.S. or China. Other graduates work for government agencies or teach (usually English) in China. Yet others pursue graduate work in Chinese studies, eventually teaching the language and culture in universities or colleges. Some find employment as K-12 teachers.

Asian Languages - Japanese, BA (LAJPNBA)

Campus: TEMPE

Program Description: Students in the B.A. in Asian languages with a concentration in Japanese program study the language, literature and culture of Japan. They gain a respectable measure of competence in reading, writing, oral and aural skills in the Japanese language. Students also gain linguistic and cultural competence through the required study of classical Japanese. Throughout the program, students take courses in either Chinese or Korean and related courses in Japanese and East Asian culture on topics such as:

- Art.
- Government.
- Japanese history.
- Linguistics.
- Literary and cultural theory.
- Religion.

In addition, ASU offers summer or yearlong overseas programs to study Japanese.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Graduates have a variety of career opportunities. Many work for firms that deal with international trade for U.S. companies that have branches in Japan or for Japanese companies located in the U.S. or Japan. Other graduates work for government agencies or teach (usually English) in Japan. Some pursue graduate work in Japanese studies, eventually teaching the language and culture in universities or colleges. High school and elementary teaching are also possible with certification.

Asian Pacific American Studies, BA (LAAPABA)

Campus: TEMPE

Program Description: The B.A. in Asian Pacific American studies (APAS) is an interdisciplinary undergraduate degree focused on demographic, cultural, social, economic and policy issues that have shaped and continue to affect Asian American and Pacific Islander communities in Arizona, the Southwestern U.S., nationally and internationally. Students will study both the historical and contemporary experiences of Asian Americans and Pacific Islanders (AAPI), and gain knowledge about AAPI experiences and communities in Arizona, nationally, and within a larger global context. The B.A. in Asian Pacific American studies (APAS) is an interdisciplinary undergraduate degree focused on demographic, cultural, social, economic and policy issues that have shaped and continue to affect Asian American and Pacific Islander communities in Arizona, the Southwestern U.S., nationally and internationally. Students will study the historical and contemporary experiences of Asian Americans and Pacific Islanders (AAPI) and gain knowledge about AAPI experiences and communities in Arizona, nationally and within a larger global context.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Career Opportunities: Students who complete the B.A. in Asian Pacific American studies may pursue a graduate degree in law, humanities or social sciences. Students will also be prepared to work in positions involving:

- Business.
- Community organizations.
- Creative arts.
- Education.
- Health.
- Immigration.
- Journalism.
- Law.

Biochemistry, BA (LABCHBA)

Campus: TEMPE

Program Description: The B.A. in biochemistry provides students with a course of study in the fundamental knowledge of the chemical substances

and vital processes of living organisms. Discoveries of new drugs, the recognition and control of new pathogens, development of new catalysts for energy transformations and the production of new materials, and solutions to problems such as food production and environmental remediation depend upon a thorough grounding in this area of science.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 251 - Calculus for Life Sciences

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: A solid undergraduate education in biochemistry provides the necessary background for career paths in:

- Chemical industries.
- Government.
- Health care.
- Research.
- Teaching and other areas.

Students planning careers in medicine, dentistry, pharmacy or veterinary medicine often study biochemistry with supporting work in biology and chemistry as the route for preprofessional training.

Biological Sciences, BS (LABSCBS)

Campus: TEMPE

Program Description: The life sciences delve into the basic organization and processes of life (microbes, plants and animals) at scales ranging from molecules to ecosystems and in time from picoseconds to millennia. This includes investigations into how hereditary information is transferred and how organisms evolve, the interplay of organisms and their environments, and how these factors interact in health and disease. Students interested in a degree in life sciences can opt for a B.S. in biological sciences or choose one of four concentrations with biological sciences:

- Animal physiology and behavior.
- Biology and society.
- Conservation biology and ecology.
- Genetics, cell and developmental biology.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Cochise College (<http://transfer.asu.edu/cochise>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities: The biological sciences major with no concentration is designed for 1) students who are committed to studying and training in multiple disciplines in biology, and 2) students who want to get more exposure to the life sciences before deciding whether they want to concentrate as an undergraduate. Therefore, students in this major take core courses from several of our concentrations. Students in this major have more flexibility to customize their program of study so they can focus on their own area of interest that may not have a concentration, such as plant biology or genomics.

The biological science major provides an excellent foundation for graduate study as well as preparation for professional schools in medicine, dentistry, pharmacy, and veterinary medicine. Graduates may also enter positions in government, education, industry, and certain technical fields. Students exploring becoming a high school teacher can find more information about the concurrent degree program at: http://catalog.asu.edu/concurrent_dual ("http://catalog.asu.edu/concurrent_dual").

Biological Sciences (Animal Physiology & Behavior), BS (LABSCABS)

Campus: TEMPE

Program Description: Physiology is the study of how organisms regulate the flow of energy and maintain the conditions necessary for health, survival and reproduction. It might seem that physiology and behavior are quite separate fields, but physiology and behavior interact extensively to achieve common goals. In the animal physiology and behavior concentration, you will receive a rigorous and broad education by studying behavior and physiology from the perspectives of molecular and cellular biology, evolution, organ systems (neural, endocrine, cardiovascular, respiratory, immune, etc.), and the environment. Students in this concentration also learn to apply principles from mathematics, chemistry and physics. Discoveries are made at the laboratory bench and/or in the field, and students in this concentration are encouraged to participate in research projects in the labs of our faculty members.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: The broad education and critical thinking skills students receive in this concentration are well suited for a variety of rewarding careers. Our pre-med, pre-vet and pre-dental students get the background and courses needed for professional school application and beyond any of our students go on graduate school for academic, teaching or research careers in areas such as:

- Endocrinology.
- Environmental or behavioral physiology.
- Human physiology.
- Metabolism.
- Neurobiology.
- Social behavior.

With a B.S. in this concentration, there are opportunities for technical positions in hospitals, research institutes, and industry (food, dairy, chemical, pharmaceutical, and biotechnology) as well as government laboratories and agencies. The most important skills you learn in the concentration are critical thinking and problem-solving skills that can be applied to many scientific problems and professions as well as the challenges of daily life.

Biological Sciences (Biology & Society), BS (LABSCSBS)

Campus: TEMPE

Program Description: The biology and society major focuses on training biology students to understand the social context of their science; to ask

how and why a biological problem has been and should be studied; to be able to explore the ways in which policy decisions shape and are shaped by biological research; and to investigate the meaning and significance of the life sciences in understanding our complex world. The biology and society curriculum is highly individualized, including an independent research project. Our program is privileged to be home to world-class researchers and teachers in several different fields, including bioscience ethics, history and philosophy of science, science communication, science education and science policy. What makes us unique is that we are all based in the School of Life Sciences, rather than being scattered in a variety of departments all over campus.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Biology and society students gain the historical, philosophical, political and ethical perspectives needed to explore interactions between the life sciences and related complex human issues. As a result, the program contributes to better-informed and more effective teachers, writers, policymakers, clinicians, and researchers in areas related to biology, medicine, and society.

As a result of the individualized, skill-based curriculum, biology and society majors are eligible for a broad range of career options. Most majors have chosen to pursue professional degrees in medicine, law, public health, or public policy, or graduate study in biology, ethics, education, or history and philosophy of science. Our graduates enter the workforce - whether in academia, industry, government, or clinical practice - with a deep sensitivity to the complexity of biology in society, and the skill to navigate that complexity throughout their career.

480-727-6277

Biological Sciences (Conservation Biology and Ecology), BS (LABSCCBS)

Campus: TEMPE

Program Description: Ecology is the study of the distribution and abundance of organisms, the interactions among organisms, and the interactions between organisms and the physical environment. Conservation biology is an applied science based on ecological principles that focuses on conserving biological diversity and on restoring degraded ecosystems. Arizona State University has made a commitment toward a more sustainable world and knowledge of conservation biology and ecology is one critical component to help us meet this global challenge.

Conservation biologists at ASU investigate the impact of humans on Earth's biodiversity and develop practical approaches to prevent the extinction of species and promote the sustainable use of biological resources. Some investigate the causes of ecosystem degradation and use ecological principles to reestablish desired conditions within a range of ecosystems, including rivers, wetlands, grasslands, urban landscapes and forests.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: The curriculum prepares students for employment and provides a solid platform for students who wish to attend graduate school. The skills and concepts you will learn will prepare you for careers with:

- Governmental agencies such as the Environmental Protection Agency and state Game and Fish Departments.
- K-12 education, colleges and universities.
- Non-governmental organizations such as The Nature Conservancy and Conservation International.
- Private companies focused on environmental resources, environmental law, or environmental economics.

The concentration can provide training in specific skills that you might need for:

- Animal and plant physiology, identification, and ecology.
- Behavioral ecology and population biology.
- Community, ecosystem and landscape ecology.
- Conservation of endangered species.
- Ecology of different habitats, including cities, lakes, rivers, and grasslands.
- Restoration of degraded ecosystems.

Biological Sciences (Genetics, Cell & Developmental Biology), BS (LABSCGBS)

Campus: TEMPE

Program Description: Genetics, cell, and developmental biology are exciting, closely related areas of life science research. Genetics examines the blueprints of life (i.e., DNA sequence and gene expression), while cell biology studies the machinery of life enclosed within the boundaries of cells. Developmental biology uses genetics and cell biology to understand how genes and the environment interact to produce a whole new individual from a single cell, in addition to developmental changes that organisms undergo throughout life. Many diseases are understood through the study of genetics, cell biology and development.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Students in this concentration have a variety of career options This degree provides the fundamental coursework necessary for admission into medical, dental, veterinarian, pharmacy, graduate school, or any of the health professions. There also are many employment opportunities that can be pursued upon receipt of the B.S. in this concentration; for example:

- Animal breeder technician.
- Bioinformaticist.
- Biotechnologist.
- Cell culture specialist.
- Cloning technician.
- Crime lab technician.
- Cytotechnologist.
- Drug design technician.
- Food and drug inspector.
- Genetic counselor.
- Histologist.
- In vitro fertilization technician.
- Plant improvement specialist.
- Teacher.
- Technical writer.
- Vaccine development technician.

Students in this concentration learn critical thinking skills that can be applied to many scientific problems and professions, as well as the challenges of daily life. We encourage students to engage in independent research projects or internship opportunities in order to develop a better sense of how science is done.

Chemistry, BA (LACHMBA)

Campus: TEMPE

Program Description: Chemistry is a central science that connects the "hard sciences," including physics, with the "soft sciences," such as biology

and medicine, and provides fundamental knowledge needed to deal with many needs of society. Discoveries of new materials, processes and solutions to problems such as pollution control depend upon a thorough grounding in this area of science. Students in the B.A. in chemistry program have opportunities to explore interests in analytical, inorganic, organic and physical chemistry as well as biochemistry, geochemistry, solid-state and materials chemistry. A secondary education B.A. with a specialization in chemistry is also available.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Cochise College (<http://transfer.asu.edu/cochise>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: A solid undergraduate education in chemistry provides the necessary background for many career paths in chemical industries, government and other areas. Chemistry can be combined with law for patent work, economics for sales and marketing careers, and computer science for careers in information storage and retrieval. Students planning careers in medicine, dentistry or veterinary medicine often pursue a course of study in chemistry with supporting work in biology as the route for preprofessional training.

Communication, BA (LACOMBA)

Campus: TEMPE

Program Description: The B.A. in communication focuses on teaching students how communication processes create, maintain and transform identities, relationships, workplaces and communities. Our mission statement is: Through the study and critique of human communication, we generate knowledge, creativity and understanding to facilitate healthy relationships and workplaces, civil and secure communities, and constructive intercultural interaction.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Central Arizona College (<http://transfer.asu.edu/central-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Graduates of our program often attend leading graduate schools in communication, law schools and business schools, and/or find gainful employment in careers in the areas of:

- Campaign management.
- Counseling.
- Entrepreneurism.
- Event planning.
- Health care management.
- Human resource management.
- Intercultural relations.
- Marketing.
- Nonprofit management.
- Public relations.
- Sales.

Computational Mathematical Sciences, BS (LACMSBS)

Campus: TEMPE

Program Description: Mathematics is a crucial component in many disciplines such as physics, engineering applications, business, economics and in the life sciences and social sciences. The B.S. in computational mathematical sciences is an interdisciplinary degree, with components in mathematics, science and computing and a focus on computational and numerical aspects of techniques used to solve a wide range of applied problems arising in practically any field of study.

A large component is geared toward understanding why and how computer algorithms work, as well as their limitations in terms of applicability and efficiency. This program is designed for students interested in computing and simulation of applied problems. It promotes creative skills and develops problem-solving tools needed in today's technological world.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Career Opportunities: Employment opportunities for math majors can be found in virtually all sectors of industry:

- Academia (e.g., high-school or college teacher, university professor).
- Applied math (scientific computing).
- Biotechnology.
- Business (actuary for bank or insurance company, operations research).
- Computer.
- Engineering.
- Government (consultant, federal and state organizations).
- Graduate school (mathematics or other fields).
- Medicine.

A B.S. in computational mathematical sciences is perhaps the most versatile of all math degrees in that it can lead to a wider choice of career paths. Many careers require a command of quantitative methods; persons qualified in mathematics hold a favorable edge in competition for job opportunities. Profiles and descriptions of jobs and career paths of actual mathematicians in a wide array of fields are published by the American Mathematical Society.

Earth and Environmental Studies, BA (LAEESBA)

Campus: TEMPE

Program Description: The B.A. in earth and environmental studies will provide a foundational understanding of the evolution of the Earth system with an emphasis on the planetary context for sustainable human societies. The degree includes broad training in the physical sciences, especially process-oriented geosciences that focus on Earth's life-sustaining surface environment. Advanced courses focus on topics including:

- Climate change.
- Earth's water, energy and material resources.
- Impacts of land-use change on human civilization.
- Physical, chemical and biological process interactions that define Earth's evolution.

The degree is designed as a liberal arts program with an emphasis on basic scientific literacy, not as a preparatory degree for graduate study in natural science. However, successful graduates will be prepared well for "green" professional careers in fields such as:

- Education.
- Environmental consulting.
- Environmental reporting.
- Natural resource management.
- Public planning.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 170 - Precalculus/210/251

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Coconino Community College (<http://transfer.asu.edu/coconino>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: School of Earth and Space Exploration earth and environmental studies graduates are prepared for positions in:

- Consultancy.
- Governmental agencies.
- Industry.
- Nongovernmental organizations.
- Nonprofit organizations.
- Regulatory agencies.
- Utilities.

They are also well prepared for admission to strong professional schools. Recent environmental awareness in business and government has created new employment opportunities (e.g., environmental coordinators, directors and managers). By developing a breadth of knowledge and experience, and by acquiring the skills to integrate various domains of knowledge, earth and environmental studies students prepare themselves for a variety of careers to help find solutions to tomorrow's environmental and sustainability challenges.

Earth and Space Exploration, BS (LASESBS)

Campus: TEMPE

Program Description: The B.S. in earth and space exploration offers students an integrated education across earth sciences, planetary sciences, astrophysics and engineering. The degree incorporates:

- A learning community that includes science and engineering students.
- Strong quantitative preparation.
- A yearlong collaborative capstone senior exploration project.

This strong foundation in geosciences, astrophysics and exploration engineering will prepare students for key roles in:

- Earth resources and exploration.
- Environmental and geologic engineering.
- Space research and industry.
- Water and environmental use policy.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I/MAT 270

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: The earth and space exploration major addresses critical future shortfalls in the national and regional training of the next generation of geoscientists and aerospace engineers. Arizona has an expanding space industry with major new investments and is prepared to engage new technologies to monitor and understand environmental issues in Arizona, the southwest and throughout the world. Students who major in earth and space exploration will have the tools, knowledge and understanding to address key problems of a global nature, whether they are working in the private or public sector.

Earth and Space Exploration (Astrobiology and Biogeosciences), BS (LASESABBS)

Campus: TEMPE

Program Description: Astrobiology is the study of the origins, evolution, distribution and future of life in the universe. Biogeosciences focuses on the interaction of biological and geological processes on Earth at present and in the geologic past. These topics are closely related because the concepts of biogeoscience inform the study of planetary habitability and the search for habitable worlds. Therefore, the astrobiology and biogeoscience concentration is designed to offer students a strong foundation for exploring the interaction of geological and biological processes, how such interactions sustain life on Earth, and how they might operate on other planets. This scientific background is needed to contribute to the search for life on other planets as well as the exploration of extreme environments here on Earth. It also provides training in the interplay of forces that impact global change.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Career Opportunities: Students in the astrobiology program will be well prepared for graduate studies in this field. Because astrobiology is increasingly the motivation for NASA exploration missions, they will also be well suited for entry-level careers at NASA research centers. The degree also provides broad training across a range of science fields, giving students a strong background for careers in biomedical, environmental or sustainability areas.

Earth and Space Exploration (Astrophysics), BS (LASESABS)

Campus: TEMPE

Program Description: The B.S. in earth and space exploration with a concentration in astrophysics is designed to offer students a fundamental grounding in astronomy and astrophysics, with exposure to the related fields of geology, planetary science and engineering. Students will emerge from this program with the skills to pursue a career in astrophysics, physics or related fields.

The rigorous course work includes a combination of physics courses taught in the School of Earth and Space Exploration and the Department of Physics. Students should emerge from the program with the ability to compete at the national level on standardized physics exams. The tools of astronomical discovery are increasingly dependent on technological advances, and students will be exposed to engineering principles. Through the capstone project in the senior year, students will gain valuable experience in translating science drivers into engineering specifics.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Some of the listed careers may require advanced degrees or additional certifications. Career opportunities include but are not limited to:

- Aerospace engineer.
- Astrobiologist.
- Astronomer.
- Computer programmer.
- Data analyst.
- Graduate student.
- Instrumentation specialist.
- Planetary scientist.
- Science policy intern.
- Science writer.
- Teacher.
- Telescope operator.

Career settings include:

- Federal government.
- K-12 schools.
- Manufacturing.
- Museums.
- NASA facilities.
- National laboratories.
- NSF facilities.
- Observatories.
- Planetariums.
- Publishing.
- Space industries.

- Universities and colleges.

Earth and Space Exploration (Exploration Systems Design), BS (LASESESDBS)

Campus: TEMPE

Program Description: The exploration system design concentration is designed to offer students a fundamental grounding in geology, physics and astrophysics, while providing the tools to enable them to design and build hardware and software to achieve specified scientific goals.

At the heart of the program is a sound grounding in the fundamentals of physics, mathematics and chemistry. Upon that foundation we explicitly tackle issues concerning hardware design, instrument assembly and, ultimately, how to knit these components together when conceiving the requirements needed for a mission or project destined for space or another planet.

As part of this degree, each student will have the opportunity to learn how projects and missions are designed and planned, starting with the scientific drivers and then defining engineering specifications. Each student will be expected to complete a senior project that takes a desired scientific measurement and realizes the technological solution to achieve the observation.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Career Opportunities: Some of the listed careers may require advanced degrees or additional certifications. Career opportunities include but are not limited to:

- Astronomer.
- Geoscientist.
- Graduate student.
- Planetary scientist.
- Scientific instrumentation specialist.
- Science policy intern.
- Science writer.
- Space systems engineer.
- Systems engineer.

Sample career settings include:

- Aerospace industry.
- Federal government.
- Manufacturing.
- NASA centers.
- National laboratories.
- Observatories.
- Publishers.
- Space industries.
- Universities and colleges.

Earth and Space Exploration (Geological Sciences), BS (LASESGSBS)

Campus: TEMPE

Program Description: Geological science is the study of the Earth and other planets with emphasis on the processes that have shaped them since the origin of the solar system, including the co-evolution of life, oceans, atmosphere and the Earth's climate system, and the record of that evolution encoded in rocks, soil, ice and isotopes. The B.S. in earth and space exploration with a concentration in geological sciences educates students in the fundamentals of the geological sciences, providing a solid background in chemistry, mathematics and physics, as well as interdisciplinary training in engineering, astronomy and planetary science.

Students will gain a strong understanding of field methods, as well as modern computing, remote sensing and instrumentation, in order to effectively study the natural environment and Earth's resources. Graduates of the program will learn to apply their knowledge for the benefit of the nation, Arizona and society in general.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Central Arizona College (<http://transfer.asu.edu/central-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Economics, BS (LAECNBS)

Campus: TEMPE

Program Description: The program requires a strong core of economic theory, supplemented by mathematics and data analysis. Students in our B.S. program choose from a variety of electives within the department, as well as in the College of Liberal Arts and Sciences and the university. All students are encouraged to develop programs of study tailored to their individual needs and interests. The department's undergraduate program aims to provide students with the critical thinking and communication skills needed to succeed in business or graduate school. The mission of the Department of Economics at ASU is to provide the highest quality instruction to our students, conduct cutting-edge research in economics, and provide leadership and service to our professional communities.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Students who have sought careers following their undergraduate education have been very successful in:

- Business.
- Consulting.
- Government.

Our graduates have taken positions as:

- Consultants who serve as advisors to both state and federal governments as well as private corporations.
- Corporate economists who collect data and make forecasts concerning the nature of the firm's business.
- Economic analysts for banks and financial firms.

Others have gone on to the best law schools in the country, or to the top Ph.D. and M.B.A. programs here and abroad. Finally, many of our graduates have won prestigious national awards, such as the Marshall Award, the NSF Fellowship, Fulbright fellowships and the Truman Award.

English (Creative Writing), BA (LAENGCBA)

Campus: TEMPE

Program Description: The B.A. in English offers concentrations in creative writing, linguistics or literature. Students in the creative writing concentration study and practice the art of writing poetry and fiction. The faculty in the Department of English offer courses in:

- Comparative literature.
- Creative writing.
- English as a second language.
- English education.
- English linguistics, literature and language.
- Rhetoric and composition.

Students engage in community outreach and in such diverse cross-disciplinary offerings as discourses of cultural encounters, borderlands, intercultural studies and technologies. A secondary education B.A. with a specialization in English is also available.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: With a degree in English, students' career options are virtually endless. Employers in all fields are always looking for workers with strong writing and communication skills and the ability to think critically. Some of the most common professions for English majors are:

- Business.
- Editing.
- Journalism.
- Law.
- Medicine.
- Nonprofit community service.
- Professional writing.
- Public relations.

Family & Human Development, BS (LAFASBS)

Campus: ONLNE, TEMPE

Program Description: The B.S. in family and human development offers course work on the development of individuals and families as they relate to their social worlds. The required concentration in family studies and child development provides a focus on the development of children, adults and families. Students take a wide variety of courses on contemporary issues related to human development, from infancy through the end of the life span, and the development, formation and dissolution of families. Students develop proficiency in written communication, computer skills, statistics and research methods.

Film (Film & Media Studies), BA (LAFMSBA)

Campus: ONLNE, TEMPE

Program Description: The B.A. in film and media studies is an innovative program in the study of film, television, computer games, the internet and screenwriting.

We equip students with the analytic, creative and communication skills needed to interpret and create media texts. Our B.A. prepares students for opportunities in the entertainment industry as executives, producers and writers. Our goal is to empower students to be critical consumers of media, creative industry professionals, and rigorous scholars of media texts and culture.

The film and media industries are undergoing constant transformation as a result of industry reorganization, globalization, new technologies and increasingly sophisticated forms of artistic expression and storytelling. Our curriculum aims to put our students on the forward edge of that change.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Career Opportunities: The film and media studies concentration provides undergraduates with skills that can be applied in a number of professional fields. It prepares students for a variety of career opportunities as leaders within the media entertainment industries, including:

- Creative management.
- Critics.
- Development.
- Marketing and regulation.
- Teachers.

Former students of film and media studies have gone on to pursue graduate studies at other prestigious universities. Others have selected career paths in the film, media and entertainment industries.

French, BA (LAFREBA)

Campus: TEMPE

Program Description: Students in the B.A. in French program study the language, literature and culture of France and Francophone countries. They gain a respectable measure of competence in reading, writing, oral and aural skills in the French language. They are required to take a number of related courses on topics such as:

- Art.
- Cultural theory.
- French history.
- Government.
- International business.
- Linguistics.
- Literary theory.
- Religion.

To help students gain proficiency in the language, the French section has an active French Club, conversation hours and film screenings. In addition, ASU also offers study abroad and exchange programs in France and Quebec, Canada, during the summer and academic year.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Graduates have a variety of career opportunities in:

- Airlines.
- Education or government service.
- International trade firms.
- U.S. companies that have branches in France.

Many pursue graduate work in French, eventually teaching the language and culture in universities or colleges. With state certification, high school teaching is also a possibility.

Geography, BA (LAGCUBA)

Campus: TEMPE

Program Description: Geographers have a unique spatial perspective in understanding the modern world, global to local, through the twin lenses of space and place. The B.A. in geography emphasizes humanistic and cultural traditions, and students pursuing undergraduate studies in geography typically concentrate knowledge-building in understanding various cultural phenomena, or in studying regions such as:

- Africa.
- Asia.
- Europe.
- Latin America.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: B.A. geographers go on to careers as:

- Community developers.
- Foreign service.
- Geodemographic analysts.
- Governmental organizations.
- Intelligence analysts.
- International trade consultants.
- Nongovernmental organizations.
- Public sector transportation planners.
- Teachers.
- Urban and regional planners.

Geography, BS (LAGCUBS)

Campus: TEMPE

Program Description: Geographers have a unique spatial perspective in understanding the modern world, global to local, through the twin lenses of space and place. A B.S. in geography emphasizes spatial patterns in natural science features such as:

- Landforms.
- Plants.
- Water.
- Weather.

Or in social science/environmental science dynamics involving:

- Economic patterns.
- Human populations.
- Transportation.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: With a focus on geospatial techniques, B.S. geographers go on to careers as:

- Cartographers.
- Computer cartographers.
- Environmental impact analysts.
- Geographic information system (GIS) specialists and analysts.
- Geospatial software developers.
- Hydrology and water resource specialists.

- Location analysts for businesses.
- Remote sensing analysts.

Graduates are presented with a host of other geospatial career options in the burgeoning fields of geographic information science (GISci), mapping and navigation systems.

Contact Information:

Geography (Meteorology-Climatology), BS (LAGCUMBS)

Campus: TEMPE

Program Description: The meteorology-climatology concentration under the B.S. in geography is designed to meet the requirements of certification as a meteorologist by the National Weather Service. As such, it requires a heavy concentration on:

- Dynamic meteorology (atmospheric physics).
- Mathematics (requiring three semesters of calculus).
- Physics (two semesters of university or calculus-based physics).
- Synoptic meteorology (operational weather forecasting).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
 Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Students successfully completing the program have found employment with:

- Energy power companies (e.g., Salt River Project and Arizona Public Service).
- Government agencies (e.g., Arizona Department of Environmental Quality, U.S. Environmental Protection Agency, U.S. Army Corps of Engineers).
- Graduate work in either meteorology or climatology.
- National Weather Service.
- U.S. Air Force (in either meteorology or pilot training).

Geography (Urban Studies), BS (LAGCUUBS)

Campus: TEMPE

Program Description: The urban studies concentration under the B.S. in geography is designed to facilitate the growing interest in urban areas, with special emphasis on studying the Phoenix metropolitan area and other rapidly urbanizing regions in arid climates. Tied with geographic information systems (GIS), the urban studies major brings both knowledge and skill sets together in a powerful way. This program, with its focus on GIS, is a viable alternative to the urban planning degree, which has restrictive enrollment.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Students successfully completing the program often find employment with city planning agencies, as well as government agencies at various levels (e.g., county, state, federal). The urban studies major, especially when combined with a focus on GIS, gives graduates an advantage in careers in urban planning and other jobs dealing with urban issues, including:

- Economic development planning.
- Housing issues.
- Transportation.

German, BA (LAGERBA)

Campus: TEMPE

Program Description: Students in the B.A. in German program study the language, literature and culture of German-speaking countries. They gain a respectable measure of competence in reading, writing, oral and aural skills in the German language. They are required to take a number of related courses on topics such as:

- Art.
- German history.
- Government.
- International business.
- Religion.

Students are encouraged to study abroad in Germany as participants in ASU's summer program in Regensburg, or one of the academic-year exchange programs available at several German universities.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Graduates have a variety of career opportunities in:

- Airlines.
- International trade firms.
- U.S. companies that have branches in Austria, Germany and Switzerland and other fields.

German is also useful in Eastern and Southeastern Europe. Some students decide to pursue graduate work, eventually teaching the language and culture in universities or colleges. With state certification, high school teaching is also an option.

Global Health, BA (LASSHBA)

Campus: TEMPE

Program Description: The B.A. in global health is an interdisciplinary degree designed for students who seek a broad and flexible set of skills for understanding contemporary health challenges and thinking about how they might best be solved. "Global" is understood in the anthropological sense, meaning ways of understanding and addressing disease, health and well-being that can incorporate all cultures, places and time and that can integrate knowledge of health's social, historical, biological and ecological dimensions.

The curriculum emphasizes the development of core skills in critical thinking and problem solving and the importance of direct experience (research, study abroad, service learning and advocacy). The degree cultivates capacities to deal with any complex problem with social components: how to identify the critical issues, ask the right questions and create solutions that are meaningful and effective.

Students are required to participate in an approved global health study abroad program.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements:

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Nationally and internationally, the health field provides enormous and varied career opportunities, and demands for graduates with skills are high and growing. The major supports the goals of those pursuing careers in academic research, teaching and health services, whether in universities, government agencies, departments of health, international agencies (WHO, CDC, Global Health Council, World Bank, Interamerican Development Bank), non-governmental organizations or in the private sector. The degree also provides those who plan advanced specialist health training, such as in nursing, medicine, dentistry or pharmacy, with a broad intellectual base that enhances later specialist training.

In Arizona and elsewhere, there is a pressing need for professionals with appropriate skills to work in cross-cultural settings or with underserved populations (such as migrants, minorities and those living in poverty), and many of these jobs are directly or indirectly related to health.

Global Studies, BA (LASGSBA)

Campus: TEMPE

Program Description: The global studies program addresses some of the most challenging issues through teaching, research and public policy activities. They include:

- Economic and social development.
- Global climate change.
- Justice and human rights.
- Migration and global households.
- Pandemics and global health.
- The role of global cities.
- World heritage.

Within the program's intellectual framework, students are required to take courses in at least two areas of emphasis, providing them with a broad understanding of global processes and institutions. Areas of emphasis include:

- Cultural perspectives and place.
- Economic development.
- Environment.
- Global governance.
- Urban systems.
- Violence, conflict and human rights.

Global studies faculty members orient their work toward solving global problems, not around traditional disciplines; they have been recruited from highly diverse backgrounds including:

- Anthropology.
- Economics.

- Geography.
- Law.
- Planning.
- Political science.
- Sociology.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Career Opportunities: A global studies degree prepares students for professional and graduate training (including law, business and public policy) and provides professional training to future decision-makers in government, business and policy entities.

History, BA (LAHISBA)

Campus: ONLNE, TEMPE

Program Description: The B.A. in history studies the growth and development of human society from cultural, economic, political and social perspectives. Courses are designed to give students a breadth and depth of understanding about today's complex world and cover a wide range of geographic regions, including:

- Africa.
- Asia.
- Europe.
- Latin America.
- Middle East.
- U.S.

Students choose a primary geographic concentration from:

- Asia.
- Europe.
- Latin America.
- U.S.

Students considering the online campus B.A. in history may see information on that program at <http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-arts-history> (<http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-arts-history>)

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. (<http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-arts-history>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

- Arizona Western College (<http://transfer.asu.edu/az-western>)
- Central Arizona College (<http://transfer.asu.edu/central-az>)
- Coconino Community College (<http://transfer.asu.edu/coconino>)
- Cochise College (<http://transfer.asu.edu/cochise>)
- Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)
- Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)
- Mohave Community College (<http://transfer.asu.edu/mohave>)
- Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)
- Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities: History majors seek jobs in:

- Business and industry.
- Education.
- Government.

They pursue graduate study in:

- Business.
- History.
- Justice studies.
- Law.
- Medicine.
- Public administration.
- Public history.
- Theology.

History is an excellent pre-professional major for:

- Business.
- Justice studies.
- Law.
- Medicine.
- Public administration.
- Public history.
- Theology.

A high-quality record as a history major indicates to employers and admissions officers that the student has acquired a respectable degree of literacy. It also demonstrates the student has the ability to conduct research, assimilate material, read critically and evaluate conflicting interpretations of events.

Integrated Studies, BA (LAISTBA)

Campus: TEMPE

Program Description: The integrated studies program is not a general studies major, but a unique and highly focused plan of study for gifted students whose academic interests are not served by the more traditional disciplinary studies. Superior students whose interests lie beyond the traditional departmental emphases have the opportunity to work with various faculty members in creating an individualized B.A. plan. Students who elect an integrated studies major pursue a coherent course of study involving more than one department or college. Students majoring in integrated studies transcend the traditional disciplinary structure of the college to concentrate on individually designed areas of study not covered by the traditional major and minor.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements: Not available to freshmen. There is an additional application for this degree. Admissions consist of completion of 32 credit hours at ASU with a GPA of at least 3.25 and three letters of recommendation from ASU faculty members. For more information contact the assistant dean for academic affairs, Office of Student and Academic Programs, Fulton Center, Suite 110.

Career Opportunities: An integrated studies major may or may not be professionally or vocationally oriented, depending on the area of concentration. All integrated studies majors, however, share with all other liberal arts and sciences students the goal of developing analytical and communicative abilities. The program combines breadth of learning with an appropriate depth in some focused area of inquiry. Integrated studies graduates are prepared to enter the work force or pursue graduate or professional studies at the completion of their undergraduate program.

International Letters & Cultures (Classics), BA (LASLCCBA)

Campus: TEMPE

Program Description: The B.A. in international letters and cultures with a concentration in classics allows students to pursue a traditional degree in classics in a nontraditional way. Students are expected to acquire the traditional skills in the core ancient languages and history (with an emphasis in either ancient Greek or Latin language), and they are also asked to seek out courses in several departments across the university and tailor their degree to whatever aspect of classical scholarship appeals to them. This classics degree, therefore, encourages academic enterprise and intellectual and cultural diversity among individual students.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements:

Career Opportunities: The reasoning, research, language and analysis skills developed in study of the classics are well suited for many careers, particularly in:

- Business.
- Education.
- Law.

Contact Information:

Liberal Arts & Sciences, College of
School of International Letters and Cultures

International Letters and Cultures, BA (LASLCBA)

Campus: TEMPE

Program Description: The B.A. in international letters and cultures is a degree grounded in the study of at least one foreign language. It is a more transcultural and transdisciplinary degree than a traditional languages and literature degree and is designed to encourage students to explore and even challenge the traditional boundaries of cultures, texts and disciplines. Students choose a program that requires study and research in a minimum of two cultures or disciplines (or both). Students must meet with an advisor in the School of International Letters and Cultures to discuss this degree option.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements:

Career Opportunities: This degree program will provide essential skills that employers in government, education and various business sectors are looking for, including:

- Knowledge of other cultures.
- Proficiency in another language or languages.
- Strong written and oral communication skills.
- Valuable critical thinking and analytical skills.

Italian, BA (LAITABA)

Campus: TEMPE

Program Description: Students in the B.A. in Italian program study the language, literature and culture of Italy. They gain a respectable measure of competence in reading, writing, oral and aural skills in the Italian language. They are required to take a number of related courses on topics such as:

- Art.
- Government.
- Italian history.
- Religion.

A summer program in Florence, Italy, is available for students who wish to study the language and culture while living in the country. There are also study abroad programs in various cities in Italy during the academic year.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: There are numerous career opportunities for Italian graduates in:

- Airlines.
- Art museums.
- International trade firms, including U.S. companies that have branches in Italy.
- Other fields.

Some graduates pursue doctoral studies, eventually teaching the language in universities or colleges.

Jewish Studies, BA (LAJSTBA)

Campus: TEMPE

Program Description: The B.A. in Jewish studies offers an interdisciplinary, cross-cultural program of study in the humanities that examines ethical, religious and spiritual values while exploring a range of philosophical and political viewpoints and providing a balance to the study of contemporary science and technology. The major focuses on the study of Judaism, defined as the civilization of the Jews. It considers Jewish history and modern life, enhances the student's understanding of Jewish contributions to Western civilization and facilitates enhanced cultural awareness and global perspective.

Students are required to complete course work in one thematic concentration selected from:

- History and society.
- Literature and culture.
- Religion and thought.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Career Opportunities: Jewish Studies is an interdisciplinary, cross-cultural, core discipline within the humanities which explores ethical, religious and spiritual values and provides a balance to the study of contemporary science and technology. Students who receive a B.A. in Jewish studies and pursue a career with one of the hundreds of U.S. companies that do business in Israel will have a competitive edge because of their familiarity with the Hebrew language and Jewish culture. Jewish studies graduates are also prepared to:

- Attend rabbinical seminary in preparation to become a community rabbi or chaplain.
- Engage in world political and economic issues.
- Pursue advanced education in Jewish professional service field(s).
- Pursue advanced degrees related to their area of interest in fields that may include:

- Archaeology.
- Creative writing.
- Ethics.
- Film and media.
- History.
- Journalism.
- Justice studies.
- Law.
- Philosophy.
- Political science.
- Religious studies.

Justice Studies, BA (LAJUSBA)

Campus: TEMPE

Program Description: The B.A. in justice studies is intended for undergraduate students with an interest in an interdisciplinary examination of the philosophical, historical and cultural dimensions of contemporary justice issues. Like the justice studies B.S., the B.A. emphasizes five core areas of study:

- Citizenship, migration and human rights.
- Globalization, sustainability and economic justice.
- Law, policy and social change.
- Media, technology and culture.
- Social identities and communities.

Scholarship in these areas is aligned with finding just solutions to complex social problems locally and globally. Whereas the B.S. degree provides undergraduate students with training in social science research methods and statistics, the B.A. degree will provide an option for students desiring a more humanities-oriented framework from which to approach issues of justice. Students will develop an appreciation for studying:

- Historical events.
- Language, rhetoric and cultural context as they relate to justice.
- Philosophical systems.
- Symbolic meanings.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Students who complete the B.A. in justice studies will be prepared to engage in social, political and economic issues through community service and social agency work, including in local and global non-governmental organizations as researchers, administrators or practitioners.

Justice Studies, BS (LAJUSBS)

Campus: ONLNE, TEMPE

Program Description: Justice and social inquiry is an innovative social science program that places social justice at the center of its scholarship and teaching. The B.S. in justice studies is designed for students interested in studying the multiple meanings and manifestations of justice and social change, locally and globally. Students receive interdisciplinary training in research methods and theory and take courses that provide them with a comprehensive understanding of substantive issues within five primary research areas. These five core substantive areas are:

- Citizenship, migration and human rights.
- Media, technology and culture.
- Law, policy and social change.
- Globalization, sustainability and economic justice.
- Social identities and communities.

The goal is to enable students, faculty and graduates to use their skills to find solutions to complex social problems.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Mathematics, BA (LAMATBA)

Campus: TEMPE

Program Description: Mathematics is a crucial component in many disciplines where the need for quantification in the analysis of phenomena is strong, such as:

- Business and economics.
- Engineering applications.
- Life sciences.
- Physics.
- Social sciences.

The B.A. in mathematics provides a general background in mathematics, at a level sufficient to improve critical thinking, rigor and problem solving skills required in certain "social" fields. The B.S. requires six more credit hours within the major than the B.A. The B.A. program has a foreign language requirement. A secondary education B.A. with a specialization in mathematics is also available.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 243 - Discrete Math Structures

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Cochise College (<http://transfer.asu.edu/cochise>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Employment opportunities for math majors can be found in virtually all sectors of industry:

- Academia (e.g., high-school or college teacher, university professor).
- Applied math (scientific computing).
- Business (e.g., actuary for bank or insurance company, operations research).
- Engineering, biotechnology, computer, government (e.g., consultant, federal and state organizations).
- Graduate school (mathematics or other fields).
- Medicine.

Graduates with a B.A. in mathematics may pursue a master's degree in a more applied field (social sciences) or an M.B.A. and typically move on to "social careers" (e.g., social scientist, politics, education). Graduates also have the option of becoming certified to teach mathematics in public middle schools and high schools. Many careers require a command of quantitative methods, and persons qualified in mathematics hold a favorable edge in competition for job opportunities.

Mathematics, BS (LAMATBS)

Campus: TEMPE

Program Description: Mathematics is a crucial component in many disciplines where the need for quantification in the analysis of phenomena is strong, such as:

- Business and economics.
- Engineering applications.
- Life science.
- Physics.
- Social sciences.

The B.S. includes more analytical courses, as well as additional advanced courses, compared to the B.A. It is the most popular math degree at ASU. Many B.S. majors are dual majors in a more applied field, such as physics and engineering.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer: Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Employment opportunities for math majors can be found in virtually all sectors of industry:

- Academia (e.g., high-school or college teacher, university professor).
- Applied math (scientific computing).
- Business (e.g., actuary for bank or insurance company, operations research).
- Engineering, biotechnology, computer, government (consultant, federal and state organizations).
- Graduate school (mathematics or other fields).
- Medicine.

Many careers require a command of quantitative methods, and persons qualified in mathematics hold a favorable edge in competition for job opportunities. Profiles and descriptions of jobs and career paths of actual mathematicians in a wide array of fields are published by the American Mathematical Society.

Mathematics (Secondary Education), BS (LAMATSBS)

Campus: TEMPE

Program Description: The B.S. in mathematics with a concentration in secondary education focuses on course work related to the mathematics that secondary teachers need as background for their own deep understanding of the discipline, as well as the content and methods they will be delivering and using with their own high school students. Students graduating with this concentration will have the recommendation from the Mary Lou Fulton Teachers College to the State of Arizona for high school mathematics certification.

The B.S. in mathematics with a concentration in secondary education is also intended for students who wish to pursue a graduate degree in mathematics.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Career Opportunities: Employment opportunities for math majors are found in virtually all sectors of industry, government and education:

- Applied math (scientific computing).
- Business (e.g., actuary for bank or insurance company, operations research).
- Engineering, biotechnology, computer, government (e.g., consultant, federal and state organizations).
- Graduate school (mathematics or other fields).
- Medicine.
- Teaching (e.g., high-school or college teacher).

A course of study in secondary mathematics education is especially advantageous for competitive high school teaching positions. Graduates will have the recommendation for becoming certified and teaching mathematics in public high schools.

PSA 211

math@asu.edu

480-965-7195

Mathematics (Statistics), BS (LAMATTBS)

Campus: TEMPE

Program Description: Mathematics is a crucial component in many disciplines where the need for quantification in the analysis of phenomena is strong, such as:

- Business and economics.
- Engineering applications.
- Life sciences.
- Physics.
- Social sciences.

The B.S. in mathematics with a concentration in statistics focuses on course work related to the statistical analysis of data and the evaluation of probabilistic models based on these data. Such models are heavily used in the banking and insurance industries, but also increasingly in more engineering fields where the effects of noise sometimes play a critical role in the behavior of a model. Many B.S. students in the statistics concentration are dual business or economics majors.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Career Opportunities: Employment opportunities for math majors can be found in virtually all sectors of industry:

- Academia (e.g., high-school or college teacher, university professor).
- Applied math (scientific computing).
- Business (e.g., actuary for bank or insurance company, operations research).
- Engineering, biotechnology, computer, government (e.g., consultant, federal and state organizations).
- Graduate school (mathematics or other fields).
- Medicine.

A course of study in statistics is especially useful in technical positions in finance, insurance and business, as well as in fields where data analysis plays an important role, such as genomics. Graduates also have the option of becoming certified to teach mathematics in public middle schools and high schools. Many careers require a command of quantitative methods, and persons qualified in mathematics hold a favorable edge in competition for job opportunities.

Microbiology, BS (LAMICBS)

Campus: TEMPE

Program Description: In microbiology, students study the branch of biology involving the smallest of living things - bacteria, fungi, algae, protozoa, and viruses - and immunology, the study of all aspects of the immune system. Despite their small size, microbes are fundamental to life on earth and compose the majority of all life forms on earth. In addition to their essential contributions to the natural world, microbes have been model experimental subjects due to their impact on human health and their ease of manipulation in the laboratory. A significant portion of medical research employs microbiological and immunological methods in order to examine basic genetic and biological phenomena.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: The microbiology degree program places emphasis on understanding microorganisms and their interrelationships with other organisms in nature and on the influence of microorganisms in biomedicine and biotechnology. Students in the microbiology degree program will study not only the background and current findings in the field of microbiology, but also acquire the critical thinking skills and the hands-on laboratory and field skills required to succeed in science. The major provides excellent training for pre-med, pre-dental, pre-vet, and pre-pharmacy students, as well as advanced study in microbiology and immunology.

The discipline of microbiology is diverse, and the job opportunities for microbiologists are enormous. Graduates with a degree in microbiology have opportunities for employment in research laboratories, hospitals, government, public health laboratories, and industrial laboratories such as food, dairy, chemical, pharmaceutical, environmental and biotechnology companies. Many students are also suitably prepared for admission into medical, dental, veterinarian, pharmacy, or graduate school.

Molecular Biosciences/Biotechnology, BS (LAMBBBS)

Campus: TEMPE

Program Description: Molecular biosciences and biotechnology encompasses many of the cutting-edge disciplines in life sciences research. Biotechnology is an exciting, rapidly growing field with major applications in agriculture ("green" biotechnology leading to improved crops or production of vaccines in plants), health care ("red" biotechnology leading to better therapeutics, diagnostics and "personalized medicine") and industry ("white" biotechnology leading to sustainable production of energy, enzymes and chemicals).

Our molecular biosciences and biotechnology degree program is differentiated from the other life sciences majors by its focus on the interface between molecular biology and biotechnology. This interface drives many of our major advancements in knowledge and in applied research and development, like the development of next-generation biomedical products or biofuels. Other hallmarks of this program are the focus on hands-on research and the capstone course with both science and business/entrepreneurial components.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Career Opportunities: The molecular biosciences and biotechnology degree program provides excellent background and training for a growing number of careers that incorporate this innovative area of the molecular life sciences. Independent research and courses with classroom plus lab components result in a solid basis of knowledge and practical expertise in biotechnology and the molecular biosciences providing many options for further education or for entering the workforce. After graduation, many molecular biosciences and biotechnology students enter graduate programs in an molecular biosciences and biotechnology related area, but a number of students also enroll in medical school or other health-related professional programs, or in other advanced programs. Students also have the knowledge and technical skills to enter the biotechnology workforce in an area matching their expertise and interest.

The molecular biosciences and biotechnology program has a faculty mentoring program, which provides students with the opportunity to speak with faculty regarding career choices, selection and timeline of major courses and of independent research projects, and much more.

Philosophy, BA (LAPHIBA)

Campus: TEMPE

Program Description: A B.A. in philosophy offers a unique course of study. As the American Philosophical Association says, "Philosophy is quite unlike any other field ... it is a reasoned pursuit of fundamental truths, a quest for understanding, a study of principles of conduct. It seeks to establish standards of evidence, to provide rational methods of resolving conflicts and to create techniques for evaluating ideas and arguments. Philosophy develops the capacity to see the world from the perspective of other individuals and other cultures; it enhances one's ability to perceive the relationships among the various fields of study; and it deepens one's sense of the meaning and varieties of human experience."

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities: The analytical, rhetorical and writing skills developed through the study of philosophy provide ideal preparation for a wide range of careers, including:

- Business.
- Education.
- Journalism.
- Law.
- Medicine.
- Public Service.

Physics, BA (LAPHYBA)

Campus: TEMPE

Program Description: Physics is concerned with the nature, structure and interactions of matter and radiation. The B.A. in physics provides a flexible and efficient option for students who are interested in a liberal arts degree with broad knowledge of physics. This degree program is ideal for students seeking to complete two degrees, with physics as the second degree. Students wishing to pursue a graduate degree in physics are advised to consider the B.S. in physics.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Central Arizona College (<http://transfer.asu.edu/central-az>)

Career Opportunities: Students graduating with a B.A. degree in physics may pursue such careers as:

- Health physicist.
- Lawyer.
- Medical doctor (with additional pre-medical course work).
- Patent attorney.
- Physical therapist.
- Radiation physicist.
- Research/lab assistant.
- Science policy analyst.
- Secondary science teacher.
- Technology support analyst.

Physics, BS (LAPHYBS)

Campus: TEMPE

Program Description: Physics is concerned with the nature, structure and interactions of matter and radiation. The B.S. degree in physics provides students a thorough background in physics appropriate for further graduate study in physics, other sciences, or engineering programs.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Career Opportunities: The broad range of applicability of the principles of physics gives the physicist great flexibility in a choice of career or further education. About half of the graduates with a bachelor's degree in physics go on to graduate school in:

- Astronomy.
- Engineering.
- Medicine.
- Physics.

The other half go directly into employment in areas such as:

- Education and business.
- Engineering.
- Materials science.

Political Science, BA (LAPOSBA)

Campus: ONLINE, TEMPE

Program Description: The B.A. in political science offers students the necessary skills and knowledge to participate effectively as citizens in a democratic political system and to flourish in the rapidly developing globalization of the world's political institutions, cultures, and economies. The major aims to provide students with the tools and skills necessary to make connections linking theory with real world problems and issues.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Psychology, BA (LAPGSBA)

Campus: TEMPE

Program Description: The Department of Psychology is among the largest and most popular departments on the ASU Tempe campus. Psychology is the study of behavior, emotions and the mental processes of individuals and groups, approached through a scientific methodology. The B.A. in psychology focuses on appreciating and understanding the human condition from a scientific, psychological point of view. All psychology majors learn about statistics and research methods and use psychology content courses to develop skill sets in diverse settings, including the department's child development facilities or internships. Students in the B.A. program are exposed to theories and research addressing such fascinating topics as:

- How can people use social influence to increase compliance?
- How do children develop?
- How do people remember information over long periods of time?
- How do the mind and body react to stress?
- Which types of treatments are most effective for individuals who are depressed?

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 170 - Precalculus

Admission Requirements: Freshman admission requirements for this program are the same as the university's freshman admission requirements. Transfer applicants must meet university transfer admission requirements and have successfully completed the following courses (or their equivalents) with a grade of "C" or better: PGS 101 Introduction to Psychology, ENG 101 First-Year Composition, MAT 170 Precalculus. Transfer students should select an additional major when applying for admission. Related disciplines include: Anthropology, biology, sociology, and philosophy. Readmission applicants must meet university readmission requirements, ASU cumulative GPA of 2.00 or better and have completed the following courses (or their equivalents) with a grade of C or better: PGS 101 Introduction to Psychology, ENG 101 First-Year Composition, MAT 170

Precalculus. Readmission students should select an additional major when applying for readmission. Related disciplines include: Anthropology, biology, sociology, and philosophy (College of Liberal Arts and Sciences, Tempe campus), OR applied psychology (BS) - Polytechnic campus, psychology (BA/BS) - West campus.

Students with fewer than 45 hours who are not admissible to a Psychology Department psychology major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social/behavioral sciences program in University College.

Students with more than 45 hours who are not admissible to a Psychology Department psychology major and who did not select a second major or are not admissible to their second major choice will be contacted to select an appropriate major. Related disciplines include: Anthropology, biology, sociology, and philosophy, (College of Liberal Arts and Sciences, Tempe campus), OR applied psychology (BS) - Polytechnic campus, psychology (BA/BS) - West campus.

Current ASU students who wish to change their current major to a Psychology Department psychology major must have an ASU cumulative GPA of 2.00 or better and have completed the following courses (or their equivalents) with a grade of "C" or better: PGS 101 Introduction to Psychology, ENG 101 First-Year Composition, MAT 170 Precalculus.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities: The B.A. in psychology is designed to prepare students to work in a variety of settings that provide opportunities to apply concepts and principles of psychology. This degree provides students the opportunity to develop a broad range of highly marketable skills, including analytical skills, writing and public speaking skills, as well as teamwork and leadership skills. These skills lead to many career opportunities or graduate degrees in such fields as counseling, social work, family therapy and law.

Psychology (Psychological Science), BS (LAPGSPSBS)

Campus: TEMPE

Program Description: The B.S. in psychology with a concentration in psychological science emphasizes critical thinking and analytic and quantitative skills involved in psychological research to prepare students for graduate study. Students take advanced course work in statistics, and receive hands-on research experience by working with faculty members in the laboratory. Students are exposed to theories and research addressing such topics as:• How do children develop?• How do people remember information over long periods of time?• How do the mind and body react to stress?• How can people use social influence to increase compliance?• Which types of treatments are most effective for individuals who are depressed?

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences Or MAT 270 Calculus with Analytical Geometry

Admission Requirements: The B.S. in psychology with a concentration in psychological science is open to students who have:

- Completed B.S. in psychology critical courses (ENG 101, ENG 102, MAT 251 or MAT 270, PGS 101, PSY 230, PSY 290) with a "C" or better.
- Earned at least 45 credit hours.
- Earned at least an ASU 3.00 cumulative GPA.

Students must maintain at least a 3.00 cumulative GPA from admittance through graduation.

Career Opportunities: The B.S. in psychology emphasizes critical thinking and analytic and quantitative skills involved in psychological research to prepare students for graduate study in psychology to be researchers, teachers, or clinicians.

Religious Studies, BA (LARELBA)

Campus: ONLNE, TEMPE

Program Description: Students in the B.A. in religious studies program engage in the comparative, cross-cultural study of religions and cultures.

Employing various disciplinary approaches, including the historical, sociological, anthropological and theological, the academic study of religion seeks to interpret, analyze and evaluate the nature and role of religion in the lives of individuals and societies.

The faculty of religious studies enjoy an excellent national reputation and the degree is distinctive at ASU because the relatively small number of majors allows undergraduates to receive individual faculty attention, which is often not possible in larger departments.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(<http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-arts-religious-studies>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: A degree in religious studies provides a strong liberal arts background and excellent training in critical thinking and writing. Such a liberal education, which includes the development of basic intellectual skills, has become increasingly attractive to employers seeking to hire recent college graduates. Students with a degree in religious studies are also well positioned to pursue graduate studies and professional programs, including:

- Business.
- Divinity.
- Journalism.
- Law.
- Nonprofit management.
- Social work.

Russian, BA (LARUSBA)

Campus: TEMPE

Program Description: Students in the B.A. in Russian program study the language, literature and culture of Russia. They gain a respectable measure of reading, writing, oral and aural skills in the Russian language, engaging in:

- Art and architecture.
- Government and politics.
- History and sociology.
- International business.
- Linguistics.
- Literary and cultural theory.
- Literature.
- Music and dance.
- Religion.

The Russian language program also cooperates with other related units within the university (e.g., the Melikian Center for Russian, Eurasian and East European Studies) to offer a Russian and East European Studies Certificate (REESC).

Students may also take summer intensive courses in Macedonian, Albanian, Armenian, Serbo-Croatian, Tatar, Polish and a number of other Central Asian languages, through the Critical Language Institute at ASU.

A study abroad program is offered in Macedonia, and advanced Russian language students may study in Moscow and St. Petersburg during the summer.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Graduates have a variety of career opportunities. At present these graduates have an enviable record of postgraduate placement in the job market. Many work for firms that deal with international trade or for U.S. companies that have branches in Russia, while many find positions within government service or in teaching. A few pursue graduate work in Russian studies, eventually teaching the language and culture in universities or colleges.

Spanish, BA (LASPABA)

Campus: ONLNE, TEMPE

Program Description: Students in the B.A. in Spanish program have the opportunity to gain oral, reading, speaking and written proficiency in the language. The program offers two study tracks from which to choose, 1) literature and culture, or 2) Spanish linguistics.

The literature and culture track provides an in-depth understanding of the themes of Spanish and Latin American culture and literature and the contemporary issues throughout the Spanish-speaking world.

The Spanish linguistics track provides an in-depth understanding of the Spanish language (syntax, morphology) and may include courses in

translation (English to Spanish).

Students are encouraged to contact a school advisor to discuss the two available tracks. ASU offers opportunities throughout the year to study in Spain, Mexico and other Spanish-speaking countries through study abroad and exchange programs. Students majoring in Spanish may also work toward a professional certificate in Spanish/English translation.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated,7.5-week classes.

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Graduates may choose from several career options:

- Become certified to teach high school.
- College or university teaching and research in linguistics or literature through advanced degrees.
- Translation or interpretation studies.

Graduates may combine Spanish with other fields with an international emphasis, such as:

- Business.
- Engineering.
- Journalism.
- Political science.

Speech & Hearing Science, BS (LASHSBS)

Campus: TEMPE

Program Description: Students in the B.S. in speech and hearing science program study the normal aspects of the communication process. Emphasis is placed on:

- Anatomy and physiology of the hearing mechanism.
- Speech, language and hearing science.
- The human communication system, including normal development of speech and language.

Graduates attain broad-based knowledge in the basic aspects of speech, language and hearing sciences, which prepares them for graduate studies in audiology or speech language pathology.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Employment opportunities for those with a B.S. may include positions as:

- Management trainees.
- Research assistants/associates in behavioral disciplines.
- Speech-language pathology assistants.

Primarily, a degree in this field prepares the student for entrance into a graduate program in speech-language pathology (SLP) or audiology. In both

fields, a graduate degree is required for employment.

The undergraduate degree in speech and hearing science is also excellent preparation for those who wish to enter other professional graduate programs such as:

- Education.
- Law.
- Medicine.
- Rehabilitation.
- Special education.
- Teaching for the deaf.

Graduates in SLP and audiology can work in a variety of settings:

- Clinics.
- Hospitals.
- Schools.

Transborder Chicana/o & Latina/o Studies (Media and Expressive Culture), BA (LATCLMBA)

Campus: TEMPE

Program Description: Students choosing this concentration study the expressive cultures of Latina/o communities. The objective is to equip students with the critical skills to understand how expressive culture produces and reproduces historical and cultural narratives about Latina/o communities in general and Mexican and Chicana/o communities specifically. Students engage in the study of these narratives in transdisciplinary, humanities-based contexts, including:

- History.
- Literature.
- Media.
- Performance.
- Visual art.

The concentration exposes students to the contributions that transborder communities have made to the arts and humanities. Student outcomes include 1) becoming critical consumers of media and expressive culture, and 2) becoming conversant in the meaning-making processes and practices that shape and impact Latina/o populations.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: The bachelor's program in transborder Chicana/o and Latina/o studies prepares ASU graduates for career opportunities in a variety of national and international fields, including:

- Business fields.
- Communication.
- Education.
- Health services.
- Justice studies.
- Public policy and administration.

Transborder Chicana/o and Latina/o majors will also be well prepared to enter graduate study in such high need career fields as:

- Business.
- Education.
- Law.
- Medicine.
- Public health.
- Social work.

Transborder Chicana/o & Latina/o Studies (Transborder Community Development and Health), BA (LATCLTBA)

Campus: TEMPE

Program Description: The B.A. in transborder Chicana/o and Latina/o studies is an interdisciplinary degree program with the central mission of providing a value-added environment that increases the direct participation of Chicana/o and Latina/o populations in the formation of human and capital development.

By developing a program of social science research and teaching with an emphasis on community development and health, students will concentrate on patterns of physical, mental and social health disparities closely associated with:

- Differential health care.
- Learning how to develop appropriate mitigating applied programs.
- Limited access to insurance.
- Poverty.
- Reliance on emergency measures and facilities.

Other major orientations with an applied focus will include:

- Environmental home health.
- Vulnerable populations.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Transborder Chicana/o & Latina/o Studies (US and Mexican Regional Immigration Policy & Economy), BA (LATCLUBA)

Campus: TEMPE

Program Description: The B.A. in transborder Chicana/o and Latina/o studies is an interdisciplinary degree whose central mission is to provide a value-added environment that increases the direct participation of Chicana/o and Latina/o populations in the formation of human and capital development. This concentration has a strong applied orientation and focuses on the regional and transnational policies and practices that have led to enormous demographic changes in the borderlands of the immediate U.S.-Mexico border region, and the entire country. We focus on the manner in which economic and political decisions between Mexico and the United States, as well as other transnational policies concerning other countries, strongly influence:

- Demographic transitions.
- Ecological conditions.
- Economic policy towards trade.
- The nexus of relations that are established across borders at local, regional and transborder levels.
- The present state of human migration.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Urban Planning, BSP (ARPUPBSP)

Campus: TEMPE

Program Description: Urban planners guide communities in making wise decisions about their use of land and resources. The B.S.P. in urban planning program offers students expertise in both the analysis and the synthesis of the physical, social, political and economic issues that shape urban and regional development. Students take courses that include:

- Comprehensive planning, socioeconomic and environmental analysis.
- Computer and analytical methods.
- Planning law.
- Public-policy formulation and administration.
- Site planning.
- Urban design.

Planning includes:

- Computer and research methods.
- Environmental impact assessment.
- Geographic information systems.
- Housing.
- Landscape architecture and urban design.
- Planning and zoning law.
- Public policy formulation and administration.
- Transportation.
- Urban and development economics.
- Utilities.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements:

Career Opportunities: Graduates in planning pursue career opportunities with private planning firms and governmental planning agencies. Some planners elect to pursue graduate degrees to develop specialty skills and to enhance their opportunities for career advancement.

Women and Gender Studies, BA (LAWSTBA)

Campus: TEMPE

Program Description: The B.A. in women and gender studies offers a comprehensive program of study that empowers students to make a difference in the world. Students learn to challenge conventional wisdom about gender and learn new ways of viewing the world through the study of:

- Culture.
- Economics.
- Film.
- History.
- Literature.
- Politics.
- Science.

Internship and leadership opportunities allow students to pursue career goals in:

- Business.
- Government.
- Nonprofit organizations.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: The interdisciplinary women and gender studies program prepares students for many different career opportunities upon graduation. Graduates have:

- Become consultants and counselors.
- Become lawyers.
- Become teachers.
- Created businesses.
- Secured careers in public relations.
- Worked in nonprofit organizations and agencies serving women and girls.
- Worked in policy and government.

Our graduates are also well prepared for graduate and law school and have been admitted to prestigious programs.

Nursing & Health Innovation, College of

Nursing, BSN (NUNURDBSN)

Campus: DTPHX, EAC, ONLNE

Program Description: Through a curriculum centered upon evidence-based practice, clinical reasoning, innovation, interprofessional communication and information technology, the B.S.N. program prepares students to provide the highest quality of professional nursing care. General education course work within the curriculum provides a strong foundation for the nursing theory and clinical or experiential courses. The degree may be earned through four different programs, as follows.

In the Traditional Pre-licensure Clinical Nursing Program (TPCNP) students take prerequisite course work in the first two to four semesters and then advance to the upper-division clinical nursing program, which takes four terms to complete. These last four terms may be completed in a year-round program in 16 months or an academic year program in 24 months. Some freshmen are directly admitted to this program, complete the prerequisites while meeting continuing eligibility requirements, and then advance to the upper-division clinical nursing program. Students not directly admitted may compete for remaining seats in the upper division clinical nursing program.

The R.N.-to-B.S.N. program is available to students who have recently earned an associate degree in nursing or a nursing diploma. This online program consists of upper-division nursing course work that may be completed in as few as 13 months. The Pathway program for students from several Arizona community colleges provides additional benefits.

The post-baccalaureate B.S.N. is available to students who have earned a bachelor's in a discipline other than nursing but desire to have a bachelor's in nursing. Students meet ASU General Studies requirements, selected nursing prerequisites, and a 12-month upper-division clinical nursing program. This program currently begins in spring semesters only.

In the Concurrent Enrollment Program (CEP) students are selected from the pool (queue) of MaricopaNursing students who have met all Maricopa-ASU CEP identified eligibility requirements. Selected students will be enrolled in the MaricopaNursing program and ASU B.S.N. courses concurrently. B.S.N. courses taken at ASU will be in iCourse format. This program takes four to six terms to complete and includes summer sessions.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements:

Traditional Pre-licensure Clinical Nursing Program Concentration

This program is only offered at the Downtown Phoenix campus.

Applicants who do not have an associate degree in nursing or a nursing diploma and do not have their R.N. license will apply to the Traditional Pre-licensure Clinical Nursing Program and will be reviewed by the Nursing Admissions Committee on an individual basis. Students must meet the following minimum criteria to be considered by the committee:

Freshman resident: 3.00 ABOR GPA or 500 GED, and either a 1040 SAT or 22 ACT score, or in the top 25 percent of high school graduating class.

Freshmen non-resident: 3.00 ABOR GPA or 500 GED and either an 1110 SAT or 24 ACT score, or in the top 25 percent of high school graduating class.

Transfer resident and non-resident: cumulative transfer GPA of 3.50.

Admission is competitive so early application is recommended.

R.N.-B.S.N. Concentration

This program is only offered as an online option.

Applicants must meet university minimum admission requirements.

Students who have not signed the community college pathway agreement need 1) a 2.50 GPA, and 2) ENG 101, ENG 102, and a statistic course.

For additional requirements, please see contact the college.

Students who have signed the community college pathway agreement need 1) a 2.50 GPA in the following courses: BIO 201, BIO 202, CHM 101, ENG 101, ENG 102, MIC 205, PGS 101 or CDE 232, and 2) a statistic course. For additional requirements, please see contact the college.

Additional information available at <http://asuonline.asu.edu/nursingonline> (<http://asuonline.asu.edu/nursingonline>), or call 877/511-3830.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated,7.5-week classes. View the program description and request more information here.

(<http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-science-nursing-rn-bsn>)

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Cochise College (<http://transfer.asu.edu/cochise>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Nursing (Clinical Nursing Program), BSN (NUNURCBSN)

Campus: DTPHX

Program Description: The post baccalaureate clinical nursing program concentration is designed exclusively for students who have already earned a baccalaureate or higher degree in another discipline. This academic program concentration is built upon the unique learner-centered attributes of the post baccalaureate student. The post baccalaureate clinical nursing program is delivered in three semesters or one calendar year.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements: Prior to admission to this program a student must satisfy all of the pre-requirements for this program concentration including:

- Attend a required advisement session with an academic success specialist from the College of Nursing & Health Innovation.

- Complete all pre-requisite courses prior to enrollment in the program concentration.
- Have a bachelor's degree.
- Meet all criteria for advancement.

Pre-requisites (35 credit hours)

BIO 201 Human Anatomy and Physiology I (4)
 BIO 202 Human Anatomy and Physiology II (4)
 CHM 101 Introductory Chemistry with Lab (4)
 MIC 205 and 206 Microbiology and Lab (4)
 HCR 240 Human Pathophysiology (4)
 HCR 220 Introduction to Nursing and Healthcare Systems (3)
 CDE 232 Human Development (3)
 PGS 101 Introduction to Psychology (3)
 NTR 241 Human Nutrition (3)

Statistics (3)

Criteria for advancement

- Minimum 3.50 select GPA in pre-requisite courses.
- Minimum score of 58.7% on Test of Essential Academic Skills (TEAS).
- Response to short answer/essay questions.
- Science courses (BIO 201, 202, CHM 101, MIC 205/206) must have been taken within seven years of beginning upper division nursing courses.

Career Opportunities: The United States and Arizona have an existing shortage of registered nurses. It is estimated that this shortage will reach epic proportions in the near future, as many nurses retire, while simultaneously the demand for health care services increases due to changes in population demographics. These changes in population demographics include an increased number of elder adults and the very young who utilize more health care services. To become licensed as a registered nurse, candidates must complete an associate degree in nursing, a diploma in nursing, or a baccalaureate degree in nursing. ASU currently offers two program concentrations that lead to the B.S.N. degree. They are the traditional prelicensure clinical nursing program, and the R.N./B.S.N. program. Employers prefer candidates prepared at the baccalaureate level, because research has demonstrated that morbidity and mortality are decreased when more baccalaureate prepared registered nurses provide nursing care to the patients. The addition of the post baccalaureate clinical nursing program will provide a third concentration or opportunity for students to earn a B.S.N., and another avenue to increase the number of registered nurses in the state of Arizona.

Public Programs, College of

Criminal Justice & Criminology, BS (PPCRIMJBS)

Campus: DTPHX, ONLNE

Program Description: The study of criminal justice and criminology involves analysis of the theories, laws, policies and practices associated with understanding criminal and delinquent behavior, the law and the response to violations of law. The program provides an interdisciplinary social science perspective to the study of crime and criminal justice. The focus is on:

- Criminal Justice policies and practices.
- The nature of crime and criminological theory.
- Various components of the criminal justice system, including law enforcement, corrections and the courts.

Students receive a solid foundation of course work that provides the content and analytical and communication skills required for working in

complex criminal justice occupations.

The program is offered from the Downtown Phoenix campus, and while most criminal justice and criminology courses are offered on that campus, students may also take criminal justice and criminology courses at the Tempe campus and online.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. (<http://ccj.asu.edu/>)

Nonprofit Leadership & Management, BS (PPNLMBS)

Campus: DTPHX

Program Description: Through the B.S. in nonprofit leadership and management program, students are empowered to become successful professionals who positively impact the community in which they work. The nonprofit sector in the United States is unique in form and function. This sector includes institutions and individuals situated between government, public and business entities. It is this sector, with more than 1.2 million organizations in the U.S., that mediates, innovates and promotes social causes and services.

Philanthropy (voluntary action for the public good) is a hallmark of the nonprofit sector as individuals give their time, money and know-how to causes about which they care. Students in the nonprofit leadership and management program learn about the nonprofit sector through curriculum instruction and field experience. The required internship component of the program leads students to professional opportunities within the nonprofit sector. Within the undergraduate degree requirements, students may also choose to pursue an American Humanics Certificate and subsequently earn national certification from American Humanics, Inc., which will prepare them to lead and strengthen nonprofit organizations. For more information, access the school's website.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Central Arizona College (<http://transfer.asu.edu/central-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Depending on their interests, graduates seek work in various areas of the nonprofit sector. They find employment in diverse settings that include affiliates of well-known national organizations, such as:

- American Red Cross.
- America's Second Harvest.
- Humane Society of the United States.
- March of Dimes.
- National Urban League.
- United Way.
- Youth-serving entities such as Big Brothers Big Sisters, Boys and Girls Clubs, Boy Scouts of America, Girl Scouts of the USA, Camp Fire USA and the YMCA of the USA.

Increasing opportunities in the nonprofit sector include careers across the spectrum of community issues such as the arts, environment, health care and others. Typical positions include roles as:

- Development directors.
- Field executives.
- Program directors.
- Volunteer coordinators and similar positions from a variety of agencies and organizations.

Parks & Recreation Management, BS (PPPRMBS)

Campus: DTPHX

Program Description: The B.S. in parks and recreation management provides an interdisciplinary education in the management of parks, protected areas, community-based recreation services and special-event management. The parks and recreation field emerged from the youth development, recreation and park movements of the late 19th century. Students learn to integrate the managerial, natural and social sciences, to make informed decisions for recreation service delivery.

The curriculum of classroom instruction and field experiences covers:

- Communication.
- History.
- Inclusive services.
- Management.
- Parks and recreation policy.
- Planning.
- Programming.

The required internship component of the program allows students to gain practical experience in the parks and recreation professions. The B.S. in parks and recreation management prepares students for professional positions in a variety of public, private and nonprofit organizations. The National Recreation and Park Association accredits this degree program. There are three areas of emphasis:

- Community recreation services management.
- Natural resource recreation management.
- Special event management.

Students interested in the B.S. in parks and recreation management may also be interested in the school's therapeutic recreation program. See the school website for details.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: This degree program prepares students for professional positions in a variety of public, private and nonprofit organizations. Graduates are employed in a variety of settings in Arizona, nationally and abroad. Graduates find employment in such diverse settings as:

- City park and recreation departments.
- County and state park agencies.
- Federal natural resource agencies.
- Hospitals.
- Special event management.
- Sport venues.
- Tour operations.
- Youth agencies.

In such settings, graduates design, develop and manage services that address the recreational needs of a particular clientele.

Parks & Recreation Management (Therapeutic Recreation), BS (PPRMTRBS)

Campus: DTPHX

Program Description: The B.S. in parks and recreation management with a concentration in therapeutic recreation is the only program in Arizona that prepares students for national professional certification in therapeutic recreation. The program is designed for students who have an interest in providing therapeutic interventions and adaptive recreation services for individuals with social problems, illnesses and disabling conditions. The required internship component of the program allows students to gain practical experiences in the therapeutic recreation field. Students who choose this concentration are truly committed to improving people's lives and contributing to their communities.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Public Service & Public Policy, BS (PPPAFBS)

Campus: DTPHX

Program Description: The B.S. in public service and public policy prepares students for work in government at all levels and nonprofit organizations, through comprehensive coverage of topics in public policy, public leadership and management, and urban studies. Students discover the challenges of management and learn how to lead a public organization and understand the process of policy development. This program examines the public sector and addresses, in a practical way, the challenges facing the public. The program is unique, because it enables students to study public service, policy and administration with a professional focus. Students select one of the following concentration areas to supplement their core courses.

- Public Policy
- Urban Studies
- Public Leadership and Management
- Sustainability
- Criminology
- Nonprofit Leadership and Management
- Parks and Recreation Management

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Career Opportunities: This degree provides students with the knowledge and skills to transform government and policy at all levels. The public service sector offers sustainable, exciting and fulfilling career options. Upon graduation, students will be empowered to use knowledge of the public sector as a catalyst to change the world. By understanding the challenges facing government and being well-versed in the development of multiple, useful and realistic solutions, students will contribute to the development of local, national and global communities.

A B.S. in public service and public policy prepares students for entry- and mid-level supervisory and managerial positions in city, county, state and federal agencies. For those who already have work experience, the degree provides further opportunity for promotion.

Public Service & Public Policy (Sustainability), BS (PPPAFSBS)

Campus: DTPHX

Program Description: The B.S. in public service and public policy prepares students for work in government at all levels and nonprofit organizations through comprehensive coverage of topics in public policy, public leadership and management, and urban studies. Sustainability continues to be a highly sought after area and it presents broad policy implications. Through this concentration, students who have an interest in public policy can explore the policy implications of sustainability and broaden their educational experience while concentrating in an area that is in high demand.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Career Opportunities: The program is primarily focused on individuals working or seeking work in the public sector. The skills and knowledge students acquire allow them to successfully function in many other types of organizations, though the primary focus is on public organizations. A bachelor's in public service and public policy prepares students for entry and mid-level supervisory and managerial positions in city, county, state and federal agencies. For those who already have work experience, the degree provides further opportunity for promotion.

The sustainability concentration provides students with more specialized knowledge about the policy implication of sustainability-related decisions and action.

Public Service and Public Policy (Criminology), BS (PPPAFCBS)

Campus: DTPHX

Program Description: The School of Public Affairs (SPA) offers a concentration in criminology as part of their B.S. in public service and public policy. Criminology continues to be a highly sought after area and it presents broad policy implications. Through this concentration, students who have an interest in public policy can explore the policy implications of criminology and broaden their educational experience while concentrating in an area that is in high demand.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Career Opportunities: The program is primarily focused on individuals working or interested in working in the public sector. The skills and knowledge students acquire allow them to successfully function in many other types of organizations; however the primary focus is on public organizations. A B.S. in public service and public policy prepares students for entry and mid-level supervisory and managerial positions in city, county, state and federal agencies. For those who already have work experience, the degree provides further opportunity for promotion. The criminology concentration provides students with more specialized knowledge about the policy implication of criminology-related decisions and action.

Social Work, BSW (PPSWUSWU)

Campus: DTPHX

Program Description: Social work practitioners are committed to the enhancement of individual, family and group problem-solving capacities and the creation of a more nurturing, just and humane social environment. The undergraduate curriculum leads to a B.S.W. Juniors and seniors majoring in social work focus on social work courses in social policy and services, human behavior in the social environment, social work practice, research and field instruction in community agencies. In addition, majors take elective courses in related areas.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Arizona Western College (<http://transfer.asu.edu/az-western>)
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)
Pima Community College (<http://transfer.asu.edu/pima>)

Career Opportunities: The B.S.W. practitioner is a generalist focusing on roles such as advocacy, referral, case management and problem-solving functions with individuals, groups, families, organizations and the community.

Employment in social work is expected to increase commensurately with the needs of a growing and diverse population.

Social workers are employed in public and private agencies dealing with a wide variety of social issues, including:

- Adoptions.
- Aging.
- AIDS.
- Child abuse.
- Corrections.
- Delinquency.
- Disability.
- Discrimination.
- Domestic violence.
- Family dysfunction.
- Foster care.
- Health.
- Homelessness.
- Mental health.
- Poverty.
- School-related problems.
- Substance abuse.
- Teen pregnancy.

Social work skills such as problem-solving, resource utilization, counseling, group work and community organization are also useful for positions with industry in employee relations and mediation.

Tourism Development & Management, BS (PPTDMBS)

Campus: DTPHX

Program Description: Through the B.S. in tourism development and management, students acquire the planning and management skills related to the growth and development of tourism throughout the world. The curriculum prepares students for employment across a wide variety of occupations in the rapidly expanding travel and tourism industry, while taking full advantage of its strong connections with the professional tourism community in Phoenix.

The required internship component of the program allows students to gain practical experiences leading to professional positions in various travel, tourism and related fields. Exposure to the businesses of heritage tourism, sustainable tourism, resort management and meeting and convention planning prepare students for successful careers in the travel and tourism industry. While pursuing the bachelor's in tourism development and management, a student may also choose to complete a certificate in convention sales and meeting planning. Additionally, students have the opportunity to participate in a study abroad program.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: The travel and tourism industry is the largest employer in the world and the second largest in Arizona. Based upon interests, graduates can seek work in the public, nonprofit or private and commercial sectors. Graduates find employment in such diverse settings as resorts, meeting planning, convention and visitor bureaus, tour operations and commercial recreation businesses. In such settings, graduates design, develop and manage services that address the needs of a particular clientele. The metropolitan Phoenix area is a major hub of tourism in the southwestern U.S. and has experienced rapid growth in:

- Business and corporate travel.
- Meetings and conventions.
- Resorts and hotels.

- Sports tourism.
- State and national parks.
- The air transportation sector.
- The gaming and casino sectors.

Tourism Development & Management (Resort and Accommodations Leadership), BS (PPTDMRBS)

Campus: DTPHX

Program Description: The concentration in resort and accommodations leadership will attract students and professionals who have interests in the diverse areas of knowledge needed within the accommodations sector, such as:

- Career opportunities.
- Ecological, social and economic sustainability practices in the industry.
- The interrelated functions within departments of the lodging and food and beverage industries.
- Management and leadership specifically for the accommodations sector.
- Meeting the expectations of hotel and resort guests.

A concentration in resort and accommodations leadership will provide students an academic option to study in-depth the resort and accommodations system/sector and gain knowledge of the importance of the business relationships between suppliers, intermediaries/vendors, guests and the public and private sectors. The concentration will prepare students to serve our community by developing the skills, knowledge, techniques and capabilities needed for addressing major issues related to resorts and other tourism accommodations.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Career Opportunities: There are a variety of job opportunities for resort or hotel professionals, ranging from entry level as a management trainee to an assistant manager or manager in various departments such as:

- Catering and banquet manager.
- Convention sales manager.
- Front desk manager.
- Guest services manager.
- Room division manager.
- Sales and marketing manager.

Tourism Development and Management (Sustainable Tourism), BS (PPTDMSBS)

Campus: DTPHX

Program Description: The tourism development and management major provides students with the theoretical understanding necessary to maneuver the complexities of one of the world's largest industries. A concentration in sustainable tourism allows majors to hone their understanding of the key concepts of sustainability and how these can be applied to tourism destinations and development. Students will learn the dominant theories and language that make up sustainability science and the skills necessary to measure, create and implement sustainability policies in

tourism destinations, from the planning to the management stage of development. Students will take courses offered by the School of Sustainability in addition to courses in the School of Community Resources and Development, guaranteeing a strong foundation in the basic theories of the growing discipline of sustainability while applying these newfound skills to tourism development and management.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Career Opportunities: The area of sustainable tourism is becoming increasingly important. Many tourism businesses are hiring sustainability coordinators, including hotels, airlines, convention and visitor bureaus and large attractions. Tour companies, such as those that implement ecotourism and volunteer tourism experiences, are especially interested in employees with a strong sustainable tourism background. Numerous sustainable tourism nonprofit organizations have emerged in recent years, and many government-related tourism organizations also hire those with a strong sustainability focus. As well, consulting opportunities are available to assist tourism businesses with development of sustainable practices.

Urban & Metropolitan Studies, BA (PPURBBA)

Campus: DTPHX

Program Description: Located in the heart of downtown Phoenix, the urban and metropolitan studies program is for students who have a yearning to study and understand urban theory, in order to effectively address the challenges of rapid growth, along with other contemporary urban issues.

Students discover what makes the city tick - and the city is their classroom. They examine challenges and solutions by researching history, society, culture, economy and politics in order to understand urban theory. They use that knowledge to get involved in their communities; giving them an outlet through which they can experience practical ways of solving complex problems faced by metropolitan regions. Our students are invested in their neighborhoods. Many of them live and work downtown. In the urban and metropolitan studies program, they learn how to improve urban health and well-being, often training themselves to be the future leaders of our urban environments. Our students don't stop there; others focus on making a wide variety of other contributions to society, studying the role of arts and culture, business and property development, revitalization and community-building in the life of the region.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Career Opportunities: The urban and metropolitan studies program prepares students for work in a wide range of fields. The interdisciplinary approach of the program allows graduates to successfully enter fields as diverse as:

- Architecture and finance.
- City management and policy.
- City planning and law.
- Nonprofit management.
- Real estate development.

Graduates from this program work in public, private and not-for-profit fields dedicated to improving urban life. Many graduates also pursue advanced degrees in:

- Arts administration.
- Business.
- Education.
- Historic preservation.Law.
- Journalism.
- Public policy.
- Public administration.

- Real estate development.
- Urban planning and other fields.

Sustainability, School of

Sustainability, BA (SUSUSTBA)

Campus: TEMPE

Program Description: The B.A. in sustainability introduces students to the concept of sustainability in the context of real-world problems, exploring the interaction of environmental, economic and social systems. Although the program is transdisciplinary, the bachelor's in sustainability is best suited to those inclined toward social sciences, planning or related fields.

Students pursuing a bachelor's in sustainability can pursue the following tracks:

- International development and sustainability.
- Policy and governance in sustainable systems.
- Society and sustainability.
- Sustainable urban dynamics.

Students will gain a general understanding of sustainability issues at the local, regional and global levels. They will be adaptable, capable of learning and communicating across a number of disciplines, and have a strong orientation toward problem solving.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: SOS 101 - Intro Appl Math Life & Soc Sci

Admission Requirements: The School of Sustainability has higher admission requirements. Applicants must select a second choice for their major on the application. Students who are not admitted to the School of Sustainability and who did not select a second major or are not admissible to the second major choice will be admitted to the exploratory social and behavioral sciences program within University College. Students with more than 45 transfer hours who are not admissible to University College will be contacted to select an appropriate major.

Freshman applicants must meet the following standards:

- Have a minimum high school ABOR GPA of 3.30; AND
 - A high school class rank in the top 15 percent of class; OR
 - An SAT combined score of 1140 or higher; OR
 - An ACT combined score of 25 or higher.
- No high school math competency deficiency.

Transfer students (with 12 or more transfer hours after high school graduation) are required to have a cumulative transfer GPA of 3.30 or higher.

ASU students who would like to change their major to sustainability are required to have a cumulative ASU GPA of 3.30 or higher (based on at least 12 credit hours).

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: School of Sustainability graduates are prepared for admission into other prestigious universities. They may also assume positions in:

- Consultancy.
- Governmental agencies.
- Industry.
- Nongovernmental organizations.
- Nonprofits.
- Regulatory agencies.
- Utilities.

Recent interest in sustainability within business and government has created new employment opportunities (e.g., sustainability coordinators, directors and managers). By engaging a breadth of knowledge and experience, and by acquiring the skills to integrate various domains of

knowledge, sustainability students prepare themselves for a variety of careers, to help find solutions to sustainability challenges.

Teachers College, Mary Lou Fulton

Early Childhood Education, BAE (EDECDBAE)

Campus: POLY, TEMPE, WEST

Program Description: The B.A.E. in early childhood/early childhood special education program in the Mary Lou Fulton Teachers College is available at the Polytechnic, Tempe and West campuses. This program prepares students for Arizona certification in early childhood education (birth - grade three) and early childhood special education (birth - age 5). This program has a special emphasis on community connectedness, technology integration, administration, policy analysis and advocacy related to young children and their families with and without disabilities or developmental delays. Program faculty have received numerous national awards for their work in the field of early childhood education. Each semester during the professional program, students engage in field experiences and student teaching that prepare them for work in early childhood and special education settings. Graduates are recommended for the Arizona birth-through-grade-3 teacher certification, an early childhood special education certification and a provisional endorsement to work with English language learners. All graduates desiring to teach in a public school preschool and kindergarten or the primary grades must pass the state certification test in content area knowledge and professional knowledge to obtain certification in Arizona.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements:

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Changes in Arizona state certification will require all individuals teaching in public schools, early childhood programs and serving children birth through kindergarten to meet new early childhood certification or endorsement requirements by 2012. According to a policy study on the condition of early childhood education in 2005, the demand for early childhood teachers in Arizona is much greater than the current supply. Thus, job opportunities in center-based programs and public school early childhood programs are numerous. Many graduates with a degree in early childhood teaching and leadership hold leadership positions in Head Start, private nonprofit and private for-profit, center-based programs and public school early childhood centers. In a recent survey conducted at graduation, a majority of seniors reported that they had received job offers.

Secondary Education (Biological Sciences), BAE (TEBIOBAE)

Campus: POLY, TEMPE, WEST

Program Description: The B.A.E. in secondary education program prepares educators who wish to teach students in seventh through 12th grades. While students develop a strong theoretical background, the program focuses on developing the requisite teaching knowledge and abilities to be successful middle or high school teachers. In order to integrate teacher education preparation with the secondary education requirement for an academic specialization, the college maintains connections with academic departments across the university. Field experience and student teaching are required components of this degree.

Secondary education in biological sciences is offered on ASU's Tempe, West and Polytechnic campuses. All graduates of this program must pass state certification tests in content area knowledge and professional knowledge. Please consult an academic success specialist for additional information.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Career Opportunities: Graduates from secondary education are recommended for certification in grades seven through 12 and have the option of pursuing a middle grade endorsement that provides the ability to teach grades five and six, along with seven through 12.

According to recent research on teacher supply and demand, the demand for well-prepared secondary teachers is strong, particularly in the areas of math and science. Job opportunities in a fast growing state such as Arizona are numerous. Many graduates with a degree in secondary education work in public schools, charter schools and in private school settings. A degree in secondary education provides students with knowledge and skills required for job opportunities in various educational settings. In a recent survey conducted at graduation, a majority of seniors reported they had received job offers.

Secondary Education (Business), BAE (EDBUSBAE)

Campus: POLY, TEMPE, WEST

Program Description: The B.A.E. in secondary education program prepares educators who wish to teach students in seventh through 12th grades. While students develop a strong theoretical background, the program focuses on developing the requisite teaching knowledge and abilities to be successful middle or high school teachers. In order to integrate teacher education preparation with the secondary education requirement for an academic specialization, the college maintains connections with academic departments across the university. Field experience and student teaching are required components of this program.

Secondary education in business is offered primarily on ASU's Tempe campus. Students have the option to take the iTeachAZ courses at Polytechnic, Tempe and West campuses. All graduates of this program will have to pass state certification tests in content area knowledge and professional knowledge. Please consult an academic success specialist for additional information.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Secondary Education (Physical Education), BAE (ECPPEBAE)

Campus: POLY

Program Description: The physical education concentration under the B.A.E. in secondary education prepares future teachers to delivery quality K-12 physical education programs. This program is unique in its practice-oriented focus on intensive field experiences, practical application of current knowledge, a field-tested and widely used curriculum and classroom management model, and an emphasis on current technology. The curriculum directly aligns with Arizona's standards for teachers and the National Association for Sport and Physical Education's beginning teacher standards.

During the first two years of the program, students explore education as a career field and gain experience in local community schools and agencies. During the final two years, students complete content specific teaching methodology courses and intensive field experiences at the elementary and secondary levels. Course instructors use their experience teaching in a variety of K-12 settings and coaching environments to augment class experiences with many practical applications.

Secondary education in physical education is offered in its entirety on ASU's Polytechnic campus. All graduates of this program must pass state certification tests in content area knowledge and professional knowledge. Please consult an academic success specialist for additional information on this major.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Admission Requirements: Students will be admitted to the preprofessional status and must complete additional requirements for entrance to the professional status. See department web site for more information.

Career Opportunities: Graduates specializing in physical education receive a secondary teaching certificate with a K-12 endorsement. According to recent research on teacher supply and demand, the demand for well-prepared secondary teachers is strong, particularly in the areas of math and science. Job opportunities in a fast growing state such as Arizona are numerous. Many graduates with a degree in secondary education work in public schools, charter schools and in private school settings. A degree in secondary education provides students with knowledge and skills required for job opportunities in many educational settings. Special Education, BAE (TESPEBAE)

Campus: DTPHX, POLY, TEMPE, WEST

Program Description: The B.A.E. in special education/elementary education in the Mary Lou Fulton Teachers College is available at all campuses. This dual certificate program prepares students to work with children with mild disabilities in inclusive settings. The program offers students a firm grounding in academic content with current research and best practices, accompanied by real-world classroom experiences. Students engage in field experiences and student teaching that aligns with their special education and elementary education academic programs. Faculty members in the program are nationally recognized for their work in the field of education.

All students graduate from the program with extensive experience in integrating technology into teaching and a provisional endorsement to work with English-language learners. This is a dual-certificate program, which leads to certification in special education for K-12 in mild cross-categorical disabilities and elementary education for first-through-eighth grade certification. All graduates of this program must pass state certification tests in content area knowledge and professional knowledge.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities: National and state studies report the projected need in the next five to 10 years will be extremely high for special education teachers. Graduates of the B.A.E. in special education/elementary education program will be eligible to teach K-12 for the spectrum of high incidence disabilities (learning disabilities, behavior disabilities and mild mental retardation) in a variety of educational environments, including public, charter and private schools. In a survey conducted at graduation, a majority of seniors reported they had received job offers.

Technology & Innovation, College of

Aeronautical Management Technology (Air Transportation Management), BS (TSAMTMBS)

Campus: POLY

Program Description: The air transportation management concentration, under the B.S. in aeronautical management technology, prepares students for leadership positions in the on-ground areas of the aviation industry, including management of air carriers or airports, airport planning or general aviation operations.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Career Opportunities: A degree in air transportation management prepares graduates for these careers:

- Air carrier manager.
- Airport manager.
- Aviation consulting.
- General aviation operations manager.
- Governmental positions, with the FAA, DOT, NTSB.

Aeronautical Management Technology (Professional Flight), BS (TSAMTFBS)

Campus: POLY

Program Description: Students in this program learn to fly in an academic environment that perfectly prepares graduates for a career as a private or commercial pilot. Flight training is offered through an Airline Bridge Training Program in conjunction with Mesa Pilot Development, the primary flight training arm of Mesa Airlines. Graduates are guaranteed an interview with Mesa Airlines upon completion of their degrees.

Arizona's clear skies offer the best flying environment in the country, but students also have access to state-of-the-art simulators, including two full motion-based regional jet flight simulators and a regional jet flight training device. Other facilities, like the high altitude simulation chamber, provide students with educational opportunities unique among collegiate aviation academic programs.

The professional flight concentration, under the B.S. in aeronautical management technology, is for students who are seriously interested in becoming professional airline pilots. Graduates are prepared to assume responsibilities in a wide variety of technically related areas within professional aviation flight operations.

The Aviation Accreditation Board International accredits this program and the Federal Aviation Administration (FAA) certifies flight instruction.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: This major has additional admission requirements including Federal Aviation Administration requirements. Students will be admitted to the pre-professional status and then complete additional requirements for admission to the professional program. See <http://eastair.poly.asu.edu/> (<http://eastair.poly.asu.edu/>) for more information.

Career Opportunities: The professional flight concentration offers students private pilot, commercial pilot and flight instructor certificates, as well as instrument pilot, instrument instructor and multiengine pilot ratings. With these flight qualifications and the technically based bachelor's, the graduate has a wide variety of career opportunities, including flight crew service on commercial and business aircraft.

Agribusiness (Agribusiness Science), BS (AGAGBPBS)

Campus: POLY

Program Description: By adding a concentration in agribusiness science/pre-veterinary, students can build on course work in chemistry and biology, to open opportunities for further study, including veterinary medicine. Others may seek to apply their science knowledge in the human or veterinary pharmaceutical industries or in the food industry, focusing on processing, production and food safety.

The agribusiness industry is increasingly competitive, sophisticated and global, driving demand for innovative leaders who understand the industry's unique challenges and practices. The programs offered through the highly respected Morrison School of Agribusiness and Resource Management prepare graduates for success in graduate school or a wide range of careers.

The B.S. in agribusiness teaches students the business of agricultural production, finance, marketing and distribution. Through a technology-rich curriculum that focuses on real-world projects, students explore global agribusiness issues such as international trade, food safety and sustainability.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Career Opportunities: Accounting for more than 50 percent of the global economy and employing 25 percent of Americans, agribusiness brings food from the farm to the global table. Possible career paths include management, marketing, finance and technical positions with private agribusiness firms and governmental agencies, as well as veterinary medicine.

Agribusiness (Global Agribusiness), BS (AGAGBGABS)

Campus: POLY

Program Description: The agribusiness industry is increasingly competitive, sophisticated and global, driving demand for innovative leaders who understand the industry's unique challenges and practices. The programs offered through the highly respected Morrison School of Agribusiness and Resource Management prepare graduates for success in graduate school or a wide range of careers.

The B.S. in agribusiness teaches students the business of agricultural production, finance, marketing and distribution. Through a technology-rich curriculum that focuses on real-world projects, students explore global agribusiness issues such as international trade, food safety and sustainability.

The concentration in global agribusiness is an applied, industry-oriented curriculum. This concentration is specifically designed to meet the needs of the students interested in studying the business aspects of agriculture in the domestic and global economy. Students learn to analyze and manage issues involved in food manufacturing, input and output supply activities, commodity trading and food distribution.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program

(<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Accounting for more than 50 percent of the global economy and employing 25 percent of Americans, agribusiness brings food from the farm to the global table. Possible career paths include management, marketing, finance and technical positions with private agribusiness firms and governmental agencies, as well as veterinary medicine.

480-727-1784

Air Traffic Management, BS (TSATMBS)

Campus: POLY

Program Description: The B.S. in air traffic management provides a technical foundation in air traffic control procedures and operations for students interested in becoming air traffic controllers who ensure safe, orderly and expeditious flow of aircraft traffic on the ground and in the air. Students gain a strong background in aircraft operations, management skills and business principles through course work specific to air traffic control.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Admission Requirements: This major has additional admission requirements including Federal Aviation Administration requirements. Students who do not have US citizenship status cannot be admitted to the program. Students will be admitted to the pre-professional status and then complete additional requirements for admission to the professional program. See www.poly.asu.edu/aviation for more information.

Career Opportunities: It is estimated that the Federal Aviation Administration (FAA) will hire approximately 15,000 air traffic controllers in the next 10 years. Increases in the volume of air traffic will require more controllers to handle the additional work. New computerized systems will assist controllers by automatically making many of the routine decisions. This will allow controllers to handle more traffic, thus increasing their productivity. To prepare for this challenge, students receive training in the methodologies and technologies that are currently being developed for the Next Generation Air Traffic Control Systems. Despite the obvious demand for new controllers in the immediate future, competition to get into the FAA-approved training programs is expected to remain intense, as there generally are many more applicants than there are openings. Graduates from this program have an excellent opportunity of being hired as air traffic controllers.

Applied Biological Sciences (Applied Biological Sciences), BS (TSABSABS)

Campus: POLY

Program Description: The applied biological sciences concentration provides students with an opportunity to prepare for applied professional studies in many health fields such as medicine, dentistry, veterinary or other related fields. This concentration is also well suited for who have a non-specific interest in the biology or plan on continuing to graduate school in the biological sciences. Students interact with faculty in classrooms, use state-of-the-art labs and, when appropriate, attend outdoor settings that may include the Sonoran desert, surrounding ecosystems and the landscape of the greater Phoenix area.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from

Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Graduates can pursue entry-level careers in wildlife and restoration ecology, urban horticulture and secondary education.

The general program in applied biological sciences prepares graduates to succeed in graduate and professional schools in disciplines such as:

- Animal health.
- Dentistry.
- Ecology.
- Environmental biotechnology.
- Horticulture.
- Medicine.
- Physical therapy.
- Veterinary medicine.
- Wildlife biology.

Applied Biological Sciences (Secondary Education in Biology), BS (TSABSSBS)

Campus: POLY

Program Description: The secondary education in biology concentration of the B.S. in applied biological sciences qualifies students for state of Arizona certification in secondary biology education. The concentration is a rigorous science-based curriculum, providing graduates with the ability to address, in the classroom, a wide range of biological and environmental issues. Students will have advisors in the College of Technology and Innovation and Mary Lou Fulton Teachers College.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Career Opportunities: Graduates can pursue numerous entry-level careers in biology. Specific career fields include secondary education, wildlife and restoration ecology and urban horticulture. Employment opportunities exist in private and public sectors. The general program in applied biological sciences also prepares graduates to succeed in graduate or professional schools in disciplines such as:

- Animal health.
- Dentistry.
- Ecology.
- Environmental biotechnology.
- Horticulture.
- Medicine.

Applied Biological Sciences (Urban Horticulture), BS (TSABSUBS)

Campus: POLY

Program Description: The urban horticulture concentration, under the B.S. in applied biological sciences degree, focuses on the relationship of plants and people in urban and suburban environments, with major emphasis given to the sustainability of these environments. Set in a unique Southwestern desert location, students learn how to practice urban horticulture principles and develop skills to create aesthetically pleasing urban environments. This approach is coupled with an appreciation of environmental conservation and stewardship.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Applied Biological Sciences (Wildlife & Restoration Ecology), BS (TSABSRBS)

Campus: POLY

Program Description: The wildlife and restoration ecology concentration focuses on the application of ecological principles to the management of wildlife and the restoration of ecosystems. The concentration examines the management of wildlife species and their habitat and emphasizes the reconstruction of degraded ecosystems, to improve ecological structure and function and meet societal needs for sustainable and functional ecosystems. Students interact with faculty in classrooms, use state-of-the-art labs and, when appropriate, attend outdoor settings that may include the Sonoran desert, surrounding ecosystems and the landscape of the greater Phoenix area. Knowledge and skills learned prepare students for careers as biologists, resource managers, range managers, wildlife managers, environmental consultants, other professional areas or graduate studies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Applied Computer Science, BS (TSAC SBS)

Campus: POLY

Program Description: The B.S in applied computer science provides students with an education that targets the computing profession. Students will learn to use mathematics, science and economics, along with technological knowledge and skill in the application of programming languages and software processes, to design, analyze, implement and test software systems and applications. The program is problem and project based, utilizing the languages, tools and methods of computing best practices.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Career Opportunities: Graduates find opportunities as members of an engineering team in software applications areas such as the Web, databases, limited devices (cell phones), networks and security. The current demand for software and computer hardware personnel is high, and the starting salaries for these employees are typically well above the average.

Applied Psychology, BS (ECPSYBS)

Campus: POLY

Program Description: Students in the applied psychology program become experts in human performance. They apply the methods of

experimental psychology and cognitive science to a wide variety of domains, such as product usability, sports performance and workplace and hospital safety.

A broad range of professions needs experts in human factors to work on problems that involve design, training and assessment. Students gain real-world experience by tackling projects that examine cutting-edge issues, such as cell phones as a source of driver distraction, detection of improvised explosive devices, process optimization in health care and even control of unmanned vehicles.

Interest areas include:

- Aviation human factors.
- Cognitive performance.
- Consumer psychology.
- Effective teamwork.
- Health psychology.
- Learning optimization.
- Social cognition.
- Threat detection.
- User-centered design.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Career Opportunities: Most careers in psychology require a master's or a doctorate, but an undergraduate degree with an emphasis in human factors can lead to many lucrative employment opportunities. We routinely place our top undergraduate students in internships in government laboratories or at leading companies in the fields of technology, training and transportation, and many of these opportunities turn into careers. Our emphasis on usability design and applied experimental and statistical methodologies provide students with a skill set that is highly sought by today's leading businesses.

Applied Science, BAS (TSAPSBAS)

Campus: POLY

Program Description: The B.A.S. program is a flexible degree plan designed specifically for students who hold an A.A.S. from an accredited community college. This major combines the technical experience gained in the student's associate's degree program with a broader educational experience in management, leadership, critical thinking and communications. Students in the B.A.S. program select one of eight offered concentrations:

- Aviation management technology.
- Electronic and energy systems.
- Emergency management.
- Graphic information technology.
- Internet and Web development.
- Manufacturing technology and management.
- Operations management technology.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements: Students applying to this program must have completed an Associate of Applied Science (AAS) degree. This program is not available for freshmen.

Career Opportunities: The wide range of concentrations provides graduates diverse career opportunities. B.A.S. program course work gives the graduate greater skills to be successful as a professional working in a technical area. Graduates have the ability to supervise and manage people in highly specialized technical and service industry positions.

Applied Science (Aviation Management Technology), BAS (TSAMTABAS)

Campus: POLY

Program Description: The B.A.S. program is a flexible, 60-credit-hour degree designed specifically for students who have earned an A.A.S. from a regionally accredited institution.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements: Students applying to this program must have completed an Associate of Applied Science (A.A.S.) degree from a regionally accredited institution. Not available for freshmen.

Career Opportunities: The concentration in aviation management technology is for students who have received training and education in some aspect of the air transportation industry (other than aviation maintenance), such as flight certificates and ratings as part of their associate's degree. Students receive an orientation in management practices that prepares them for advanced positions in the aviation management field.

Applied Science (Electronic Energy Systems), BAS (TSEESBAS)

Campus: POLY

Program Description: The B.A.S. program is a flexible degree designed specifically for students who have earned an A.A.S. from a regionally accredited institution.

The electronic and energy systems concentration serves students with an electronics background via three paths or emphasis areas - alternative energy, electronic systems and integrated electronic systems (focused on the semiconductor industry).

The alternative energy technologies emphasis explores various alternative energy resources. At the heart of the program is the solar-hydrogen cycle, a renewable energy scenario that includes the production of electricity from solar energy and utilization of that electricity to split water into its elemental parts. This program provides hands-on laboratory experience on energy conversion and storage technologies, including photovoltaics, fuel cells, batteries, electrolyzers and supercapacitors.

The electronic systems emphasis allows students to continue to develop a knowledge of electrical and electronic fundamentals, with an applications perspective and a focus on the general topics of microcontrollers and advanced digital controllers and how these are used in industry.

The integrated electronic systems emphasis covers the processes and technology used to develop, design, manufacture and exploit integrated electronic functions on silicon, in packages and on boards. The program provides hands-on laboratory experience in integrated circuit device fabrication and manufacturing in a setting that emulates industry.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements: Students applying to this program must have completed an Associate of Applied Science (A.A.S.) degree from a regionally accredited institution. Not available for freshmen.

Career Opportunities: Graduates from the alternative energy emphasis are able to work in a number of different companies involved in alternative energy. These companies may be traditional energy production companies expanding into new production technologies, or start-up companies involved in solar energy or fuel cells.

Graduates from the electronic systems emphasis are able to work as members of engineering teams in applied design, product development, manufacturing, production or operations. They may also be employed in technical services capacities, including field engineering, marketing or sales.

Graduates from the integrated electronic systems emphasis work in integrated circuit processing, testing, field applications and as system integrators.

Campus: POLY

Program Description: The B.A.S. program is a flexible, 60-credit-hour degree designed specifically for students who have earned a relevant A.A.S. from a regionally accredited institution.

The concentration in graphic information technology prepares graduates in the cross-media graphic industry that includes:

- 3-D modeling.
- Animation.
- Commercial digital photography.
- Gaming.
- Internet and Web development.
- Multimedia.
- Printing and digital publishing.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements: Students applying to this program must have completed an Associate of Applied Science (A.A.S.) degree in computer graphic design, digital arts, digital photography, eLearning design specialist, game technology, graphic design, animation and web publishing design, graphic design: visual communication, information technology: web and graphic design, media arts: desktop publishing, media arts: web design, multimedia, multimedia and business technology, and video production technology.

Career Opportunities: Graduates of the program, which combines technical course work with management content, are prepared to assume supervisory positions in industry such as:

- Animation specialist.
- Art director.
- Commercial photographer.
- Customer service representative.
- Graphic designer.
- Plant manager.
- Production manager.
- Quality assurance manager.
- Web developer.

The technical graphics option prepares graduates for positions in industries implementing technical and engineering graphics in computer-aided design and computer-integrated manufacturing.

The website design option prepares graduates for careers in the ever-expanding arena of website design and publishing.

The digital publishing option prepares graduates for lead technical and entry-level management positions in the printing and publishing industry.

The digital media management option prepares graduates for technical positions in industries implementing, planning and producing interactive communications.

Applied Science (Operations Management), BAS (TSIMCOBAS)

Campus: ONLNE, POLY

Program Description: The B.A.S. program is a flexible, 60-credit-hour degree designed specifically for students who have earned an A.A.S. from a regionally accredited institution.

The concentration in operations management technology provides the tools needed for success as a manager. An effective manager is someone who:

- Effectively uses available resources to create quality products or services and accomplishes unit goals.
- Hires qualified workers who can do the job or can be trained or educated to perform the job.
- Motivates and develops the workforce.
- Organizes work.
- Understands the work environment; creates a safe and healthful work environment.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident

tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements: Students applying to this program must have completed an Associate of Applied Science (A.A.S.) degree from a regionally accredited institution. Not available for freshmen.

Career Opportunities: The B.A.S. in operations management technology prepares undergraduate students for supervisory and management functions in industry, manufacturing, public service and other service organizations.

Applied Science (Software & Computing Systems), BAS (TSCSTBAS)

Campus: POLY

Program Description: The B.A.S. program with a concentration in software and computing systems is a 60-credit-hour degree designed specifically for students who have earned an A.A.S. from a regionally accredited institution. Students are expected to have an A.A.S. with course work in object-oriented programming, data structures and microcomputer organization/assembly language programming to enroll in upper-division major courses. Upper-division course work and laboratories are offered in two emphasis areas, culminating in a capstone senior project.

The computer systems administration area will broaden and deepen knowledge in networked computer systems. Graduates will be prepared to specify, install, maintain and administer various computer-networking systems.

The cyber security area will broaden and deepen knowledge in securing systems, intrusion detection and various other aspects of information assurance and cyber forensics. Graduates will understand the various threats to computer-networking systems and best practices for securing systems from these threats.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements: Students applying to this program must have completed an Associate of Applied Science (A.A.S.) degree from a regionally accredited institution. Not available for freshmen.

Career Opportunities: The program exposes students to advanced concepts and critical thinking skills that prepare them for expanded career opportunities and professional advancement. Graduates from this concentration are prepared to work in systems administration and cybersecurity for Internet and telecommunication companies, a wide variety of information technology providers and information technology centers within most midsize to large corporations. Demand for graduates with these skills continues to rise even while the job market in many other areas is stagnant or declining.

Computer Systems (Computer Hardware Technology), BS (TSCSTHBS)

Campus: POLY

Program Description: The computer hardware technology concentration, under the B.S. in computer systems, offers students the opportunity to develop knowledge and skills in the broad area of digital systems, computer hardware and computer network applications. Current computing

industry needs drive the program's curriculum. The computer systems program uses mathematics, science and economics along with technological knowledge and skill in the application of programming languages, computer hardware, operating systems and networking to design, analyze, implement and test systems that integrate hardware and low-level software. The program is problem-based with exercises utilizing the languages, tools and methods of computing best practices.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Career Opportunities: Graduates find employment opportunities as members of engineering teams working in computer hardware technology, systems development and system analysis. The current demand for highly trained software and computer hardware personnel is high, and the starting salaries for these employees are typically well above the average.

Electronics Engineering Technology (Alternative Energy Technologies), BS (TSEETABS)

Campus: POLY

Program Description: Students in this program are people who enjoy the practice of engineering technology. As graduates, they often work as members of design and development teams, cooperating with other people in and outside their company. The emphasis in this program is placed on understanding how engineering technology principles are applied in practice. The electronics engineering technology program has a practice-based

approach and uses laboratories and industry projects to make electronics engineering real to students. All the faculty members teaching in the program have industry experience.

The goal of the curriculum is to serve the needs of students interested in the applied aspects of electronics engineering at the baccalaureate level. Major components of the program include:

- Design.
- Electronics-related technical courses.
- Engineering science.
- General education.
- Science and mathematics.

The first two years of curriculum include fundamental courses in English, chemistry, math and engineering science (e.g., circuits, devices and digital electronics). Students customize their degree with a specialized concentration.

The alternative energy technologies concentration, under the B.S. in electronics engineering technology, explores the demands of energy resources in the new economy. This program strives to educate individuals in the use of energy sources such as solar, wind, ocean, geothermal and biomass. At the heart of the program is the concept of the solar-hydrogen cycle, an energy scenario including production of electricity from solar energy, and utilization of that electricity to split water into its elemental parts. This program provides hands-on laboratory experience on several energy conversion and storage technologies including photovoltaics, fuel cells, batteries, electrolyzers and supercapacitors. Thus, graduates are able to face the challenge of helping to improve the human quality of life, putting new innovative products into the marketplace and providing society with technological leadership.

This program is accredited by the Technology Accreditation Council (TAC) of ABET.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Career Opportunities: Graduates have an understanding of energy and power technology, the contribution of materials and components to the performance of electronic systems and how to exploit the power of integrated electronics to enhance productivity and technology solutions. The alternative energy technologies concentration is aimed at preparing graduates for careers in alternative energy as related to electric power conditioning, control systems, electronics and instrumentation. The specific positions might include:

- Application interface.
- Environmental and reliability analysis.
- Policy analysis.
- Process control.
- System design.
- Technology analysis.

Electronics Engineering Technology (Electronic Systems), BS (TSEETES)

Campus: POLY

Program Description: Students in this program are people who enjoy the practice of engineering technology. As graduates, they often work as members of design and development teams, cooperating with other people in and outside their company. The emphasis in this program is placed on understanding how engineering technology principles are applied in practice. The electronics engineering technology program has a practice-based approach and uses laboratories and industry projects to make electronics engineering real to students. All the faculty members teaching in the program have industry experience.

The goal of the curriculum is to serve the needs of students interested in the applied aspects of electronics engineering at the baccalaureate level. Major components of the program include:

- Design.

- Electronics-related technical courses.
- Engineering science.
- General education.
- Science and mathematics.

The first two years of curriculum include fundamental courses in English, chemistry, math and engineering science (e.g., circuits, devices, and digital electronics). Students customize their degree with a specialized concentration.

The field of electronics engineering technology applies mathematics, science and economics, along with state-of-the-art electronics techniques, materials and devices to solve technological problems and to produce useful products. The concentration in electronic systems, under the B.S. in electronics engineering technology, allows students to develop a broad-based knowledge of electrical/electronic fundamentals with an applications perspective.

This program is accredited by the Technology Accreditation Commission (TAC) of ABET.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Career Opportunities: Graduates have an understanding of energy and power technology, the contribution of materials and components to the performance of electronic systems and how to exploit the power of integrated electronics to enhance productivity and technology solutions. The electronic systems concentration prepares persons for careers in control, electronics, instrumentation and power systems applications. Engineering technologists typically work as members of engineering teams in applied design, product development, manufacturing, production or operations. They may also be employed in technical services capacities, including field engineering, marketing or sales.

Engineering, BSE (TSEGRBSE)

Campus: POLY

Program Description: Solving today and tomorrow's complex problems requires a broad set of interdisciplinary engineering skills. Engineers:

- Design innovative products.
- Improve the quality of life for humankind.
- Prepare for challenges of the future.
- Provide technological leadership.

The B.S.E. is a unique degree program that educates creative engineers who can meet these challenges. The program will provide you with broad foundational knowledge in addition to study in multiple focus areas, providing breadth and depth. Because of the program's novel focus area structure, you have the flexibility to tailor your education to achieve your individual career and life goals. Every semester, you will work as a member of a student team to complete an engineering project in which you will develop and implement the solutions to realistic problems. You will graduate with a wealth of multidisciplinary experience and expertise and be well prepared to begin a career or continue in postgraduate education.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Transfer Agreements: ASU has partnered with the following institutions to enable you to do a seamless transfer:
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities: Engineers normally work as a member of a team that designs, manufactures and delivers technological objects and services. These teams are usually multidisciplinary, and employers frequently seek specific technical skills as opposed to a specific type of engineering degree. Many engineers work in large corporations and governments; others work in small companies or start companies of their own.

Environmental Technology Management, BS (TSETMBS)

Campus: POLY

Program Description: Environmental technology management is designed to provide graduates with the critical scientific, technical and management skills needed to solve the environmental challenges in today's highly regulated and competitive business climate. The curriculum

includes courses in biology, chemistry, physics, advanced math and statistics. Building on this background, students take course work directly related to industry and environmental law including:

- Capstone project.
- Environmental chemistry.
- Environmental regulations.
- Environmental management.
- International environmental management.
- Occupational hygiene.
- Project management.
- Solid and hazardous waste management.
- Technical communication.
- Unit treatment technologies.
- Water and wastewater treatment.

A joint B.S./M.S. degree option is available in which up to nine hours of the B.S. degree may be applied toward the 33 hours required for the master's in environmental technology management. A special application is required for this option.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 251

Career Opportunities: Graduates are prepared as environmental, health and safety professionals in industrial settings, for work in environmental regulatory agencies or environmental engineering consulting firms. They are firmly grounded in the scientific, technical and legal problems facing managers in today's business climate.

Food Industry Management, BS (BAFIMBS)

Campus: ONLNE, POLY

Program Description: This food industry management program is unique and has been developed in close coordination with partners in the food industry to help ensure graduates have the knowledge and skills needed to become immediate leaders in the industry. Students will combine core courses in other business disciplines (finance, marketing, management, accounting, supply chain management and economics) with upper-division courses specific to the food industry.

Students will select from courses in:

- Environmental management and sustainability.
- Food industry sales and management.
- Food marketing strategy.
- Food supply networks.
- Food retailing.
- Futures and options markets.
- Innovation and food product development.
- Insurance.
- Pricing and promotion strategy in food markets.
- Retail information analysis.
- Risk management.

Each of these courses addresses a different issue in which fundamental concepts, theoretical approaches and analytical methods and industry practice are unique to the food industry, so cannot be obtained in a traditional business degree. There are no comparable programs in the U.S. Southwest, but peer and aspirational peer institutions to ASU offer similar programs and report excellent placement rates and graduating salaries.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Career Opportunities: The B.S. in food industry management prepares students for business careers in the food industry, which is defined as the group of firms and organizations involved with manufacturing, marketing and distributing food beyond the farm to retail stores, restaurants and institutions such as schools and hospitals. Employing one in six people nationwide and 100,000 in Arizona alone, there is a growing demand for professional management in an industry that is becoming increasingly competitive, sophisticated and global.

Potential careers for B.S. food industry management graduates include, but are not limited to:

- Brand manager for a food manufacturing firm.
- Commodities trader for an investment bank or hedge fund.
- District manager for a food retailer.
- Loan officer for a bank with a food-industry portfolio.
- Or a host of other highly paid occupations.

Graphic Information Technology, BS (TSGITBS)

Campus: ONLNE, POLY

Program Description: The cross-media nature of the graphic information industry requires tomorrow's graduates to understand the full spectrum of graphic technology, reproduction processes and current business practices. The B.S. in graphic information technology degree program prepares graduates for a seamless career as a graphic technologist encompassing web development and internet technologies, printing and digital publishing, and commercial and technical imaging. This is an intensive program of study emphasizing theory and hands-on laboratory practice. Students develop the following skills:

- Commercial and technical photography.
- Computer drawing and illustration.
- E-commerce practices.
- Gaming and simulation technologies.
- Higher-level graphic programming languages.
- Multimedia and 3-D modeling.
- Premedia, digital publishing, and print technologies.
- Project management.
- Quality assurance.
- Technical document design.
- Web development and interactive technologies.

The National Association of Industrial Technology professionally accredits the graphic information technology program.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Career Opportunities: Graphic information technology prepares graduates for technical and management positions in the diverse graphic communication and information technology industries, such as:

- Commercial and technical imaging.
- Internet and web development.
- Management of graphic information assets.
- Planning and evaluation of print, Internet, multimedia and computer-based communications.
- Premedia, digital printing and publishing.
- Quality assurance of graphic products.
- Technical/digital media production.

Manufacturing Engineering Technology, BS (TSMETBS)

Campus: POLY

Program Description: Everything we use in society is manufactured. And someone has to engineer the processes and products that accomplish that manufacturing. Manufacturing engineers design, develop and coordinate the processes and systems for making every kind of product imaginable. As businesses try to make products of higher quality but at less cost, manufacturing engineers are key in the engineering value-add chain. Students in this program are people who like to make things, especially making them better, faster and at a lower cost. They are hands-on people who also want to be a part of the design process, and they enjoy working with people as part of a team or as its leader.

Manufacturing engineers apply engineering principles to the producing products and are key team members in the production of automobiles, airplanes, electronic devices, surgical instruments, toys, building products, foodstuffs and recreational equipment. Manufacturing engineers design the processes and systems to make products with the required functionality, to desired quality standards, when and where customers want them, at the best possible price and in environmentally-friendly ways. To help prepare students for this reality, student groups are used in first-year classes and continue through the senior year.

Manufacturing engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Our entire faculty has real-world engineering experience, which they use to teach students how to apply engineering theory to practice in state-of-the-art labs stocked with up-to-date equipment being used in industry today. The manufacturing lab at the Polytechnic campus are an outstanding resources, without peer within Arizona. The faculty will teach you how to produce practical and technically innovative solutions to real-world manufacturing problems.

The first two years of curriculum include fundamental courses in:

- Computer-aided design and geometric tolerances and dimensioning.
- Engineering science (e.g., statics, mechanics of materials).
- Manufacturing processes.
- Materials.
- Physics, chemistry, calculus and English.

The manufacturing engineering technology program is accredited by the Technology Accreditation Council (TAC) of ABET, Inc., www.abet.org (<http://www.abet.org/>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Career Opportunities: Graduates typically work as manufacturing engineers in a variety of companies, large and small. They are often members of design and development teams, cooperating with other people in and outside of their company. Career employment opportunities include direct manufacturing support, manufacturing management and quality control and assurance. Due to a strong, practical engineering skill set, graduates are valuable in small companies or new start-up companies. Our graduates are well placed and command top salaries in their engineering careers.

Manufacturing Engineering Technology (Mechanical), BS (TSMETMBS)

Campus: POLY

Program Description: Everything we use in society is manufactured. And someone has to engineer the processes and products that accomplish that manufacturing. Manufacturing engineers design, develop and coordinate the processes and systems for making every kind of product imaginable. As businesses try to make products of higher quality but at less cost, manufacturing engineers are key in the engineering value-add chain. Students in this program are people who like to make things, especially making them better, faster and at a lower cost. They are hands-on people who also want to be a part of the design process, and they enjoy working with people as part of a team or as its leader.

Manufacturing engineers apply engineering principles to the producing products and are key team members in the production of automobiles, airplanes, electronic devices, surgical instruments, toys, building products, foodstuffs and recreational equipment. Manufacturing engineers design the processes and systems to make products with the required functionality, to desired quality standards, when and where customers want them, at the best possible price and in environmentally-friendly ways. To help prepare students for this reality, student groups are used in first year classes and continue through the senior year.

Students can customize their manufacturing engineering technology degree with a specialized mechanical concentration. The mechanical engineering technology concentration offers manufacturing students an emphasis in mechanics and design, strengthening their ability to work in teams focused on mechanical design and manufacture of products. This option is often sought by students that have a strong product development interest.

Manufacturing engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Our entire faculty has real-world engineering experience, which they use to teach students how to apply engineering theory to practice in state-of-the-art labs stocked with up-to-date equipment being used in industry today. Mechanical Engineering Technology, BS (TSMECBS)

Campus: POLY

Program Description: Mechanical engineering technology is about solving the problems that impact people lives. This may be by designing and prototyping a new light source for very poor people in Africa or developing a novel water treatment system. Or it may be by helping to design and build the next generation car or aircraft by learning about how products work, how to design and make them, and how to improve upon them.

Physical sciences (e.g., physics and chemistry) materials, things in motion, the forces that put or keep them in motion, energy and its production and use, component and system design, and manufacturing --- these comprise the world of mechanical engineering. If something uses energy or moves, mechanical engineering was involved in its design or production.

Mechanical engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Our faculty members have real-world engineering experience, which they use to teach students how to apply engineering theory to practice in state-of-the-art labs stocked with up-to-date equipment being used in industry today. The faculty will teach you how to produce practical and technically innovative solutions to real world problems --- helping people and the environment.

The first two years of curriculum include fundamental courses in:

- Computer-aided design.
- Engineering science (e.g., statics, mechanics of materials).
- English.
- Manufacturing processes.
- Materials.
- Physics, chemistry and calculus.

This program is accredited by the Technology Accreditation Council (TAC) of ABET, Inc., www.abet.org (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Career Opportunities: Graduates often work as members of design and development teams, cooperating with other people in and outside of their company. The B.S. in mechanical engineering technology and its specialty concentrations offer great flexibility in type of work and location.

Employment opportunities exist in companies that design, develop, manufacture, implement, and improve products, machinery and systems.

Employment areas include engineering design, manufacturing, and research and development. Companies large and small, in this region and elsewhere, provide a wide range of opportunities for graduates.

Mechanical Engineering Technology (Aeronautical Engineering Technology), BS (TSMECEBS)

Campus: POLY

Program Description: Mechanical engineering technology is about solving the problems that impact people lives. This may be by designing and prototyping a new light source for very poor people in Africa or developing a novel water treatment system. Or it may be by helping to design and build the next generation car or aircraft by learning about how products work, how to design and make them, and how to improve upon them.

Physical sciences (e.g., physics and chemistry), materials, things in motion, the forces that put or keep them in motion, energy and its production and use, component and system design, and manufacturing --- these comprise the world of mechanical engineering. If something uses energy or moves, mechanical engineering was involved in its design or production.

Great examples of this are aircraft and their systems. Thus, the mechanical engineering technology program offers a specialty concentration in aeronautical engineering technology. This concentration provides a specialization in aircraft, with classes in aircraft systems, design and performance, structures and aerodynamics, including wind tunnel testing.

Mechanical engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Our faculty members have real-world engineering experience, which they use to teach students how to apply engineering theory to practice in state-of-the-art labs stocked with up-to-date equipment being used in industry today. The faculty will teach you how to produce practical and technically innovative solutions to real world problems --- helping people and the environment.

The first two years of curriculum include fundamental courses in:

- Aircraft systems.
- Computer-aided design.
- Engineering science (e.g., statics, mechanics of materials).
- English.
- Manufacturing processes.
- Materials.
- Physics, chemistry and calculus.

The mechanical engineering technology program is accredited by the Technology Accreditation Council (TAC) of ABET, Inc., www.abet.org (<http://www.abet.org/>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Career Opportunities: Graduates often work as members of design and development teams, cooperating with other people in and outside of their company. The B.S. in mechanical engineering technology and its aeronautical engineering technology specialty concentration offer great flexibility in type of work and location. Due to their aeronautical specialty concentration, graduates are prepared to seek employment in aviation-related companies, large and small, in this region and elsewhere, providing a wide range of opportunities for graduates. Employment areas include engineering design, manufacturing and research and development. Or, since their degree is in mechanical engineering technology, students can seek traditional mechanical engineering employment opportunities in companies that design, develop, manufacture, implement and improve products, machinery and systems.

Mechanical Engineering Technology (Automation Engineering Technology), BS (TSMECUBS)

Campus: POLY

Program Description: Mechanical engineering technology is about solving the problems that impact people lives. This may be by designing and prototyping a new light source for very poor people in Africa or developing a novel water treatment system. Or it may be by helping to design and build the next generation car or aircraft by learning about how products work, how to design and make them, and how to improve upon them. Physical sciences (e.g., physics and chemistry), materials, things in motion, the forces that put or keep them in motion, energy and its production and use, component and system design, and manufacturing --- these comprise the world of mechanical engineering. If something uses energy or moves, mechanical engineering was involved in the design or production.

A great example of this is industrial automation, which includes robots. Thus, the mechanical engineering technology program offers a specialty concentration in automation engineering technology. This concentration provides a specialization in machine and manufacturing process automation, including robotic systems. Automated assembly and testing are major components of most modern mechanical systems and manufacturing operations.

Mechanical engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Our faculty members have real-world engineering experience, which they use to teach students how to apply engineering theory to practice in state-of-the-art labs stocked with up-to-date equipment being used in industry today. The automation lab at the Polytechnic campus is an outstanding resource, one without peer within Arizona. The faculty will teach you how to produce practical and technically innovative solutions to real-world problems --- helping people and the environment.

The first two years of curriculum include fundamental courses in:

- Computer-aided design.
- Engineering science (e.g., statics, mechanics of materials).
- English.
- Manufacturing processes.

- Materials.
- Physics, chemistry and calculus.

The mechanical engineering technology program is accredited by the Technology Accreditation Council (TAC) of ABET, Inc., www.abet.org (<http://www.abet.org/>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Career Opportunities: Graduates often work as members of design and development teams, cooperating with other people in and outside of their company. The B.S. in mechanical engineering technology and its automation engineering technology specialty concentration offer great flexibility in type of work and location. Due to the automation specialty concentration, graduates are prepared to seek employment in any company that employs automated manufacturing equipment, large and small, in this region and elsewhere, providing a wide range of opportunities for graduates. This is a very wide spectrum - including food and beverage processing, aerospace and automotive manufacturing or power companies. Or, since their degree is in mechanical engineering technology, students can seek traditional mechanical engineering employment opportunities in companies that design, develop, manufacture, implement and improve products, machinery and systems.

Mechanical Engineering Technology (Automotive), BS (TSMECTBS)

Campus: POLY

Program Description: Mechanical engineering technology is about solving the problems that impact people lives. This may be by designing and prototyping a new light source for very poor people in Africa or developing a novel water treatment system. Or it may be by helping to design and build the next generation car or aircraft by learning about how products work, how to design and make them, and how to improve upon them. Physical sciences (e.g., physics and chemistry) materials, things in motion, the forces that put or keep them in motion, energy and its production and use, component and system design, and manufacturing --- these comprise the world of mechanical engineering. If something uses energy or moves, mechanical engineering was involved in its design or production.

A great example of this is automobiles and other vehicles. Thus, the mechanical engineering technology program offers a specialty concentration in vehicle design. A novel concentration course configuration is based on the functional structure of an automotive company and emphasizes system integration of power plants, chassis and related systems.

Mechanical engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Our faculty members have real-world engineering experience, which they use to teach students how to apply engineering theory to practice in state-of-the-art labs stocked with up-to-date equipment being used in industry today. The automotive lab at the Polytechnic campus is an outstanding resource, one without peer within Arizona. The faculty will teach you how to produce practical and technically innovative solutions to real world problems --- helping people and the environment.

The first two years of curriculum include fundamental courses in:

- Computer-aided design.
- Engineering science (e.g., statics, mechanics of materials).
- English.
- Manufacturing processes.
- Materials.
- Physics, chemistry and calculus.

The mechanical engineering technology program is accredited by the Technology Accreditation Council (TAC) of ABET, Inc., www.abet.org (<http://www.abet.org/>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Career Opportunities: Graduates often work as members of design and development teams, cooperating with other people in and outside of their company. The B.S. in mechanical engineering technology and its automotive engineering technology specialty concentration offer great flexibility in type of work and location. Due to the automotive specialty concentration, graduates are prepared to seek employment in automotive-related companies, from large OEM to smaller specialty or aftermarket companies. For instance, graduates have been well received in automotive testing facilities located in Arizona. Or, since the degree is in mechanical engineering technology, students can seek traditional mechanical engineering employment opportunities in companies that design, develop, manufacture, implement and improve products, machinery and systems.

Software Engineering, BS (TSSERBS)

Campus: POLY

Program Description: The program blends engineering, computing, project leadership and technology education. Software systems are complex, often including in excess of a million lines of code. Graduates of the B.S. in software engineering will possess knowledge and skills of a defined engineering approach to complex systems analysis, planning, design and construction. The program is a unique project-driven curriculum, establishing a new model for software engineering education. The program is built around the concepts of engaged learning, discovery-based education and learn-by-doing. Students complete projects in every semester of the program, to provide emphasis in communication, team-work, communication, critical thinking and professionalism. Students have a high degree of flexibility in designing their course of study; they select a software engineering application area as their primary focus, and they may obtain interdisciplinary knowledge through a secondary area of their choosing.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Career Opportunities: Software engineers solve a broad set of interdisciplinary problems and apply new technologies to improve the quality of life. Graduates design and engineer innovative systems that may include mechanical and electrical components that interact with software. The B.S. in software engineering is a unique program in which students learn by solving engaging projects, commonly as a member of a development team. The program prepares graduates for advanced study in computing, an allied field or to enter the computing profession, most commonly as an application software engineer. According to the Bureau of Labor Statistics, software engineers are highly paid, and there is significant growth in the number of employment opportunities. Some software engineering jobs may include:

- Creating video games.
- Creating Web applications.
- Designing embedded systems.
- Developing distributed applications.
- Working on data, network, security or computer system administration.

Technological Entrepreneurship and Management, BS (TSTEMBS)

Campus: ONLINE, POLY

Program Description: The B.S. in technological entrepreneurship and management (TEM) bridges the gap between technology and business for students who want to launch their own technology-based ventures, profit or nonprofit, or prepare for a career in product or service design and development. TEM is a collaborative effort, bringing together faculty from diverse programs focused on entrepreneurship and technological advances across campuses.

TEM students receive a foundation in technology and business fundamentals, with an emphasis on entrepreneurship and innovation in one of many focus areas:

- Alternative energy.
- Digital media.
- Process innovation and development (provides a deep grounding in quality management, including Six Sigma).
- Product design and development.
- Project leadership (prepares students for project management certification by the Project Management Institute).
- Social entrepreneurship.

All courses required for the process innovation and development and project leadership focus areas can be completed within the 120 hours required for the TEM degree. Dedicated advisors help guide students in their course of study, choose the right courses and stay on track for an on-time graduation.

Students work in collaborative project teams that may include students from other academic degree programs who have enrolled in TEM courses to complement their primary course of study. Students from other academic programs have the option of attaining a TEM certificate, minor or double major. This cross-pollination mirrors the real-world, multi-disciplinary approach to solving complex technical challenges and developing high-impact, high-value products.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states, who select this major and campus, may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(<http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-science-technological-entrepreneurship-and-management>)

Career Opportunities: Small businesses and start-ups create the majority of new jobs in the U.S., while larger corporations are looking to hire individuals who can see the big picture and solve complex problems. Students in the TEM program learn the range of skills needed to develop new products, services and business models, as well as whole new industries. TEM prepares students for a wide variety of career possibilities, including:

- Business development.
- Consulting.
- Market analysis.
- Product development.
- Technology-based entrepreneurship.
- Technology marketing
- Venture capital analysis and many more.

Literacy and Critical Inquiry (L)	3		
Elective	1		
Minimum 2.00 GPA ASU Cumulative.			
Term hours subtotal:	13		

- Accounting Scholars Program students will replace courses listed above with courses listed in "Accounting Scholars Program Term 8 Courses" track.

- For a list of Upper Division Business Elective course options, please visit the following website: [Accountancy Tempe Upper Division Business](#)

Elective Options.

Scholars Program Track

Application required. To be eligible, students must be W. P. Carey Accountancy majors who have completed a minimum of 72 credit hours of coursework and earned a minimum cumulative GPA of 3.50 and a minimum major (ACC) GPA of 3.50. The 72 hours must include at least six hours of accounting courses at the 300- level or higher taken in the School of Accountancy.

Students in the Accounting Scholars Program (<http://wpcarey.asu.edu/accounting/undergraduate/asp.cfm>) complete the following courses in terms 7 and 8.

- Term 7 Note: Courses are 3 credit hours each, with the exception of the Elective course, which is 2 credit hours.
- Term 8 Note: Courses are 3 credit hours each, with the exception of ACC 484: Internship, which is 6 credit hours.

Accounting Scholars Program Term 7 Courses	Accounting Scholars Program Term 8 Courses
ACC 450: Principles of Auditing	ACC 484: Internship
ECN 306: Survey of International Economics (SB & G)	ACC 444: Enterprise Process Analysis and Design
Elective	ACC 494: Special Topics
Literacy and Critical Inquiry (L)	
Upper Division Humanities, Fine Arts and Design (HU)	

Notes:

- Total UD Hours: 51 Upper Division Hours Required for all W. P. Carey School of Business degree programs.
- Transfer UD Business Course Hours: 9 Hours Maximum.
- Community College Business Hours: 30 Hours Maximum.

Total Hours: 120
Upper Division Hours: 45 minimum
Major GPA: 2.00 minimum
Cumulative GPA: 2.00 minimum
Total hrs at ASU: 30 minimum
Hrs Resident Credit for Academic Recognition: 56 minimum
Total Community College Hrs: 64 maximum

Graduation Requirements Summary:

Total Hours (120)	Total Hrs at ASU (30)	Hrs Resident Credit for Academic Recognition (56)	Transfer UD Bus. Hrs (9 max)	Overall GPA (2.000 Min.)	BUS GPA (2.000 Min.)	Major GPA (2.000 Min.)	C Min. Req.	Total UD Hrs (51)	Total Comm. College Hrs. (64 Max)	Total Comm. Coll. Bus. Hrs. (30 Max)

General University Requirements: Legend

- General Studies Core Requirements:
 - Literacy and Critical Inquiry (L)
 - Mathematical Studies (MA)
 - Computer/Statistics/Quantitative applications (CS)
 - Humanities, Fine Arts, and Design (HU)
 - Social and Behavioral Sciences (SB)
 - Natural Science-Quantitative (SQ)
- Natural Science-General (SG)
- General Studies Awareness Requirements:
 - Cultural Diversity in the U.S. (C)
 - Global Awareness (G)
 - Historical Awareness (H)
- First-Year Composition

Additional Notes:

The critical requirements listed are the minimum requirements for any degree program in the W. P. Carey School of Business. Some degree programs have higher minimum requirements. Business Exploratory students should check the critical requirements and critical courses for any degree program they might be interested in pursuing.

Prior to the fourth semester of undergraduate study, Bachelor of Science business exploratory students must choose a degree program from the following W. P. Carey business degrees:

- Accounting
- Computer Information Systems
- Economics
- Finance
- Management
- Marketing
- Supply Chain Management

After choosing a business degree program, students must meet the critical requirements for that program.

Term hours subtotal:	13		

- Technical Elective and Design Elective requirements: Complete a total of 2 design electives.
- Technical Elective(s) must add up to 4 hours. Students can either take one class at 4 hours or take two courses at 3 hours and 1 hour.

Term 8 108 - 120 Credit Hours	Hours	Minimum Grade	Notes
CEE 400: Earth Systems Engineering and Management ((L or HU)& H)	3	C	
CEE 486: Integrated Civil Engineering Design (L)	4		
CON 496: Construction Contract Administration (L)	3		
Upper Division Elective	3	C	
Term hours subtotal:	13		

- Technical Elective and Design Elective requirements: Complete a total of 2 design electives.

Design Elective	Technical Elective
CEE 421: Concrete Structures	CEE 462: Unit Operations in Environmental Engineering
CEE 420: Steel Structures	CEE 467: Environmental Microbiology
CEE 452: Foundations	CEE 452: Foundations

CEE 420: Steel Structures

CEE 421: Concrete Structures

CEE 423: Structural Design

CEE 432: Developing Software for Engineering Applications

CEE 412: Pavement Analysis and Design

CEE 474: Transportation Systems Planning

CEE 475: Highway Geometric Design

CEE 481: Civil Engineering Project Management

CEE 483: Highway Materials, Construction, and Quality

CEE 440: Hydrology

CEE 441: Water Resources Engineering

CEE 466: Urban Water System Design

CON 296: Field Internship

CON 310: Testing of Materials for Construction

CON 345: Mechanical Systems

CEE 372: Transportation Engineering

CON 494: Trenchless Construction Mth

CON 296: Field Internship

CEE 494: Steel Bridge Design

CEE 494: Concrete Canoe Design

General Studies designations listed on the major map are current for the 2012 - 2013 academic year.

Arizona State University
School of Nutrition and Health Promotion
Bachelor of Applied Science Degree
Food Service Management Concentration

The B.A.S. degree with a concentration in Food Service Management is designed to complement and enhance the educational preparation of students holding an A.A.S. degree. The concentration is particularly designed for students holding an A.A.S. degree in culinary or hospitality science. The degree prepares students for careers in food production, service, management, and marketing. With additional education and/or professional training, students may also become credentialed as certified dietary managers, school food service and nutrition specialists, or registered sanitarians.

Admission to the B.A.S. degree program is restricted to students holding an A.A.S. degree from a regionally accredited U.S. postsecondary educational institution. A GPA of 2.00 or higher is required for all resident applicants and a 2.50 is required for nonresident applicants. The B.A.S. degree consists of 60 semester hours which must include a minimum 45 credits of upper-division (300 level and above) courses. A total of 120 semester hours is required for graduation.

General Studies (16 credits)

	Credits	Recommended courses
Mathematical Studies (MA or CS)	3	MAT 117 or MAT 142
Natural Sciences (SQ)	4	Any SQ
Literacy and Critical Inquiry (L)	3	ENG 301 or TWC 301
Humanities, Fine Arts, and Design (HU)	3	Any HU course
Social and Behavioral Sciences (SB)	3	Any SB course

B.A.S. Area Core (18 credits)

	Credits
BUA 380 Small Business Leadership or MGT 300 Organization and Management Leadership or	3
BUA 381 Small Business Finance and Accounting	3

Barrett Academic Course Requirements

Honors students must maintain high standards of academic performance and show progress toward completion of graduation requirements in their disciplinary majors and in Barrett. In order to graduate from Barrett, students must complete the following, which includes a total of 36 credit hours of honors course work:

1. HON 171 and HON 272/273/274, *The Human Event*, must be completed in sequence during a student's first two semesters in the college.
2. Thirty additional credit hours of honors course work must be earned with a letter grade of "C" (2.00) or higher. This may include HON prefix classes, honors sections of classes, honors enrichment contracts or any automatic honors courses such as ENG 105 (in-person sections), CEE 486, PHY 333, or graduate-level courses.
3. Included in the 36 credit hours of honors course work are at least 18 hours of upper-division or graduate-level honors credits for an earned letter grade of "C" (2.00) or higher, including six credit-hours of honors course work outside the academic major. Students should investigate specialized honors, upper-division tracks within their majors.
4. Those admitted as upper-division transfer students (defined as 48 post-high school university credits completed by the time of planned enrollment in Barrett) must complete a three-credit, 300-level HON special topics course in addition to the 18 required hours of upper-division honors course work. Six of the 21 honors credits must be outside the academic major. A total of 21 hours of upper-division honors course work are required for these upper division transfers because they do not have time to complete all 36 honors hours.
5. Students are required to complete an honors thesis or creative project for at least three credit-hours, though students are encouraged to complete six credit-hours of thesis or creative project work. These credit hours may be included in the 18 required hours of upper-division, honors course work. The honors thesis or creative project is launched with a prospectus due one academic year before the defense. The final copy of the honors thesis or creative project must be filed by the posted deadline during the student's graduation semester.
6. ASU graduation requirements in an academic major must be met.
7. Students must maintain a cumulative ASU GPA of 3.25 or higher.

Barrett course requirements may be met in a variety of ways. There are two specific required courses for first-year students. Only courses in which a student receives a grade of "C" (2.00) or higher may be used to meet Barrett requirements.

Those entering the college as lower-division students may take as many as 18 lower-division honors credits, which include HON 171 and 272/273/274 *The Human Event*, and at least 18 upper-division credits (total honors credits must be 36). HON 171, 271, 272, 273 are cross-disciplinary seminars that acquaint students with ideas that form the foundation of a university education and emphasize critical thinking, discussion and writing.

Those who enter as upper-division students must take 21 upper-division honors credits, including a required 300-level honors course. Junior-level seminar courses introduce students to critical thinking, discussion and writing in a

topical area chosen by the instructor. All students are expected to complete this course no later than the first or second semester after transferring.

Departmental honors-only courses are limited to honors students and others who receive special permission from the instructor to enroll. Enrollment in these courses is limited. Compared to their non-honors equivalents, these courses are designed to offer a richer, more complex intellectual experience appropriate to the discipline and the level of the course for all students enrolled. Other disciplinary honors courses group honors students in small cohorts to work on research projects of common interest.

Honors enrichment contracts are available in many departmental courses allowing honors students to contract with the instructor of designated non-honors courses to earn honors credit by pursuing enrichment activities, which include supplemental sessions with the instructor. Honors enrichment contracts must be filed by the student during the first four weeks of class and completed during the semester in which the course is offered. The enrichment contract form offers guidelines to aid students and faculty in developing appropriate contracts.

Course numbers listed in the online ASU schedule of classes as 298/492 Honors Directed Study, 493 Honors Thesis, 497 Honors Colloquium, all classes with the HON prefix, and those with departmental prefix that carry the honors designation as a notation are reserved for students in Barrett and always count for honors credit. Students may receive credit for more than one of each of these courses in a given department.

The departmental course with the number 493 is reserved for honors students completing their honors thesis or creative project. A student may enroll for this course only with the approval of the sponsoring academic department and of the faculty member who serves as the student's thesis or creative project director. Course numbers listed in the online ASU schedule of classes as 493 fulfill the student's upper-division literacy and critical inquiry (L) General Studies requirement.

There are certain courses that carry automatic honors credit. These include ENG 105 (any in-person section), CEE 486, and PHY 333. Graduate level courses automatically earn honors credit.

HST 201: Historical Themes in Asia

HST 203: Historical Themes in Latin America (SB & H)

HST 240: Introduction to Southeast Asia ((HU or SB) & G)

HST 303: Studies in Asian History

HST 305: Studies in Latin American History

HST 307: Studies in African History

HST 375: Colonial Latin America (SB & H)

HST 376: Modern Latin America (SB & H)

HST 377: Women in Colonial Latin America (H)

HST 378: Latin American Women: The National Period (SB & G & H)

HST 379: Rebellion & Revolution/So Amer

HST 380: Cultural History of Latin America (SB & H)

HST 383: China (SB & H)

HST 384: China (SB & G & H)

HST 385: History of Chinese Medicine (HU & H & G)

HST 386: Interpreting China's Classics ((L or HU)& H)

HST 387: Japan ((L or SB) & H)

HST 388: Japan (SB & G & H)

HST 389: Japan Society and Values/Premod

HST 391: Modern Southeast Asia (SB & G & H)

HST 443: The United States & Latin America (SB & G & H)

HST 444: Latin American Independence ((L or HU) & G & H)

HST 445: 20th-Century Cuba (SB & G & H)

HST 446: Colonial Mexico (SB & H)

HST 447: Modern Mexico (SB & H)

HST 448: Mexican/U.S. Border

HST 449: Mexican Immigration to the U.S. ((L or SB) & H & C)

HST 450: Postmodern Mexico ((L or HU) & G & H)

HST 451: Chinese Cultural History ((HU or SB) & H)

HST 452: Chinese Cultural History (SB & G & H)

HST 453: The People's Republic of China (SB & G & H)

HST 455: The United States and Japan (SB & G & H)

HST 456: The Vietnam War (SB & G & H)

Notes:

- Additional Notes:
 1. Twelve hours of upper division HST credits must be taken in the School of Letters and Sciences
 2. Students will select a related field in consultation with a faculty mentor or School of Letters & Sciences history academic advisor. The related field is comprised of 15 credit hours; nine credit hours must be upper division.
 3. There is room in this degree to add a concurrent degree, a minor, or a certificate.

Related Field Courses must be chosen from ONE of the following five options:

- American Indian Studies (AIS)
- English Literature (ENG)
- Political Science (POS)
- Religious Studies (REL)
- Science, Technology and Society (STS)

Total Hours: 120

Upper Division Hours: 45 minimum

Major GPA: 2.00 minimum

Cumulative GPA: 2.00 minimum

Total hrs at ASU: 30 minimum

General University Requirements Legend

General Studies Core Requirements:

- Literacy and Critical Inquiry (L)
- Mathematical Studies (MA)

General Studies Awareness Requirements:

- Cultural Diversity in the U.S. (C)
- Global Awareness (G)
- Historical Awareness (H)

**Hrs Resident Credit for
Academic Recognition:** 56 minimum
Total Community College Hrs: 64 maximum

- Computer/Statistics/Quantitative Applications (CS)
- Humanities, Fine Arts and Design (HU)
- Social and Behavioral Sciences (SB)
- Natural Science - Quantitative (SQ)
- Natural Science - General (SG)

First-Year Composition

General Studies designations listed on the major map are current for the 2012 - 2013 academic year.
